OFFICE OF
PREVENTION, PESTICIDES AND
TOXIC SUBSTANCES

SEP 27 2001

Jean M. Fugate
SC Johnson & Son, Inc
1525 Howe Street
Racine, WI 53403-2236

Dear Ms. Fugate:

Subject: Repellent LMO
EPA Reg No 4822-469
Submission dated 9/14/01

The labeling dated 9/14/01, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. One copy of the finished labeling must be submitted prior to releasing the product for shipment.

You must upgrade the "If Inhaled" statement in accordance with the PR Notice 2001-1.

The marketing claim "new" may only be used for six months following registration or first release of the product for shipment, whichever is later.

Remove from the label all references to use around food, including "outdoor dining" and "picnics." You must include the statement "Avoid contamination of food and foodstuffs" in the directions for use. You must delete pictures of food from the graphics. The label review manual prohibits pictures of food, unless the product is registered for use on food.

Clarify the claim "lasts for more than one season" to explain what part of this product lasts for more than one season.

Delete the reference to "advanced" as this is a comparative claim.

Delete the claim to "Don't forget to purchase (Product Name) refills." Alternately, you

may rephrase the claim to state "After you have used up the pads, purchase (product name) refills." According to the label review manual, the label may not provide directions to use more than is contained in the product.

Delete or clarify the directions to place the product "upwind". This statement conflicts with the statement elsewhere on the label to not use the product in "windy conditions."

Define "cool temperatures." Mosquitoes are not active in cool temperatures, and the product may not be needed at all.

Delete all references to "relaxing soft light" and "pleasant glow." These are not pesticide claims, and promote use of this pesticide product for purposes other than as a mosquito repellent.

Delete or clarify reference to "it is normal for some smoking to occur..." This statement may cause user to delay extinguishing the lamp in an emergency.

Delete or clarify your statement "to clear mosquitoes from under table, place underneath table for a few minutes. Keep level." This conflicts with directions elsewhere on the label to not place (Product Name) near fabrics or wood structures. Further, if your statements to not place it near fabrics or wood structures means not to place it on a tablecloth or a wood table, the label must explicitly state this. Your graphics, which presently include wood railings and tables, must reinforce, not contradict, your label directions.

The Storage Statement states that prolonged storage of repellent pad in outdoor conditions may decrease effectiveness. You must clarify if this means opened or unopened repellent pads, and you must submit storage stability data.

Delete "for best results" in the statement to place on a level stable surface.

Modify the statement to "remove used pad from top of unit and dispose of appropriately" to read as follows:

Remove used pad from top of unit and dispose of according to disposal instructions presented elsewhere on this label."

You must delete pictures of children from the label. The label review manual prohibits pictures of children on pesticide labels, unless the product is to be applied to them.

As noted above, the file jacket for this registration does not include storage stability data, which you committed to submit in your application for registration. Within one year from the date of this letter, you must submit storage stability data.

3/25

If you have questions, please call Ann Sibold at 703 305-6502.

Sincerely,

 Marion J. Johnson, Jr.
Product Manager 3
Insecticide Branch
Registration Division (7505C)

(Also available (alternate brand names for Repellent LMO))

(Helpful Hints) (Troubleshooting):

(Protection is not immediate.) (Allow time for candle to heat (mosquito repellent) pad.) (Do not use in windy conditions.) (High humidity or cool temperatures may increase time before repellent is released.)

(Pads are designed to release repellent when heated by candle.) (Pad color will change during use. Do not change pad until candle is used up.) (When candle is used-up and will not relight, replace both candle and pad.) (Expect a small amount of wax to remain in bottom of candle cup.) (Change candle and pad at same time.)

(KEEP LEVEL) (To avoid fire hazard, do not place pads, matches or other foreign matter on or in candle cup.)

(Use one (Product Name) in an area as large as ((an average size deck or patio) (15' by 15') (225 square feet)). (Use two or more (Product Name(s)) in larger areas.)

(It is normal for some smoking to occur as repellent is released.)

(Pad is designed to taste bitter to help prevent ingestion. Be sure to wash hands after handling.) (Contains Bitrex.) (Bitrex ® is a trademark of Macfarlan Smith, Ltd.)

(Place product upwind (for maximum protection).)

(To clear mosquitoes from under table, place underneath (table) for a few minutes.) (Keep level)

Precautionary Statements

Hazards to humans and domestic animals

Caution: Harmful if swallowed or inhaled. Avoid breathing vapors. Keep out of reach of children. For outdoor use only. Do not use indoors, in a tent or enclosed area. Attention, colored vent top is hot while in use.

Pad is designed to taste bitter to help prevent ingestion. Be sure to wash hands after handling. (Contains Bitrex.) (Bitrex ® is a trademark of Macfarlan Smith, Ltd.)

