For best results, treat pet with an appropriate flea control product before returning the pet to the treated area.

Preparation and Directions for Using Container:

- 1) Open cabinets, cupboards, drawers, closets and doors in areas to be treated. REMOVE or cover exposed foods, dishes, utensils, food processing equipment and surfaces. REMOVE pets and birds, cover and turn off fish aquariums before spraying. Turn off air flow systems in aquariums. COVER waxed wood floors, waxed furniture and stereo or other plastic dust covers in the immediate area surrounding the fogger (newspapers may be used).
- 2) CLOSE outside doors and windows. SHUT OFF fans and air conditioners. Extinguish all flames and pilot lights. Do not use fogger in a cabinet or under a counter or table.
- 3) Place a chair, table or stand in the center of the room to be fogged. Cover with several layers of newspaper or paper towels.
- 4) SHAKE CAN WELL. Break off and remove tab on side of sprayer. Tilt sprayer AWAY from face (container sprays straight up). Press down firmly on sprayer pad until it snaps into place.
- 5) Set fogger on covered stand. Immediately leave treated area.
- 6) Keep treated area closed for at least two hours. Before reoccupying area, open all doors and windows and allow treated area to air for 30 minutes.

DO NOT use more than one fogger per room. DO NOT use in small, enclosed spaces such as closets, cabinets, or under counters or tables. Do not use in a room 5 ft. x 5 ft. or smaller, instead allow fog to enter from other rooms. Turn off all ignition sources such as pilot lights (shut off gas valves), other open flames, or running electrical appliances that cycle off and on (i.e. refrigerators, thermostats, etc.). ATTN: Ms. Joyce Edwards

Dear Ms. Edwards:

Re: Notification of Minor Label Revision  
Raid Fogger Formula V, EPA Reg. No. 4822-229

The purpose of this notification is to add the statement, "One 5 oz. can treats 3,840 cubic feet of unobstructed space (24' x 20' x 8')." to the label. This statement is entirely consistent with the current 6 oz. statement already approved on the label ("One 6 oz. can treats 4600 cubic feet of unobstructed space (25' x 23' x 8')."), and simply reflects an alternate packaging size.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 95-2 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

If you have any questions concerning this submission please call me at 262-260-2405.

Thanks very much.

Sincerely,

Stuart McArthur
