ACTIVE INGREDIENTS: Pyrethrins 0.4%; technical piperonyl butoxide 2.0%
(Equivalent to 1.6% (butylcarbityl) (6--propylpiperonyl) ether and 0.4%
related compounds).
INERT INGREDIENTS: 1.6%.

JOHNSON BUGGY WHIP AIRBORNE
ANOTHER GREAT RAID INSECTICIDE.

Kills crawling and flying insects. Even kills resistant roaches and flies.
Smells good, too. Power-packed -- for commercial, industrial and
institutional use. Not for use on plants.

DIRECTIONS: SHAKE BEFORE USING.

Don't waste Johnson's Buggy Whip. A little of this RAID product goes a long
way! To spray: Remove protective cap. Hold container upright. Point valve
opening away from face and press button.

To kill flying insects: flies, mosquitoes, flying moths, gnats, wasps. With
Johnson's Buggy Whip there is no need to spray directly at flying insects --
the mist in the air will kill them. Close all doors and windows. Spray Buggy
Whip up into the air with a sweeping motion, keeping about 3 feet from
interior walls fabrics, furniture and plants. Keep room closed 15 minutes.
About 10 seconds of spraying clears 1,000 cubic feet. Ventilate the area
after treatment is completed.

Not Reviewed. Registrant claims to be in accordance with
Reregistration of Pesticide Product Guidance for Phase 2
Response, Page 2.12, Active to Inert Change in Status.

To kill crawling insects: roaches, waterbugs, silverfish, crickets. Spray hiding places such as baseboards and floor boards, moist places, openings around sinks, drains and pipes, behind bookcases, cabinets and other storage areas hitting as many insects as possible. Repeat as needed.

To kill ants: Spray trails, hills, around windows and sills and openings around pipes and baseboards where ants crawl, hitting as many as possible.

To kill spiders, centipedes, sow bugs: Spray webs and places where these pests crawl. Hit as many as possible. Repeat as needed.

To kill carpet beetles: Hit these bugs directly with spray on sections of floor, baseboards, shelves and carpets. Repeat spraying at frequent intervals.

DIRECTIONS FOR USE (CONTINUED)

To kill bedbugs: Spray baseboards, moldings, floor boards. Spray mattresses, particularly around seams and tufts. Take beds apart and spray into all joints. Repeat spraying at frequent intervals.

To kill fleas: Spray floors, floor coverings and sleeping quarters of pet. Repeat spraying as often as necessary. Do not spray pets.

CAUTION: Contents under pressure. Never puncture or throw container into fire. Never set container on stove, radiators or place where temperature will exceed 120F, which may cause it to burst. Keep out of reach of children. Remove pets, birds and cover fish aquariums before spraying. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation. Do not remain in treated areas. Ventilate the area after treatment is completed. Keep spray in constant motion at least 36 inches away from walls, fabric, and furniture, floor, plastics, etc. Spraying closer may cause staining or damage certain floor or plastics.
