BUG KILLER V

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing spray mist. Avoid contact with eyes, skin or clothing. Do not remain in enclosed areas after use. Ventilate enclosed areas before returning. Avoid contamination of food and foodstuffs. Remove pets, birds, and cover fish aquariums before spraying.

STATEMENT OF PRACTICAL TREATMENT

IF INHALED, remove victim to fresh air. IF ON SKIN, wash contaminated skin promptly with soap and warm water. IF IN EYES, flush with plenty of water. Get medical attention if irritation persists.

ENVIRONMENTAL HAZARDS

This pesticide is highly toxic to fish. Do not apply directly to water or wetlands (swamps, bogs, marshes, and potholes). Drift from treated areas may be hazardous to organisms in adjacent sites.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

TO SPRAY REMOVE TAB ON FRONT OF CAP.

SHAKE BEFORE USING: Holding container as upright as possible, point actuator opening away from face and push button.

TO KILL HOUSEHOLD PESTS: FOR FLYING INSECTS: To kill houseflies, mosquitoes, small flying moths, gnats. Close all doors and windows. Point nozzle upward. Direct spray mist to all parts of the room especially windows and other light sources which attract these insects. Fill room with mist then leave the treated areas. Keep the room closed for at least 15 minutes. Ventilate the room when treatment is completed.

TO KILL WASPS: Applications should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places containing as many insects as possible. Repeat as necessary. Repeat as necessary. Spray directly at stray wasps that enter building.

FOR CRAWLING INSECTS: To kill roaches, water bugs, crickets, silverfish, spiders, sow bugs, millipedes. Hold dispenser about 12 inches from surface being sprayed. Spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes, and sinks, under refrigerators, baseboards, and storage areas. Spray directly on insects where possible. Spiders: Spray thoroughly at spiders and webbing and all cracks and crevices which harbor these pests. Repeat as necessary.

CARPET BEETLES: Spray top and underside of rugs. Repeat as necessary.

ANTS: Spray trails, nests, doors, and window frames. Spray on ants where possible. Repeat as necessary.

FLEAS: Spray floors, floor covering and sleeping quarters of pets. Repeat as necessary.

TO KILL GARDEN PESTS & PROTECT ORNAMENTAL PLANTS (Listed on Front Panel)

Spray garden plants when air is still and temperature is not above 90° F.

Spray with a slow sweeping motion about 36 inches from all plants. Avoid wetting a light spray kills pests effectively. Spray in short bursts. Repeat application from time to time as long as insects are present.

Use with caution on tender foliage, young plants and new growth.

For adult whiteflies, spider mites and gypsy moth larvae, be sure to direct spray to contact these pests. Thoroughly cover the infested area. Repeat applications as necessary.

STORAGE: Store in an area inaccessible to children.

DISPOSAL: Do not reuse empty container. Wrap container and put in trash collection.

JOHNSON and RAID are Trademarks.
