

REP 10 1990

Mr. Robert V. Yocum
S.C. Johnson & Son, Inc.
1525 Howe Street
Racine, WI 53403

Dear Mr. Yocum:

Subject: Raid Mosquito Coils
EPA Registration No. 4822-300

The labeling amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable.

1. The change in directions for construction of the coil holder is acceptable.
2. The alternate brand name listed below, submitted in connection with the above-referenced product registration, is acceptable and our records have been adjusted to reflect this additional name. This acceptance is given with the understanding that the label for the alternate brand name will be like the registered label in every particular except for product name, associated artwork, and you may delete, but not add sites and pests.

Alternate Brand Name

Off! Yard & Patio Bug Barriers

A stamped copy of the label is enclosed for your records.

Sincerely yours,

Phil Hutton
Product Manager (17)
Insecticide-Rodenticide Branch
Registration Division (H7505C)

S. C. Johnson Wax
Raid
Mosquito Coils

Enjoy your picnic, patio, and backyard fun with Raid Mosquito Coils. Raid Mosquito Coils burn for up to three hours so you get continuous and convenient protection from mosquitoes.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Changed

1. Pull out the tucked in sides to form the box shaped stand. Push in bottom of stand. Fold over top until tabs snap into place.
2. Separate a set of sticks by carefully pulling them apart along the center dividing line.
3. Light lower end of repellent stick until it glows. Blow out any flame.
4. Insert lighted end of repellent stick into top of the protective stand.
5. Insert fully and then slip stick handle into notch on top of stand.

Place stands 6 to 8 feet apart around the area to be protected using as many as needed.

When repellent stick is completely burned, save stand to use with remaining sticks. For shorter burning times, carefully lift stick out of stand and extinguish the glowing end. The stick can then be relit when needed.

Do not use indoors.

FOR BEST RESULTS: Place the Insect Repellent Sticks outdoors, in confined areas such as porches, patios, yards and similar areas where there is minimal breeze. Place upwind if there is a breeze.

STORAGE: Store unburned product in a dry area, inaccessible to children.

DISPOSAL: Wrap used product and place in trash.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Keep out of reach of children. Avoid prolonged inhalation. Avoid contamination of food and foodstuffs. Caution children not to touch glowing repellent stick.
PHYSICAL OR CHEMICAL HAZARDS: Do not place glowing repellent stick in contact with flammable material.
