RAID

RESIDUAL LIQUID

spray down where insects crawl

FIVE GALLONS

A PRODUCT OF JOHNSON WAX SERVICE PRODUCTS DIVISION

ACTIVE INGREDIENTS: 2-(1-methylethoxy) phenol methylcarbamate

1%

INERT INGREDIENTS:
(CONTAINS PETROLEUM DISTILLATE)

99%

100%

Not Reviewed. Registrant claims to be in accordance with
Reregistration of Pesticide Product Guidance for Phase 2
Response, Page 2.12, Active to Inert Change in Status.

(Side Panel)

Johnson Raid Residual Liquid is a highly effective residual liquid formulation which provides rapid knockdown and kill of crawling insects, including those resistant to certain chlorinated hydrocarbon and phosphate insecticides.

Kills cockroaches, crickets, earwigs, silverfish, saw-toothed grain beetles, waterbugs, millipedes, scorpions, sowbugs, spiders.

In addition to rapid kill, the residue on treated surfaces continues to kill insects for weeks after the residue has dried.

CAUTION: FLAMMABLE

DO NOT USE NEAR FIRE OR FLAME

DO NOT SMOKE WHILE SPRAYING

USE DIRECTIONS

Non-food Areas - such as garbage rooms, lavatories, floor drains, vestibules, entries, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and finished goods storage areas. Not for use on plants. Spray only on surfaces. Do not use as a space spray. Apply as a wet (coarse) spray to infested surfaces until wet. Apply with either power-operated or hand sprayer. Avoid excessive wetting of asphalt tile, rubber and plastic materials.

Roaches, Waterbugs - Spray into cracks, crevices, around baseboards, and other places where these insects hide. Spray until wet. Apply behind and beneath cabinets, refrigerators, sinks, and in and around waste containers. When insects are driven out, spray directly. Repeat as required.

Ants - Apply to ant trails, also around door and window frames where ants may enter. Repeat as required.

Silverfish, Crickets, Earwigs, Millipedes, Scorpions, Sowbugs, Spiders, Saw-Toothed Grain Beetles - Spray localized areas infested by these insects. Repeat as required.

Flies and Mosquitoes - For use outdoors only: As an aid in reducing annoyance from these insects, spray outside surfaces of screens, doors, window frames, or wherever these insects may enter. Also treat other places where these insects may alight or congregate.

Pest control in food handling areas of meat packing and food processing plants where exposed food is held, processed or served.

"Crack and crevice" treatment only." - Apply in small amounts in a pin-thin stream directly into cracks and crevices between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where insects hide. Do not use this product in conduits, motor housings or electrical switch boxes.

Controls cockroaches, crickets, earwigs, silverfish, waterbugs, millipedes, sowbugs, spiders. Aids in the control of saw-toothed grain beetles.

APPLICATIONS OF THIS PRODUCT IN AREAS WHERE FOOD IS HELD, PROCESSED OR SERVED, OTHER THAN AS A CRACK AND CREVICE TREATMENT, IS NOT PERMITTED.

In Inedible Products Areas

Apply as a residual spray to walls, ceilings, and other infested areas. Any exposed food products, equipment or packaging materials must be removed or covered before spraying. Rinse all equipment with water before resuming operations. Repeat as necessary.

Spraying unloading docks and outside areas where insects congregate will aid in preventing re-infestations. Good sanitation and proper disposal of wastes is essential in any effective insect control program.

CAUTION: May be harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing of spray mist and provide adequate ventilation of area being treated. Contact with skin, eyes, or clothing should be avoided. Wash thoroughly after use. Do not contaminate food, utensils, dishes, drinking water, or food preparation areas. At no time should food contact treated areas. Remove pets and cover fish bowls before spraying. Keep out of reach of children.

Do not allow children in treated areas until surfaces are dry.

To Physician: Atropine sulfate is antidotal.

Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place away from water supplies.
