DIRECTIONS

To spray: Hold container upright. Point nozzle at insect, pull face and press button.

To kill flying insects: Press nozzle to kill flying insects. With Raid there is no need to spray directly at flying insect. The mist in the air will kill them. Close all windows. Spray Raid up to the air with a sweeping motion, about 3 feet from above. Wait 15 minutes for insect to die. Keep doors closed for 15 minutes. Do not breathe flying insect killer. A little odor is the way.

To kill crawling insects: Treats waterbugs, cockroaches, ants, and spiders. Spray in the place where they are. Most kill carpet beetles and spiders. Kill them by spraying behind bookshelves, behind picture frames, and in the walls.

Ants: Spray trail of ants. Do not walk on it. Do not spray on food. Do not spray on children's toys.

Spiders: Spray directly on spider. Do not spray on children's toys.

Carpet Beetles: Kill them by spraying with Raid. Do not spray on children's toys. Do not spray on children's clothes.

Bedbugs: Spray in the cracks and crevices. Do not spray on children's toys. Do not spray on children's clothes. Do not spray on children's bedding.
