KEEP OUT OF REACH OF CHILDREN

CAUTION

(See additional precautions on back panel)

JOHNSON BUGGY WHIP AIRBORNE
ANOTHER GREAT RAID INSECTICIDE.

Kills crawling and flying insects. Even kills resistant roaches and flies. Smells good, too. Power-packed for commercial, industrial and institutional use. Don't waste Johnson's Buggy Whip. A little of this RAID product goes a long way! Not for use on plants.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

General Use Directions: SHAKE BEFORE USING. To spray: Hold container upright. Point valve opening away from face and press button, keeping at least 3 feet from interior walls, fabrics, furniture and plants. Spraying closer may cause stains or may damage certain floor or plastics. Leave treated area after spraying. Keep room closed for 15 minutes. Ventilate upon return.

To kill flying insects: flies, mosquitos, flying moths, gnats, wasps. With Johnson's Buggy Whip there is no need to spray directly at flying insects -- the mist in the air will kill them. Close all doors and windows. Spray Buggy Whip up into the air with a sweeping motion.

To kill crawling insects: roaches, waterbugs, silverfish, crickets. Spray hiding places such as baseboards and floor boards, moist places, openings around sinks, drains and pipes, behind bookcases, cabinets and other storage areas. Repeat as needed.

To kill ants: Spray trails, hills, around windows and sills and openings around pipes and baseboards where ants crawl. Repeat as needed.

To kill spiders, centipedes, sow bugs: Spray webs and places where these pests crawl. Repeat as needed.

To kill carpet beetles: Hit these bugs directly with spray on sections of floor, baseboards, shelves and carpets. Repeat spraying at frequent intervals.

To kill bedbugs: Spray baseboards, moldings, floor boards. Spray mattresses, particularly around seams and tufts. Take beds apart and spray into all joints. Repeat spraying at frequent intervals.

To kill fleas: Spray floors, floor coverings and sleeping quarters of pet. Repeat spraying as often as necessary. Do not spray pets.

For use in food processing areas: The use of this product in food processing plants should be confined to time periods when the plant is not in operation. Foods should be removed, covered or stored in

closed containers. Facilities and equipment must be thoroughly washed with an effective cleaning compound and rinsed with potable water after spraying.

STORAGE: Store in an area inaccessible to children.

DISPOSAL: Do not reuse empty container. Wrap container and put in trash.

**PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Harmful if absorbed through the skin. Avoid contact with skin, eyes and clothing. Wash hands thoroughly with soap and water after use and before eating or smoking. Do not apply to humans or animals. Do not use in serving area while food is exposed.

Remove pets, birds, and cover and turn off fish aquariums before spraying.

STATEMENT OF PRACTICAL TREATMENT

If on skin: Remove with soap and water. If irritation persists, seek medical attention.

If in eyes: Flush with plenty of water. If irritation persists, seek medical attention.

PHYSICAL OR CHEMICAL HAZARDS:

Content under pressure. Do not use or store near heat or open flame. Never puncture or throw container into fire. Exposure to temperature above 120F may cause bursting.
