Attention: Robert V. Yocum

Gentlemen:

Subject: Johnson J-81 Hospital Cleaner Germicidal
EPA Received Date: November 11, 1987
Submission Dated: November 10, 1987
EPA Registration Number: 4822-143

The Amendment referred to above, submitted in connection with the Label Improvement Program Notice for Antimicrobial Products used as Food Contact Surface Sanitizers, is acceptable provided that you:

1. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling.
 - a. Place the statement "Keep Out of Reach of Children" directly above the signal word "Danger".
 - b. Revise the precautionary referral statement to read as follows: "See the back panel for the appropriate precautionary statements".
 - c. Delete the word "milk".
 - d. Delete "Tetrasodium Ethylenediamine Tetraacetate" and "Isopropyl Alcohol" from the active ingredients list.
 - e. The Directions for Disinfection must be revised to include information indicated on DIS/TSS-15 enclosure.

Johnson J-81

hospital cleaner — germicidal

Johnson J-81 is a highly effective cleaner and germicide for inanimate environmental surfaces that has been formulated with particular emphasis on its effectiveness as a bactericidal agent against many gram negative bacteria that are recognized as nosocomial hazards in health care facilities.

DIRECTIONS:

Mix 1 oz. J-81 with 1 gal. water. Mop floor. For walls, woodwork and equipment, use a sponge or cloth. Where application is made to a surface that comes in contact with food, a potable water rinse is necessary. Not for use in cleaning or sanitizing multi-use eating and drinking utensils.

To control mold and mildew on hard surfaces

Follow directions as shown. Do not rinse. Repeat application weekly or as new growth occurs for continued mildew control.

DANGER: Keep Out of Reach of Children. Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food. Rinse empty container thoroughly with water and discard it.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.
