- KILLS WASPS & HORNETS AS THEY RETURN TO NEST
- KILLS ON CONTACT FROM 12 FT. AWAY

ACCEPTED  
with COMMENTS  
in EPA Letter Dated  
JAN 20 1984  
Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended, the pesticide  
registered under EPA Reg. No.  
4822-267

ACTIVE INGREDIENTS:

0-Isopropoxyphenyl methylcarbamate . . . . . 0.475%  
2,2-dichlorovinyl dimethyl phosphate . . . . . 0.465%

INERT INGREDIENTS . . . . . 99.060%

Contains 1,1,1-trichloroethane

Net Wt. 18 Oz. (1 Lb. 2 Oz.)

KEEP OUT OF REACH OF CHILDREN

CAUTION

SEE DIRECTIONS AND CAUTIONS ON BACK

RAID WASP & HORNET KILLER IV

- Kills wasps and hornets on contact
- Kills with residual action as they return to nest
- Kills larvae and pupae in nests

To SPRAY remove tamper proof tab on front of spray cap.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING

Hold as upright as possible while spraying. For outdoor use only. Stand safe distance from nest and not directly underneath. Point spray opening toward nest with wind at your back. Spray until nest is thoroughly wet. Hit wasps and hornets at rest where possible. Do not try to spray insects in flight. Best time to spray is in early morning or evening.

Residual action will kill wasps and hornets which return to nest. If you want to remove nest wait at least 24 hours. Do not apply to pets or contaminate feed, foodstuffs, dishes or utensils. Avoid spraying vegetation directly. Avoid excessive wetting of asphalt.

DISPOSAL

Do not reuse empty container. Wrap container and put in trash collection.

PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS  
CAUTION

Harmful if swallowed or absorbed through the skin. Avoid contact with skin, eyes or clothing.

Eye contact with product stream may cause severe discomfort. Keep out of reach of children. Wash hands thoroughly with soap and water after use and before eating or smoking.

STATEMENT OF PRACTICAL TREATMENT

If swallowed do not induce vomiting. Get medical attention. - NOTE TO PHYSICIAN - May present aspiration hazard. Product contains a cholinesterase inhibitor. Atropine should be administered only if symptoms of cholinesterase inhibition appear. - IF ON SKIN - Wash promptly with soap and water. IF IN EYES - Flush with plenty of water. Get medical attention if irritation persists.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate containers. Exposure to temperatures above 120°F. may cause bursting.

**NOTICE OF PESTICIDE:**  REGISTRATION  REREGISTRATION  
 (Under the Federal Insecticide, Fungicide and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

161/108959  
 18/1

**NOTE:** Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Below the heading "ATTACHMENT IS APPLICABLE" the registrant shall indicate the number of copies of the labeling accepted in connection with this registration which are being returned to the Agency.

ATTACHMENT IS APPLICABLE

**BEST DOCUMENT AVAILABLE**

SIGNATURE OF APPROVING OFFICIAL	DATE
---------------------------------	------

- iv. "Instant knockdown formula." "Quick knockdown" would be an acceptable alternative.
- d. Delete the claim for larval and pupal control, as they are new for this combination of active ingredients and no data are on file to substantiate these statements.
- e. To use directions add, "Do not spray indoors or in poorly ventilated areas."
- f. Add "and petroleum distillates" to the ingredients substatement.
- g. Update the storage and disposal precautions according to PR Notice 83-3.
- h. Revise the statement of practical treatment to read:

If swallowed - Call a physician or Poison Control Center immediately. Gastric lavage is indicated if material was taken internally. DO NOT INDUCE VOMITING: vomiting may cause aspiration pneumonia.

If on skin - Remove contaminated clothing and wash affected areas with soap and water. Get medical attention if irritation persists.

Note to Physician: Solvent presents aspiration hazard. If symptoms of cholinesterase inhibition are present, atropine sulfate is antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine.

Please note that we concur with the waiver of the inhalation LC<sub>50</sub> study for this product and also the "If inhaled" portion of the statement of practical treatment.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

4. The storage data are consistent with satisfactory stability, but the study should be continued for a full year at room temperature.

BEST DOCUMENT AVAILABLE

1/10/84

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
