Attention: Martine Albutton

Gentlemen:

Subject: Johnson J-80 Sanitizer
EPA Registration No. 4822-116
Your Submission Dated March 26, 1991
EPA Received Date March 28, 1991

The labeling referred to above, submitted in connection with Label Improvement Program Notice for Antimicrobial Products Used as Food Contact Surface Sanitizers, is acceptable and a stamped copy is enclosed for your records, provided you make the following label revisions:

1. The main panel (page 1) use directions should be expanded and provided with the major area of use (Refer to item 1 of DIS/TSS-17).
2. The third panel (page 3), and under use directions, expand the instructions to include "For mechanical operations, the limitation that the prepared use solution may not be reused for sanitizing but may be reused for other purposes such as cleaning." Refer to item 7 of DIS/TSS-17.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, registration will be subject to cancellation in accordance with FIFRA Section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

JOHNSON J-80 SANITIZER

Johnson J-80 Sanitizer is expressly formulated for the effective sanitizing of food processing equipment and work areas which have been previously cleaned. It is recommended for use in all areas where meat cutting, food preparation and other food services take place in stores and in commercial restaurants and kitchens.

J-80 saves time and labor because no after-rinse is required when used at the recommended concentration of 200 ppm of active quaternary. J-80 may be applied with either mechanical or manual spraying equipment. J-80 is effective as a sanitizer when diluted in water of up to 700 ppm hardness (as CaCO₃).

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For sanitizing surfaces of food processing equipment and work areas.

1. Clean all surfaces thoroughly with Johnson Breakup Cleaner. Tilt all movable surfaces for proper drainage. Rinse with hot water.
2. Mix 1-oz. J-80 Sanitizer with each gallon of water.
3. Wet surfaces thoroughly with J-80 solution.
4. Let surfaces drain and air dry. Do not rinse. Do not wipe.

For sanitizing multi-use eating and drinking utensils

1. Scrape and pre-wash utensils and glassware whenever possible.
2. Wash with a good detergent.
3. Rinse with clean water.
4. Sanitize in a solution of 1 oz. of J-80 to each gallon of water (200 ppm). Immerse all utensils for at least 2 minutes or for contact time specified by government sanitary code.

BEST AVAILABLE COPY

4822-116

5. Place sanitized utensils on a rack or drain board to air dry. Do not rinse. Do not wipe.

NOTE: Change sanitizer solution daily. Periodically test sanitizer solution for a concentration of 200 ppm active quaternary by using the test kit available for this purpose.

PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals

WARNING: Keep out of reach of children. Causes eye or skin irritation. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food. Avoid inhalation of spray mist.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of water. Avoid alcohol. Call a physician immediately.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: KEEP FROM FREEZING - Store in a cool dry area inaccessible to children.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

DISPOSAL: Do not reuse empty container. Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by State or local authorities, by burning. If burned, stay out of smoke.
