Racine, WI 53403-5011

Dear Mr. Yocum:

Subject: Additional sites; Practical Treatment Statement
Raid Indoor Fogger IV
EPA Registration Number 4822-220
Submission dated June 13, 1991

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

You may delete the substatement to the ingredient statement "Contains petroleum distillate". It is not required for this formulation.

Sincerely,

 Richard F. Mountfort
Product Manager 10
Insecticide-Rodenticide Branch
Registration Division (H7505C)

BACK PANEL

IMPORTANT: Shake well before using.

KILLS: Roaches, fleas, ticks, spiders, flies, mosquitoes, wasps, hornets, yellow jackets, silverfish, ants, gnats, waterbugs, earwigs, palmetto bugs, crickets and small flying moths. Use Raid Fogger for bug infestations in HOUSES, APARTMENTS, ATTICS AND GARAGES, restaurants, nursing homes, hospitals*, schools, homes, apartments, supermarkets, food processing plants, railroad cars, truck trailers, buses, warehouses, office buildings and zoos. *Remove patients before using. After treatment ventilate rooms for two hours before returning patients to rooms.

Non-staining, fresh, clean smelling formula.

One 6 oz can treats 4500 cubic feet of unobstructed space (25'x22.5'x8').

This unique Raid product allows you to automatically fill a whole room with insect killing fog while you are away.

Raid Fogger is designed for use whenever a bug infestation occurs in your house. For best results, use Raid Fogger in conjunction with other Raid products for regular control of bug problems.

Preparation and Directions for Using Container:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Remove or cover exposed dishes, utensils, food processing equipment and surfaces. Remove pets and remove or cover (and turn off) fish tanks and bowls. Open cupboards, cabinets, trunks, and doors to area to be treated. Cover waxed floors and waxed furniture in the immediate area surrounding the fogger (newspapers may be used). Close outside doors and windows. Shut off fans and air conditioners. Extinguish all flames and pilot lights. Do not use fogger in a cabinet or under a counter or table. Use only one can in rooms 12' x 12' or smaller.
2. Place a section of newspaper on a stand or table in center of room to be fogged.
3. Break off and remove tab on side of sprayer.
4. Tilt sprayer away from face (container sprays straight up). Press down firmly on edge of inner sprayer until it locks into place.
5. Set Fogger on newspaper, leave room and close door.

BACK PANEL (Continued)

6. After actuating Fogger, leave room or building at once. Keep treated area closed for at least two hours, then open all doors and windows and allow treated area to air for 30 minutes.

STORAGE: Store away from heat, sparks and open flame, in an area inaccessible to children.

DISPOSAL: Do not reuse empty container. Wrap container and put in trash. Do not puncture or incinerate.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Harmful if inhaled or absorbed through the skin. Avoid breathing vapors. Avoid contact with skin or clothing. Wash thoroughly after handling. Do not remain in enclosed areas after use. Stay out of rooms being treated for at least two hours. Ventilate enclosed areas before returning. Avoid contamination of food and foodstuffs. All food preparation surfaces should be covered during application and thoroughly cleaned before use. Apply only when no food is being prepared. Remove pets, birds and cover (and turn off) fish aquariums before spraying.

STATEMENT OF PRACTICAL TREATMENT

If inhaled: Remove to fresh air. Apply artificial respiration if indicated.
If on skin: Remove contaminated clothing and wash affected skin areas with soap and water. Get medical attention if irritation persists.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat, sparks or open flame. Do not puncture or incinerate container.
Exposure to temperature above 130°F may cause bursting.
