UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

WASHINGTON, D.C. 20460

OFFICE OF
PREVENTION, PESTICIDES
AND TOXIC SUBSTANCES

APR 9 2002

Mr. Stuart McArthur
S.C. Johnson & Son, Inc.
1525 Howe St.
Racine, WI 53403

Subject: Amendment Updating Disposal Instructions per PR Notice 2001-6
Raid Max Ant Baits
EPA Reg. No. 4822-356
Your Submission Dated February 14, 2002

Dear Mr. McArthur:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comment below. Two (2) copies of the finished labeling must be submitted prior to releasing the product for shipment. A stamped copy of the label is enclosed for your records.

1. You must delete the phrases "even next to food and dishes" (second to last line of the paragraph at the top of page 2) and "and next to food and dishes" (end of step "2" under the Directions for Use). You were required to make these changes at the time of the last label amendment, approved on June 23, 1995. As stated in June 23, 1995 letter, the Agency discourages recommendations to use pesticides next to food or food utensils regardless of the product's packaging. Such recommendations may mislead the user with respect to the safety of a pesticide.

If you have any questions regarding this action, please contact Susan Stanton of my team at (703) 305-5218.

Sincerely,

A handwritten signature in cursive script that reads "Susan L. Stanton for".

with COMMENTS
In EPA Letter Dated:**

APR 9 2002

**Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under EPA Reg. No.**

4822-356

RAID MAX ANT BAIT contains Metastop™, a formula which provides relief from even tough ant problems. Ants carry the bait food back to the nest (to kill the queen and destroy the entire colony). RAID MAX ANT BAIT kills a variety of (Ants, *Small Roaches* and *Crickets*) (Household Ants, including Black Carpenter Ants, Argentine Ants, Cornfield Ants, Pharaoh Ants and Red Imported Fire Ants). Child resistant RAID MAX ANT BAITS can be placed in kitchens, bathrooms, garages, basements, attics or anywhere you have seen ants; even next to food and dishes. Attractive beige colored baits blend better on most home surfaces.

DIRECTIONS FOR HOUSEHOLD USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Break RAID MAX ANT BAITS apart from the plastic frame.
2. (For best results, place the baits on ant trails or wherever ants are seen.) (For best results, place the baits on the floor along baseboards, in corners, under sinks, in cabinets or close to areas where *ants (small roaches) (crickets)* are numerous.) You can even place RAID MAX ANT BAITS on kitchen countertops and next to food and dishes.
3. Use all (four-twelve) baits at one time. (Use additional baits for larger infestations.) (Replace all baits every three months to keep *ants (small roaches) (and crickets)* from returning.)

STORAGE AND DISPOSAL STATEMENTS

STORAGE: Store in a (cool), (dry) area inaccessible to children.

DISPOSAL: *Before disposing, empty the container by using the product according to the label. Do not reuse this container. Place in the trash or offer for recycling if available.*

If partially filled: Call your local solid waste agency or 1-800-558-5252 for disposal instructions. Never place unused product down any indoor or outdoor drain.

Picture

This is how a (product name) station works.

Ants enter, eat bait, crawl away to die.

For best results use all (4-12) baits at one time as seen below.

Satisfaction Guaranteed: If Raid Max Ant Bait does not provide effective (ant) control, *call toll-free 800-558-5252 weekdays, 9:00 a.m. to 9:00 p.m. Eastern Time, to arrange for a full refund.*
