

LIQUID  
residual

Spray Down Where Insects Crawl.  
For Commercial and Institutional Use.  
Specialty Formulation for Use on Concrete, Terrazzo Floors, etc. as recommended for the pesticide registered under EPA Reg. No. 4822-156.

Johnson Raid Residual Liquid is a highly effective residual liquid formulation which provides effective control of crawling insects.

Johnson Raid Water Based Residual Liquid is specially formulated to be an effective residual on porous surfaces including concrete and terrazzo floors.

Kills cockroaches, crickets, ants, saw-toothed grain beetles, water bugs, sowbugs and confused flour beetles. The residue on treated surfaces continues to kill insects for weeks after the residue has dried. Kills spiders on direct application.

**Precautionary Statements:**

Hazards to Humans (& domestic animals)

**CAUTION:**

Do not apply to humans. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly with soap and water after use, and before eating or smoking. Avoid breathing spray mist. Keep out of reach of children; do not allow children in treated areas until dry. Do not use in edible product areas of food processing plants, restaurants, or other areas where food is commercially prepared or processed, other than as a crack and crevice treatment. Do not use in serving areas while food is exposed.

Do not allow pets on treated areas until dry.

**Directions for Use:**

IT IS A VIOLATION of Federal Law to use this product in a manner inconsistent with its labeling.

**READY TO USE DO NOT DILUTE**

**NON-FOOD AREAS**, such as garbage rooms, lavatories, floor drains, vestibules, entries, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets, and finished goods storage areas. Spray only on surfaces. Do not use as a space spray. Apply as a wet (coarse) spray to infested surfaces until wet. Apply with either power-operated or hand sprayer. Avoid excessive wetting.

**ROACHES, WATERBUGS.** Spray into cracks, crevices, around baseboards, and other places where these insects hide. Spray until wet. Apply behind and beneath cabinets, refrigerators, sinks,

stoves, and in and around waste containers. When insects are visible, spray directly. Repeat as required.

**ANTS.** Apply to ant trails, also around door and window frames where ants may enter. Repeat as required.

**CRICKETS, SAW-TOOTHED GRAIN BEETLES.** Spray localized areas infested by these insects. Repeat as required.

**SPIDERS.** Apply as a contact spray directly on spiders.

**PEST CONTROL IN FOOD HANDLING AREAS OF MEAT PACKING AND FOOD PROCESSING PLANTS WHERE EXPOSED FOOD IS HELD, PROCESSED OR SERVED.**

"Crack and crevice" treatment only. For roaches, apply in small amounts in pin-thin stream directly into cracks and crevices between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where insects hide. Do not use this product in conduits, motor housings, or electrical switch boxes.

**INEDIBLE PRODUCTS AREAS**

For roaches, apply as a residual spray to walls, ceilings, and other infested areas. Any exposed food products, equipment or packaging materials must be removed or covered before spraying. Rinse all equipment before resuming operations. Repeat applications as necessary.

Spraying unloading docks and outside areas where insects congregate will aid in preventing re-infestations. Good sanitation and proper disposal of wastes is essential in any effective insect control program.

**CLEAN UP OF AGED FILMS**

From time to time, it may be advisable to strip aged films of the product. For the best results use 1:4 solution of Johnson's STEP OFF in water. Rinse with clean water.

**STORAGE AND DISPOSAL**

1. PROHIBITIONS. Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.
2. PESTICIDE DISPOSAL. Pesticide, spray mixture, or rinsate that cannot be used or chemically processed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.
3. CONTAINER DISPOSAL. Reseal container and offer for reconditioning.
4. GENERAL. Consult Federal, state or local disposal authorities for approved alternative procedures.

Active Ingredients: Chlorpyrifos [0,0-diethyl 0-(3,5,6-trichloro-2-pyridyl) phosphorothioate] 0.50%

Inert Ingredients: 99.50%
