DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. SHAKE CAN BEFORE USING. Hold container upright. Spray away from face.

CRAWLING BUGS: To kill Roaches, Waterbugs, Crickets, Silverfish, Centipedes, Ticks, Boxelder Bugs, Earwigs, Caterpillars, Millipedes, Spiders, Sow Bugs: Hold dispenser about 12 inches from surface being sprayed. Spray thoroughly into hiding places such as cracks, moist areas, openings around pipes and sinks, under refrigerators, baseboards and storage areas.

ANTS: Spray trails, nests, doors and window frames where ants enter.

FLEAS: Spray floors, floor coverings and sleeping quarters of pets. Repeat as necessary.

CARPET BEETLES: Spray top and underside of rug. Repeat as necessary.

FLYING BUGS: To kill Flies and Mosquitoes: Close all doors and windows. Direct the spray mist to all parts of the room especially windows and other light sources which attract these insects, staying about 3 feet from walls, fabrics and furniture. Fill room with mist then leave the treated areas. Keep room closed for at least 15 minutes. Ventilate the room when treatment is completed. Spray directly on stray Wasps, Hornets, Gnats and small Flying Moths that enter buildings.

GARDEN BUGS: Product is intended for use on ornamental garden plants only. It is not for use on edible crops. To kill Aphids, Climbing Cut Worms, Gypsy Moth Larvae, Japanese Beetles, Leafhoppers, Red Spider Mites, exposed Thrips, Webworms and Whiteflies on ornamental garden plants: Salvias, Roses, Azaleas, Chrysanthemums, Asters, Marigolds, Petunias, Begonias, Shrubs, Butterfly Plants, Dieffenbachia, Dracaenas, Ferns, Ficus, Palms, Pepperonia, Philodendrons, Piggyback Plants, Pines, Pothos, Spider Plants, Succulents, Evergreens, Fushias, Geraniums, Irises, Wandering Jews, Zinnias, Peonies, Impatiens, Alyssums, African Violets and English Ivy. Spray when air is still and temperature is not above 90°F. Spray with slow sweeping motion 36 inches from all plants. Avoid wetting - a light spray kills pests effectively. Spray in short bursts. Repeat application from time to time as long as insects are present. Use with caution on tender foliage, young plants and new growth. For adult Whiteflies, Red Spider Mites, Gypsy Moths and Japanese Beetles be sure to direct spray to contact these pests. Thoroughly cover the infested area. Repeat as necessary.

Dear Ms. Hobgood or Ms. Edwards:

Re: Raid House & Garden Bug Killer Formula 7 EPA Reg. No. 4822-283 Notification of revised claim and typo correction per PR Notice 98-10

S.C. Johnson & Son, Inc. hereby notifies the U.S. Environmental Protection Agency that we have added the claim "INDOOR(S) · OUTDOOR(S)" which states more succinctly the existing claim "Kills Bugs Indoors & Outdoors" and is consistent with PRN 98-10, II. N. We have added "when" as alternate wording for an existing claim so that it reads "Won't harm plants! (if/when used as directed)" also consistent with 98-10, II. N. We have also discovered a typographical error on our part and we have made that correction by adding "eye" to complete one sentence under the heading of "IF IN EYES" so that it correctly reads "Remove contact lenses, if present, after the first 5 minutes, then continue rinsing <u>eye</u>.". A typo is considered a non-notification per PRN 98-10, IV. A, yet I thought it convenient to also note it at this time.

To facilitate your review we have enclosed the following:

- a completed Application for Pesticide Registration form (8570-1)
- 3 copies of the label with these changes clearly marked in *bold italics*

I can be reached by telephone at (262) 260-4722 if you have any questions or require further information regarding this notification. Thank you for your attention to this matter.

Best Regards,

Maren & Srow
