NEW FORMULA
Flying Insect Killer

- Clean pleasant odor
- Non-staining formula
- Kills fleas on contact
- Controls flea infestations

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
Shake can before using. Hold container upright. Point valve opening away from face and press button.

To Kill Flying Insects

HOUSE FLIES, MOSQUITOES, SMALL FLYING MOTHS, WASPS: There is no need to spray directly at flying insects. Spray up into the air with a sweeping motion, keeping about 3 feet from interior walls, fabrics, furniture, until room is filled with mist. Keep room closed for 15 minutes. Ventilate room before reentering. Sweep up and destroy fallen insects. Repeat treatment as necessary.

To Kill Crawling Insects

FLEAS: Remove soiled pet bedding and clean thoroughly or destroy. Spray sleeping quarters of pets, around baseboards, windows, door frames, wall cracks and floors. Spray rugs and carpets where flea infestations are bad. Repeat as necessary. Do not spray animals. Put fresh bedding in pet quarters after spray has dried. For best results, dogs and cats should be treated with a registered flea control product before allowing them to enter the treated areas. If used on light or delicate upholstery fabrics, test in an inconspicuous place prior to use. Use Raid Flea Killer in conjunction with Raid Indoor Fogger for particularly heavy flea infestations and for a complete flea protection program.

ROACHES, SILVERFISH CRICKETS: Spray hiding places such as baseboards and pipes, behind bookcases, cabinets and other storage areas hitting as many insects as possible. Repeat as necessary.

ANTS: Spray trails, hills, around window frames and openings, around pipes and baseboards where ants crawl, hitting as many as possible. Repeat as necessary.

SPIDERS, CENTIPEDES, SCORPIONS: Spray webs and places where these pests crawl. Hit as many as possible.

CARPET BEETLES: Hit these bugs directly with spray on sections of floor, baseboards, shelves, and underside of carpets. Repeat spraying at frequent intervals.

DISPOSAL:

Do not reuse empty container. Wrap container and put in trash collection.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION

Keep out of reach of children. Do not remain in enclosed areas after use. Ventilate enclosed areas before returning. Avoid contamination of food and food stuffs. Remove pets, birds and cover fish aquariums before spraying.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 120°F may cause bursting.
