Raid Powder Keg for Roaches

S.C. Johnson & Son, Inc.
1525 Howe Street
Racine, WI 53403

161 S 4/20/91
18/1

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/site all data or other material required for registration/reregistration of your product under FIFRA section 3(c)(5) or FIFRA section 4 when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase "EPA Registration No. 4822-376."
 - b. Delete "fast acting" and "quickly" on back panel.

60882:I:CR-31:WP50:Heyward:WP13-5:KEVRIC:05/12/92:06/11/92:DD

- c. Based upon the packaging (bait station) and intended use of this product, you may revise your precautionary statements as follows; under the bold faced headings add:

Causes moderate eye irritation. Do not get in eyes. Harmful if swallowed or absorbed through the skin. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and warm water after handling. Keep out of reach of children.

- d. You may delete the "If Inhaled" statement of practical treatment since this is a unlikely route of exposure considering the nature of the bait station and the low to negligible volatility of the active ingredient.
- e. You may modify the "If on Skin" statement by revising as follows:

Get medical attention if irritation persists.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

BACK LABEL

Raid Powder Keg for Roaches

You Will See Results Overnight
Provides Visible Proof of Killing Power

Kills Long - Keeps killing for three months

The inside of each unit is coated with fast-acting Cylathrin. Roaches will pass through the unit and absorb a lethal dose on contact. Simply place a unit wherever you've seen roaches. The small, odorless units are easily hidden in places where roaches visit. The killing power lasts for three months. Guaranteed to work for even severe roach infestations.

For maximum effectiveness use all __ units at one time and replace every three months.

Satisfaction Guaranteed: If this product does not provide effective roach control return all __ units in this package for a full refund of purchase price to S. C. Johnson & Son, Inc., Racine, Wisconsin, 53403 USA

This is how the product works:

1. The units fit snugly in corners and along paths commonly traveled by roaches and roaches enter the units.
2. Roaches contact the Cylathrin and die quickly, providing you with visible reassurance that the units are working.

If you see roaches in your home and none dead around the units, buy a fresh Raid Powder Keg for Roaches.

Directions for indoor residential use: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For thorough roach control, use all __ units at one time. To keep roaches from returning, replace all units every three months.

1. Break units apart from the plastic frame.
2. For best results, all __ units must be used at one time. Place most units in the kitchen and some in each bathroom. If you see roaches in other areas such as the bedroom or utility room, use additional units.
3. For best results, place the units next to the wall along baseboards, in corners, under sinks, in cabinets and near plumbing fixtures.
4. The units work best on horizontal surfaces touching corners and walls. If you apply a unit on a vertical surface, use the enclosed stickers. You will not have to use stickers for all __ units.
5. Replace all units every three months to keep roaches from returning. Use the three month reminder enclosed on your calendar or refrigerator to remember the date of replacement.

PRECAUTIONARY STATEMENTS

HAZARDOUS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Causes moderate eye irritation. Harmful if swallowed, inhaled or absorbed through the skin. Do not get in eyes or on clothing. Avoid contact with skin, eyes, or clothing. Avoid breathing dust. Wash thoroughly with soap and warm water after handling. Remove contaminated clothing and wash before reuse. Keep out of reach of children. Do not allow children or pets to enter treated areas until surfaces are dry.

SYMPTOMS OF POISONING

In case of poisoning, call a physician or Poison Control Center immediately. Have patient lie down and keep quiet.

STATEMENTS OF PRACTICAL TREATMENT

If eyes are contaminated, flush eyes with plenty of water. Call a physician if irritation persists. If swallowed, call a physician or Poison Control Center. Adminster water freely and induce vomiting by giving one dose (1/2 oz. or 15 ml) of syrup of ipecac. If vomiting does not occur within 10 to 20 minutes, adminster second dose. If syrup of ipecac is not available, induce vomiting by sticking finger down throat. Repeat until vomit fluid is clear. Never give anything by mouth to an unconscious person. Avoid alcohol. If on skin, wash skin immediately with soap and warm water. Get medical attention. If inhaled, remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth to mouth. Get medical attention.

TO PHYSICIAN: No specific antidote is available. Treat the patient symptomatically.

Storage and Disposal

Storage: Store in an area inaccessible to children.

Disposal: Wrap container and put in trash collection.

For Best Results Use All Units at One Time as Shows:
