JOHNSON EXPOSE Phenolic Cleaner

Germicidal Cleaner Concentrate

ACTIVE INGREDIENTS:

o-benzyl-p-chlorophenol	4.79%
p-tert-amylphenol	4.41%
o-phenylphenol	2.53%
INERT INGREDIENTS:	88.27

KEEP OUT OF REACH OF CHILDREN
DANGER

See back panel for Statement of Practical Treatment (First Aid) and Additional Precautions

Net Contents: 1 gallon

Expose Phenolic Cleaner is a tuberculocidal germicide-plus-cleaner product especially formulated as a broad spectrum disinfectant. Expose provides effective bacterial control on floors, walls, woodwork, equipment, and similar hard surfaces not harmed by water. In one application, it cleans ... disinfects ... destroys odors. Expose can be used in the application of standard routine disinfecting procedures.

The germicides in Expose are phenolic compounds widely used in those places where bacterial control is needed. Expose is bactericidal at 1:128 (1 ounce per gallon) against Staphylococcus aureus, Salmonella choleraesuis, Escherichia coli, Streptococcus pyogenes, Pseudomonas aeruginosa, Enterobacter aerogenes and Proteus mirabilis according to the AOAC Use Dilution Test Method.

Expose is virucidal at 1:128 dilution against Influenza A2/Hong Kong and Parainfluenza I viruses according to the ASTM and EPA virucidal qualification tests.

Expose Phenolic Cleaner is recommended for institutional use only such as in hospitals, nursing homes, medical offices, schools and colleges, veterinary clinics, animal life science laboratories, and hotels.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with it's labeling.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

193

GENERAL USE DIRECTIONS FOR DISINFECTING:

For use on hard inanimate non-porous surfaces such as floors, walls, metal surfaces, porcelain, and plastic surfaces. Remove gross filth and heavy soil deposits, then thoroughly wet surfaces as required.

Use 1 ounce per gallon of water for a minimum contact time of 10 minutes in a single application. Can be applied with a mop, sponge, or cloth as well as spraying or soaking. The recommend use solution is prepared fresh for each use then discarded. Rinsing is not necessary unless floors are to be waxed or polished.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Causes eye and skin irritation. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. To protect eyes, wear goggles or face shield and to protect skin, wear rubber gloves when handling. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

PHYSICAL OR CHEMICAL HAZARDS:

Do not use or store near heat or open flame.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. If irritation persists, get medical attention. If swallowed, promptly drink a large quantity of water. Call a physician immediately. Avoid alcohol.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

STORAGE:

Do not store near heat or open flame. Keep from freezing.

PESTICIDE DISPOSAL

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

CONTAINER DISPOSAL

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

If 1 gallon or less:

Do not reuse empty container. Wrap container and put in trash.

General

Consult Federal, State or local disposal authorities for approval of alternative procedures such as limited open burning.
