Dear Mr. Keigwin:

Re: Notification of Minor Label Change
"Johnson Wax Raid Flea Killer Plus", EPA Reg. No. 4822-273

This is to advise you of a minor revision to the subject label, reducing the longevity claim from its currently approved level of seven months, to a claim of four months. The two specific affected statements will be, "Kills Fleas Plus Kills Hatching Eggs for up to 4 Months", and, "Kills Hatching Eggs for up to 4 Months." Both of these claims appear on the stamped accepted label, only with a 7-month claim. I am including five copies of draft labeling, highlighted in the area of change. This submitted labeling is **not** final printed labeling, nor do we wish this label to supercede the currently stamped accepted label, as the submitted label does not contain all approved uses for the product, and is submitted for notification purposes only.

This notification is consistent with the (II.A.4.) provisions of PR Notice 95-2 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 95-2 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

If you have any questions concerning this submission please call me at 414-260-2405.

Thank you.

Sincerely,

Stuart McArthur
