

- 2/5
3. Delete the following claims in accordance with 40 CFR 156.10:
natural
 4. If any alternate brand name or any additional name without the words "Insect Repellent" in it is used in conjunction with this product, the words "**INSECT REPELLENT**" must be displayed prominently on the front panel of all product labels, immediately after the brand name, in capital lettering, with large, contrasting, bold-faced type.
 5. Revise the heading "Hazards to Humans" to read "Hazards to Humans and Domestic Animals".
 6. Revise the Precautionary Statements to read:
Causes substantial but temporary eye injury. Do not get in eyes. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.
 7. Delete the following statement from the Precautionary Statements as it will be included in the Directions for Use:
Use of this product may cause skin reactions in rare cases.
 8. Delete the First Aid statements for "Skin". These statements, as modified, will be included in the Directions for Use.
 9. Delete "for best results" from the Directions for Use, as this statement makes compliance with the directions for use optional.
 10. Revise the second paragraph of the Directions for Use as follows:
Spread evenly over exposed skin. If used on the face, spray on hands first and then apply sparingly and avoid eyes. Do not spray directly onto face.
Do not apply near eyes and mouth. Apply sparingly around ears. Use just enough repellent to cover exposed skin and/or clothing. Avoid over-application of this product. Frequent reapplication and saturation are unnecessary. Do not keep product on any longer than necessary. After returning indoors, wash treated skin with soap and water. Do not use under clothing. Do not apply over cuts, wounds, or irritated skin. Do not apply to children's hands. Do not allow children to handle this product. When using on children, apply to your own hands and then put it on the child. Wash treated clothing before wearing it again. Use of this product may cause skin reactions in rare cases. If you suspect a reaction to this product, discontinue use, wash treated skin, and call your local poison control center. If you go to a doctor, take this product with you. Do not spray in enclosed areas. Do not apply on or near: acetate, rayon, spandex, dynel fabrics or other synthetics (other than nylon), furniture, plastics, leather, watch crystals and painted or varnished surfaces including automobiles.
 11. Revise the vector claims as follows:
Repels mosquitoes that may carry listed diseases

12. Delete the following disease vector claims:

- Japanese, Venezuelan equine and Murray Valley encephalitis.
- Ross River Fever
- Barmah Forest Disease
- Dengue Fever
- Yellow Fever
- Rift Valley Fever

To be eligible for reregistration, aerosol and pump spray formulations must be packaged in containers utilizing a concave trigger to help aim product or other comparable mechanism that will ensure that the product will not be inadvertently sprayed in the eyes.

Current labels on DEET repellent products tend to dissolve from contact with the repellent (usually liquids). All reregistered DEET product labels must use materials that remain permanent and readable for the reasonable life of the product.

The Agency is in the process of developing and improving the current Efficacy Assessment Guidelines for repellent products. The Agency intends to defer the determination of any related efficacy data requirements supporting the claims that may appear on this label until these Efficacy Assessment Guidelines are complete. When the guidelines are finalized, the Agency expects to issue a Data Call-In to address the revised guidelines to all registrants with registrations for personal repellent products that have not previously submitted efficacy data sufficiently consistent with the revised guidelines.

In addition, revise the container disposal statements in accordance with PR Notice 2007-4. A copy is available on the Agency website at:
http://www.epa.gov/PR_Notices/pr2007-4.pdf.

Submit two copies of the revised final printed label for the record before releasing the product for shipment.

A copy of the label stamped "Accepted with Comments" is enclosed for your records.

[Note to reviewer: Boxed format or bullets may be used in First aid section if label space permits]

FIRST AID:

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Skin: If you suspect a reaction to this product, discontinue use, take off clothing that may have come in contact with treated skin, wash treated skin and call a poison control center or doctor for treatment advice.

For additional information in case of emergency call toll free 800-558-5252.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **Read and follow all directions and precautions on this product label.**

For best results, spread evenly and completely over all exposed skin. Apply to hand for application to face and neck and rub on. Do not apply near eyes and mouth. **Apply sparingly around ears.** Use just enough repellent to cover exposed skin. **Avoid over-application of this product.** Frequent reapplication and saturation are unnecessary. Do not keep product on any longer than necessary. After returning indoors, wash treated skin with soap and water. Do not use under clothing. Do not apply on or near: acetate, rayon, spandex, dynel fabrics or other synthetics (other than nylon), furniture, plastics, leather, watch crystals and painted or varnished surfaces including automobiles.

STORAGE: Store away from heat or flame in an area inaccessible to children.

DISPOSAL: *Before disposing, empty the container by using the product according to the label. Do not reuse this container. Place in trash or offer for recycling if available. If partially filled: Call your local solid waste agency or 1-800-529-3394 for disposal instructions. Never place unused product down any indoor or outdoor drain.*
