Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Change the label by revising the EPA Registration Number to read, "EPA Reg. No.4822-388".
3. Submit five (5) copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

*Clean pleasant scent

* Breaks the flea life cycle

* Non-staining formula

FOR USE IN THE HOME:

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

SHAKE BEFORE USE.

Hold container upright (upside down). (Picture)

Point valve away from face and press button.

(These additional "Surface/Carpet" use directions will be used if room permits on the label. The upside-down wording will be used only if inverted or spray-anyway valve is used)

FOR SURFACE/CARPET SPRAY:

Hold container upright (upside down) 2-3 feet from surface. Point actuator towards surface and push button. Apply uniformly with sweeping motion. If used on light or delicate upholstery fabrics, test in an inconspicuous place prior to use.

Carpet Application Rate:

Long Shag	1 ft/sec covers 15' x 10'
Medium Shag	1 1/2 ft/sec covers 22' x 10'
Plush/Sculptured	2 ft/sec covers 22' x 15'
Wood/Linoleum	3 ft/sec covers 22' x 20'

IMPORTANT: Only complete coverage of carpets, upholstery and other fabrics will insure flea control. Treat surfaces and rooms uniformly from one end to the other.

FOR USE INDOORS: To kill fleas and ticks hold can 2-3 feet from surfaces to be treated. Be sure to apply uniformly, using a sweeping motion, to rugs, carpets, drapes and all surfaces of upholstered furniture. Treat under and around furniture if pets frequently rest in these areas. Repeat as necessary. Use RAID Flea Killer Plus in conjunction with RAID Fogger for particularly heavy flea infestations and for a complete flea control program.

FOR USE IN PET AREA: Treat pet bedding and other pet resting areas as these are primary hiding areas for fleas and ticks. No need to remove pet bedding after treatment. Follow directions as for other indoor areas. For best results, pets should be treated before they return to the treated area.

FOR USE ON CATS AND DOGS: To control fleas (and ticks) on cats and dogs; hold can upright (upside down) about 10-12 inches from pet. Spray to lightly dampen the animal's coat up to the head. For long-haired pets ruffle the coat and spray against the lay of the hair, spraying directly behind the hand so that spray reaches the skin. Rub into animal's coat to assure even coverage. Use fingers to rub product around eyes, mouth and ears. Do not spray head, genital-anal area or open wounds. **DO NOT OVER APPLY.** Reapply weekly or as necessary. Do not treat or cause exposure of animals under six weeks old. Some animals may be sensitive to this product. If adverse reactions occur, bathe the animal immediately. If symptoms persist, contact a veterinarian. (For best results in controlling tick infestations, spray ticks directly.)

TO KILL: Roaches, waterbugs, silverfish, crickets, spray hiding places such as baseboards, pipes behind bookcases, cabinets, and other storage areas hitting as many insects as possible. Repeat as necessary.

TO KILL: Ants, centipedes, spiders, sowbugs, carpet beetles, apply directly to as many as possible.

STORAGE AND DISPOSAL STATEMENT

STORAGE: Store in a cool, dry area inaccessible to children.

DISPOSAL: Do not reuse container. Wrap container and discard in trash. Do not puncture or incinerate.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through the skin. Avoid contact with skin, eyes and clothing. Do not remain in enclosed areas after use. Wash hands thoroughly with soap and water after handling and after treating pets. Ventilate enclosed areas before returning. Avoid contamination of food and foodstuffs. Cover and turn off fish aquariums. When spraying rooms, rugs and carpets, remove pets and birds.

STATEMENT OF PRACTICAL TREATMENT:

If on skin: remove with soap and water. If irritation persists, seek medical attention.

PHYSICAL AND CHEMICAL HAZARDS: Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 1300 F may cause bursting.
