RAID PROFESSIONAL STRENGTH FLYING INSECT KILLER II

POWERFUL AGENT -- KNOCKS OUT FLIES SO FAST YOU SEE THEM FALL

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Keep out of reach of children. Do not remain in enclosed areas after use. Ventilate enclosed areas before returning. Avoid contamination of food and foodstuffs. Remove pets, birds and cover fish aquariums before spraying.

ENVIRONMENTAL HAZARDS

This pesticide is highly toxic to fish. Do not apply directly to water or wetlands (swamps, bogs, marshes, and potholes). Drift from treated areas may be hazardous to organisms in adjacent sites.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not store near heat or open flame. Exposure to temperatures above 120° F. may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE BEFORE USING. To unlock sprayer valve, push down tab inside nozzle and remove it. Always shake can well before spraying. Hold container upright. Point sprayer cap away from face and press button firmly.

TO KILL FLIES, MOSQUITOES, SMALL FLYING MOTHS, AND GNATS: Raid Professional Strength Flying Insect Killer is most effective when you spray directly on flies. You can also clear an average size room (1000 cubic feet) in a matter of minutes by simply spraying upward with a sweeping movement keeping about 3 feet from walls, fabrics, and furniture, until the room is filled with mist (4 seconds spray time for 1000 cubic feet.) Keep doors and windows closed for about 15 minutes. Do not remain in treated areas. Ventilate the area after treatment is completed.

This product has been tested and proved effective when sprayed directly on roaches, water bugs, silverfish, crickets. Spray hiding places such as baseboards and floorboards, moist places, openings around sinks, drains and pipes, behind bookcases, cabinets and other storage areas hitting as many insects as possible. Repeat applications as necessary.

ANTS: Spray trails, hills, around windows and sills and openings around pipes and baseboards where ants crawl hitting as many as possible. Repeat applications as necessary.

STORAGE: Store in an area inaccessible to children.

DISPOSAL: Do not reuse empty container. Replace cap and discard in trash collectors. Do not incinerate or puncture.
