

1. Page 1 and 2:

- a. If the alternate trade name "OFF! Skintastic VIII" or any additional name without the words "Insect Repellent" in conjunction with this product. The words "INSECT REPELLENT" must be displayed prominently on the front panel of all product labels, immediately after the brand name, in capital lettering, with large, contrasting, bold-faced type.
- b. Remove the statements "New", "and improved", and "introducing" from all locations. These terms are reserved for new products, and or fragrance changes permitted for a period of 6 months from a stamped approved label.¹
- c. Remove the following comparative claims: "New (consumer) preferred fragrance (or scent)", "Best smelling (product name) ever", "From the Ill brand of insect repellents", "From (the makers of) OFF!, the #1 brand of insect repellents", "From America's #1 brand of insect repellents", "(From the) (America's) #1 trusted brand of insect repellents", "OFF!: 40+ years of experience in Mosquito Protection", and "Families have trusted the OFF! protection for more than 40 years"
- d. Revise the following claim by removing the "s" from ingredients: "OFF! Skintastic Family Insect Repellent is specially formulated with a lower level of active repellent ingredients to feel and smell better on your skin."
- e. The word "fragrance" within the statement "Contents: ethyl alcohol, DEET, hydrocarbon propellant, fragrance, aloe vera." should be placed in brackets to denote its use only for formulations that do not contain any type of fragrance. SCJ should also clearly indicate on the label when this statement is and is not going to be used.

2. Page 3:

- a. Within the "Hazards to Humans" section, revise the statement "Wash thoroughly with soap and water after handling." To "Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco"²
- b. Within the section entitled "TO APPLY TO FACE", move the following DEET statements "Do not apply to children's hands." and "When using on children, apply to your own hands and then put it on the child." to the previous paragraph directly above. The DEET RED document does not limit this language when applying to the facial area only.
- c. Add the required header "Storage and Disposal" directly above the Storage and Disposal section.³ In addition, revise the sentence "Do not reuse this container" to "Do not reuse or refill this container."

- 3. To be eligible for reregistration, aerosol and pump spray formulations must be packaged in containers utilizing a concave trigger to help aim product or other comparable mechanism that will ensure that the product will not be inadvertently sprayed in the eyes.
- 4. The Agency is in the process of developing and improving the current Efficacy Assessment Guidelines for repellent products. The Agency intends to defer the determination of any related efficacy data requirements supporting the claims that may appear on this label until these Efficacy Assessment Guidelines are complete. When the guidelines are finalized, the Agency expects to issue a Data Call-In to address the revised guidelines to all registrants with registrations for personal repellent products that

1 These statements appear on all previous labels back to May 19, 2003.

2 Refer to the Label review manual Chapter 7, D, 6, Table 3 and Table 6.

3 Refer to the Label review manual Chapter 13, Section IV.

have not previously submitted efficacy data sufficiently consistent with the revised guidelines.

- 5. Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance. As an alternative, you may refer consumers to the company's phone number or email address.

If you have any questions, you may contact Carmen Rodia, at (703) 306-0237. Two (2) copies of the finished labeling must be submitted prior to releasing the product for shipment.

Sincerely,

Richard Gebken

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS: WARNING – Causes substantial but temporary eye injury. Do not get in eyes. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Use of this product may cause skin reactions in rare cases. Wash treated clothing before wearing it again. Wash thoroughly with soap and water after handling.

[Note to reviewer: Boxed format or bullets may be used in First aid section if label space permits]

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Skin: If you suspect a reaction to this product, discontinue use, take off contaminated clothing, wash treated skin and call a poison control center or doctor for treatment advice.

PHYSICAL & CHEMICAL HAZARDS – Extremely flammable: Contents under pressure. Keep away from fire, sparks, and heated surfaces. Do not puncture or incinerate container. Exposure to temperature above 120°F may cause bursting. Keep treated surfaces away from fire, sparks, or flame until dry.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **Read and follow all directions and precautions on this product label.**

Hold container 6 to 8 inches from skin or clothing and spray with a slow sweeping motion. Do not apply over cuts, wounds, irritated or sunburned skin. Do not spray in enclosed areas. Use just enough repellent to cover exposed skin and/or clothing. Avoid over-application of this product. Frequent reapplication and saturation are unnecessary. Do not allow children to handle this product. After returning indoors, wash treated skin with soap and water. **FOR MAXIMUM PROTECTION**, spread evenly with hands to moisten all exposed skin.

TO APPLY TO FACE: Spray palm of hand first and then apply sparingly and avoid eyes. Do not spray directly onto face. Do not apply near eyes and mouth. Apply sparingly around ears. Do not apply to children’s hands. When using on children, apply to your own hands and then put it on the child.

WORKS ON CLOTHING TOO: Do not use under clothing. Spray shirts, pants, socks, and hats. For chiggers also spray cuffs, socks and around other openings in outer clothing. Will not damage cotton, wool or nylon. Do not apply on or near: acetate, rayon, spandex or other synthetics (other than nylon), furniture, plastics, watch crystals, leather and painted or varnished surfaces including automobiles.

STORAGE: Store away from heat or flame in an area inaccessible to children.

DISPOSAL: Do not puncture or incinerate!

If empty: This container may be recycled in the few but growing number of communities where aerosol can recycling is available. Before offering for recycling, empty the container by using the product according to the label. If recycling is not available, place in trash.

If partially filled: Call your local solid waste agency or 1-800-529-3394 for disposal instructions.

7/7

[Note to reviewer: The STEEL recycle symbol might be used on final printed label if space allows.]

(Contains no CFCs or Other Ozone Depleting Substances. Federal Regulations Prohibit CFC Propellants in Aerosols [or optional graphic below].)
