

U.S. ENVIRONMENTAL PROTECTION AGENCY
 Office of Pesticide Programs
 Registration Division (H7505C)
 401 "M" St., S.W.
 Washington, D.C. 20460

EPA Reg. Number:
 4822-381

Date of Issuance:
 19 JUL 1995

Term of Issuance: Conditional

Name of Pesticide Product: Raid Flea
 Killer VII Plus Egg
 Stop Formula

NOTICE OF PESTICIDE:
 Registration
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

S. C. Johnson & Son, Inc.
 1525 Howe Street
 Racine, WI 53403-5011

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the following label changes:
 - a. Revise the EPA Registration Number to read, "EPA Reg. No. 4822-381".
 - b. Delete the claim, "Kills fleas and ticks on contact", from both the front and back panel.
 - c. Delete the claim for ticks in the directions for use.

Signature of Approving Official:

RPK

Date:

19 JUL 1995

157

3. Submit two (2) copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

RPK

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

SHAKE BEFORE USE. Hold container upright. Point valve away from face and press button.

FOR USE IN THE HOME:

To kill Fleas and Ticks, hold can 2-3 feet from surfaces to be treated. Be sure to apply uniformly, using a sweeping motion to rugs, carpets, drapes, and all surfaces of upholstered furniture. If used on light or delicate fabrics, test in an inconspicuous place prior to use. Treat under and around furniture if pets frequently rest in these areas. Repeat as necessary. Use RAID® Flea Killer Plus in conjunction with RAID® Fogger for particularly heavy flea infestations and for a complete flea control program.

To kill Roaches, Waterbugs, Silverfish, Crickets, spray hiding places such as baseboards, pipes, behind bookcases, cabinets, and other storage areas hitting as many insects as possible. Repeat as necessary.

To kill Ants, Centipedes, Spiders, Sowbugs, Carpet Beetles, apply directly to as many as possible.

(The following italicized section is additional use directions for surface application rates that may be used if label space permits.

IMPORTANT: Only complete coverage of carpets, upholstery and curtains will insure flea control. Treat surfaces uniformly from one end of each room to the other. Apply spray uniformly to floor surfaces.

Apply moving at the application rates listed below.

<u>Surface Type:</u>	<u>Floor Application Rate:</u>	<u>Approx. Area Coverage/Can</u>	<u>Approx. Area Coverage/Can</u>
		<u>16 oz.:</u>	<u>12 oz.:</u>
Long Shag	1 ft/sec	15' x 10' area	12' X 10' area
Medium Shag	1 1/2 ft/sec	22' x 10' area	17' x 10' area
Plush/Sculptured	2 ft/sec	22' x 15' area	17' x 15' area
Wood/Linoleum	3 ft/sec	22' x 20' area	17' x 20' area)

FOR USE IN PET AREA: Treat pet bedding and other pet resting areas as these are primary hiding areas for fleas and ticks. No need to remove pet bedding after treatment. Follow directions as for other indoor areas. For best results, dogs should be treated before they return to the treated area.

FOR USE ON DOGS: To control fleas and ticks on dogs, hold can upright about 10-12 inches from pet. Spray to lightly dampen the animal's coat up to the head. For long-haired pets, ruffle the coat and spray against the lay of the hair, spraying directly behind the hand so that spray reaches the skin. Rub into animal's coat to assure even coverage. Use fingers to rub product around eyes, mouth and ears. **(Wash hands after application.)** Do not spray head, genital-anal area or open wounds. **DO NOT OVER APPLY.** Reapply weekly or as necessary. Do not treat or cause exposure to animals under six weeks old. Some animals may be sensitive to this product. If adverse reactions occur, bathe the animal immediately. If symptoms persist, contact a veterinarian. (For best results in controlling tick infestations, spray ticks directly.)

STORAGE AND DISPOSAL STATEMENTS:

STORAGE: Store in a cool, dry area inaccessible to children.

DISPOSAL: Do not reuse container. Wrap container and discard in trash.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if absorbed through the skin. Do not get on skin or clothing. Keep out of reach of children. Wash hands after treating dogs. Ventilate enclosed areas before returning. Avoid contamination of food and foodstuffs. When spraying rooms, rugs and carpets, remove pets, birds, and cover and turn off fish aquariums.

STATEMENT OF PRACTICAL TREATMENT:

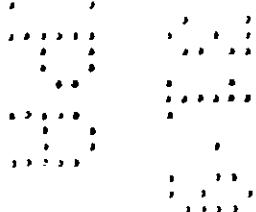

If on skin: remove with soap and water. If irritation persists, seek medical attention.

PHYSICAL OR CHEMICAL HAZARDS: Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.
