Racine, WI 53403

Subject: Johnson Fm8 Rac II Pressurized Disinfectant Spray
EPA Registration No. 4822-120
Your Amendment Application Dated August 11, 1988

The amendment referred to above, submitted in connection with registration under FIFRA is acceptable provided that you:

1. Make the labeling changes listed below:
 - a. Include the signal word "WARNING" on the front panel of the label directly above the statement "Keep Out Of Reach Of Children". You were previously instructed (EPA Letter dated May 4, 1979) to delete the word "WARNING" directly in front of the word "Flammable", not entirely from the label.
 - b. Delete all references to Mycobacterium tuberculosis from the label.
 - c. On the right panel, delete the words "many other surface germs" and "many other dangerous surface germs" and replace with "and the indicated organisms on hard, inanimate surfaces."

2. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

Sincerely yours,

John H. Lee
Product Manager 31
Antimicrobials Programs Branch
Registration Division (TS-767C)

SIDE BACK PANEL

kills staph, strep, many other surface germs

bacteriostatic residual action when not rinsed or washed off

eliminates odors

BACK PANEL

- o Kills staph, strep. T. interdigitate (athlete's foot fungus), many other dangerous surface germs.
- o Destroys and prevents mold and mildew.
- o Destroys many odor-causing bacteria at their source.

Johnson END-BAC II Pressurized Disinfectant Spray is specially formulated with modern germicide ingredients used in hospitals. Spray regularly around urinals, toilets, shower stalls, other rest room and bathroom fixtures, garbage cans, lockers, in hospital rooms. Disinfects toilet seats, door knobs, and other surfaces against staph, strep and many other dangerous surface germs.

Use to sanitize golf shoes and to disinfect athletic equipment. Refreshens air by eliminating cooking, smoke and rest room odors. This formulation has passed the official A.O.A.C. test against Staphylococcus aureus, Salmonella choleraesuis, Pseudomonas aeruginosa, [REDACTED] and Trichophyton interdigitale.

Virucidal: Disinfects Influenza A2/HongKong, Parainfluenza Type 1, Adenovirus Type 2 and Herpes simplex viruses carried on inanimate environmental surfaces.
