112 [unclear] Street  
[unclear], [unclear]  
L ]

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Your product's name will be registered in accordance with FIFRA section 3(c)(7) of the Act.

1. Submit data to support the registration of this product under FIFRA section 3(c)(7) when the Agency requires all registrants of similar products to submit such data.

2. Add the phrase "EPA Registration No. 4822-335" to your label before you release the product for shipment.

3. Efficacy data must be submitted for this product within 45 days from the date of this Registration Notice.

4. A 1-year storage stability study must be submitted within 15 months from the date of this Registration Notice.

5. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the 2-78 enclosure for a further description of the printed labeling.

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

Dennis H. Edwards

DATE

3/16/89

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

New Formula!

Improved Kills Better Than Before  
'Round the Clock Killing for Three Long Months  
Kills the Queen  
Kills the Colony

Child Resistant Bait Discs

New Raid Ant Controller is a totally different way to kill ants dead. It works continuously, 24 hours a day, seven days a week to rid your home of ants. Ants carry the powerful bait back to the nest to kill the queen and the entire colony. Ant Controller kills a variety of household ants, including Black Carpenter Ants, Argentine Ants, Cornfield Ants, and Pharaoh Ants. Ant Controller discs can be placed anywhere you have seen ants; even next to food and dishes. Raid, America's most trusted bug killer, guarantees Ant Controller works or your money back.

Directions For Household Use:

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

1. To remove discs from tray, place both thumbs on the label of the bait and push out.
2. For best results, place the discs by ant trails or close to areas where ants are numerous. You can even place Raid Ant Controller discs on kitchen counter tops and next to food and dishes.
3. Use all four discs at one time; use additional discs for larger infestations. Replace all discs every three months to keep ants from returning. Use the three month reminder on the discs or on your calendar to indicate the date of replacement.
