**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

WARNING: Keep out of reach of children. Do not remain in enclosed areas after use. Ventilate enclosed areas before returning. Avoid contamination of food and foodstuffs. Remove pets, birds, and cover fish aquariums before spraying.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not apply directly to water or wetlands (swamps, bogs, marshes, and potholes).

PHYSICAL AND CHEMICAL HAZARDS

WARNING: FLAMMABLE! Contents under pressure. Do not use near fire, sparks or flame. Do not puncture or incinerate container. Exposure to temperatures above 120° F may cause bursting. May stain finished surfaces and fabrics if sprayed too closely.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE BEFORE USING. TO SPRAY: Hold container upright. Point valve opening away from face and press button.

TO KILL FLYING INSECTS: Houseflies, mosquitoes, and gnats. With Raid there is no need to spray directly at flying insects -- the mist in the air will kill them. Spray Raid in the air with a sweeping motion, keeping about 3 feet from interior walls, fabrics, furniture, until room is filled with mist. Keep room closed for 15 minutes. Don't waste Raid Flying Insect Spray -- a little goes a long way.

ANTS: Spray trails, nests, around window and sills and openings around pipes and baseboards where ants crawl, hitting as many as possible.

SPIDERS: Spray webs and places where spiders crawl. Direct short burst of spray on spiders and repeat as necessary.

WASPS: Applications should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places, contacting as many insects as possible. Repeat as necessary. Spray directly on stray wasps that enter buildings.

STORAGE: Store in an area inaccessible to children.

DISPOSAL: Discard container in trash. Do not incinerate or puncture.
