DIRECTIONS FOR HOUSEHOLD USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Break RAID MAX ANT BAITS apart from the plastic frame.
2. (For best results, place the baits on ant trails or wherever ants are seen.) (For best results, place the baits on the floor along baseboards, in corners, under sinks, in cabinets or close to areas where ants (small roaches) (crickets) are numerous.)
3. Use all (four-twelve) baits at one time. (Use additional baits for larger infestations.) (Replace all baits every three months to keep ants (small roaches) (and crickets) from returning.)

ATTN: Ms. Joyce Edwards

Dear Ms. Edwards:

Re: Notification of Change in Phone Number
Raid Max Ant Baits, EPA Reg. No. 4822-356

The purpose of this notification is to correct the telephone number which is provided in the recently approved Storage and Disposal revisions to our registered labels, from 1-800-558-5252, to **1-800-529-3394**. Upon realizing such correction would be necessary, I contacted each of the PM teams involved in our various registrations, Anne Sibold of PM 10, Linda DeLouise of PM 15, Tom Harris, and Jim Downing of BPPD, to inquire as to the proper procedure, and all advised that this minor correction should be filed as a notification.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 95-2 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

If you have any questions concerning this submission please call me at 262-260-2405.

Thanks very much.

Sincerely,

Stuart McArthur
