Keep Out of Reach of Children
WARNING
See Additional Precautionary Statements on Outside Carton

(Net Weight) Contains: (3) (0.35 oz.) (units) [(Two) (2) Foggers (Pack)]

(On Outside Packaging - right panel)

RAID FORMULA 278 INSECT KILLER PENETRATES DEEP TO KILL MORE ROACHES AND FLEAS (BUGS) DEAD.

RAID FORMULA 278 INSECT KILLER creates a deep-penetrating, fumigating (smoke) (fog) that flushes roaches and fleas (bugs) out from where they hide and kills them on contact.

When activated, it fumigates the whole room with a dry, white cloud of (smoke) (fog). The fumigating (smoke) (fog) stays in the air during the 3-hour treatment, penetrating deep, filling cracks and crevices and going way under furniture and appliances to kill roaches and fleas (bugs) where they hide. That is why it kills so many bugs!!

RAID FORMULA 278 INSECT KILLER can be used in kitchens, living areas, garages, attics, basements and pet areas. One unit treats a room of up to 16' x 20'. For best results, keep treated rooms closed for 3 hours after treatment.

TO CONTROL FLEAS:

RAID FORMULA 278 INSECT KILLER kills adult fleas on contact. However, flea eggs in your carpet may continue to hatch for two to three weeks after treatment. For better control of fleas, do the following in addition to treating with RAID FORMULA 278 INSECT KILLER:

- Clean or replace soiled pet bedding including cat litter. Vacuum pet quarters, carpets and all areas where fleas are found.
- Treat pet areas with Raid Flea Killer Plus. Its egg-stop formula kills fleas and their hatching eggs.
- Treat your pet with an approved flea control product before returning it to treated area.

ACCEPTED

MAR 26 2002

This is a copy of the original document.
 This copy is not for distribution.
 It is for use only for the purpose
 of record keeping.

et. On Outside Package - left panel)
 KILLS: Roaches, Palmetto Bugs, Waterbugs, Fleas, Ticks, Mosquitoes, Flies, Ants, and Spiders. (NOTE pre-adult fleas not included)

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Preparation and Directions for using RAID FORMULA 278 INSECT KILLER :

1) ROOM PREPARATION: Open cabinets, cupboards, drawers, closets and doors in the areas to be treated. REMOVE or cover exposed foods, dishes, utensils, food processing equipment and surfaces (newspapers may be used). REMOVE plants, pets and birds. Tightly cover or remove fish tanks and bowls. Turn off air flow systems in aquariums. CLOSE outside doors and windows. SHUT OFF fans and air conditioners and temporarily disconnect (smoke) (fog) alarms.

2) TREATMENT: DO NOT OPEN UNTIL READY TO USE. Grasp the foil tab and peel it off of the plastic cup. Remove the metal can from the cup.

3) Add water to the line near the base of the plastic cup. DO NOT OVER FILL. Place the plastic cup on the floor in the center of the room.

4) TO ACTIVATE: Replace the metal can into the plastic cup. DO NOT INSERT UPSIDE DOWN.

5) Fumigation starts within 1-2 minutes. Leave the room and keep the outside doors and windows closed for 3 hours.

6) AFTER TREATMENT: Before re-occupying the area, open all doors and windows and allow the treated area to air for 30 minutes.

7) TURN ON SMOKE ALARMS AND AQUARIUMS.

STORAGE AND DISPOSAL:

STORAGE: Store unused units in this outside carton in a dry area inaccessible to children.

DISPOSAL: **Before Disposing, empty the container by using the product according to the label. Do not reuse this container. Place in the trash or offer for recycling if available.**

If partially filled: Call your local solid waste agency or 1-800-558-5252 for disposal instructions. Never place unused product down any indoor or outdoor drain.