First aid

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

Environmental hazards

This pesticide is highly toxic to fish. Do not apply directly to water. Drift from treated areas may be hazardous to organisms in adjacent aquatic sites.

Physical and chemical hazards

Place on level, stable surfaces. Do not cover lamp top with any foreign material while in use. Before lighting candle make sure wick is trimmed to ¼ inch. To avoid fire hazard, do not place pads, matches or other foreign matter near candle flame. Never cut, bend or alter shape of pad. Pads may cause staining – avoid contact with other surfaces. Do not place (Product Name) near combustible materials such as dry vegetation, clothing, fabrics, wood structures, or fuels. NEVER BURN CANDLE UNATTENDED. Failure to follow these instructions could result in personal injury or property damage.

Do not use anything other than (Product Name) (OFF!) pads and candles in lamp. S.C. Johnson & Son, Inc. will not be held responsible for damage, injury or poor performance caused by the use of other pads and candles.

STORAGE: Prolonged storage of repellent pads in outdoor conditions may decrease effectiveness. Store unused pads in an area inaccessible to children and pets.

DISPOSAL: Securely wrap exhausted pad in newspaper and place in trash. After allowing exhausted candle to cool, securely wrap in newspaper and place in trash.

{Note to reviewer: Directions may be lettered or numbered on final printed labeling.}

Directions For Use: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Remove lamp top.

Remove enclosed (insert) (and) (mosquito repellent pad) (contents).

Place lamp on a level, stable area.

Firmly press candle cup onto base post.

Remove repellent pad (from foil pouch) being careful not to cut, bend, or alter pad shape. (Use foil pouch to avoid touching pad.) Gently slide narrow end of pad into slot in top of lamp. (Wash hands.)

Light candle.

Reinstall lamp top. Carefully twist top until it snaps in place. Do not place repellent pad or matches on or in candle cup.

NOTE: Be careful when moving lit lamp. Wax may spill.

When finished using, carefully remove lamp top and blow out flame. Pad is designed to last as long as candle. (Save any unused candle and pad for (future use) (later).)

To Replace Pad/Candle Combination:

(Pads are designed to release repellent when heated by candle.) (Pad color will change during use. Do not change pad until candle is used up.) (When candle is used-up and will not relight, replace both candle and pad.)

Remove lamp top.

Make sure flame is extinguished and lamp is cool before changing pad.

Pull out used pad and slide in new pad. (Wash hands.)

Remove used candle cup and firmly press new candle cup with fresh candle onto base post. To avoid fire hazard, use only (product name) candles.

Light candle.

Reinstall lamp top. Carefully twist top until it snaps in place.

Cleaning Instructions:

Before cleaning lamp, extinguish flame and let lamp cool.

Wash with a wet cloth only.

NOTE: To avoid damaging product, be careful not to move or bend metal bar inside of lamp when cleaning.

Environmental hazards

This pesticide is highly toxic to fish. Do not apply directly to water. Drift from treated areas may be hazardous to organisms in adjacent aquatic sites.

Physical and chemical hazards

Do not cover lantern top with any foreign material while in use. Before lighting candle make sure wick is trimmed to ¼ inch. To avoid fire hazard, do not place pads, matches or other foreign matter near candle flame. Never cut, bend or alter shape of pad. Do not move when lit. Use pole per instructions; do not use for any other purposes. Do not remove hanging lantern from pole. Make sure pole is inserted securely (and straight). Remove all pole segments from ground when not in use to minimize tripping hazard. **TEST TO ENSURE POLE DOES NOT TIP EASILY.** Do not place near underground wires or gas lines. Pads may cause staining – avoid contact with other surfaces. Do not place (Product Name) near combustible materials such as dry vegetation, clothing, fabrics, wood structures, or fuels. **NEVER BURN CANDLE UNATTENDED.** Failure to follow these instructions could result in personal injury or property damage.

Do not use anything other than (Product Name) (OFF!) pads and candles in lantern. S.C. Johnson & Son, Inc. will not be held responsible for damage, injury or poor performance caused by the use of other pads and candles.

STORAGE: Prolonged storage of repellent pads in outdoor conditions may decrease effectiveness. Store unused pads in an area inaccessible to children and pets.

DISPOSAL: Securely wrap exhausted pad in newspaper and place in trash. After allowing exhausted candle to cool, securely wrap in newspaper and place in trash.

{Note to reviewer: Directions may be lettered or numbered on final printed labeling.}

Directions For Use: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

(Completely assemble pole segments (including top section) (before inserting into ground).) (Tap couplers onto pole.) (Make sure colored segment is at the bottom.)

Insert pole (securely) into stable ground. **TEST TO ENSURE POLE DOES NOT TIP EASILY.**

Remove lantern base.

Remove enclosed (insert) (and) (mosquito repellent pad) (contents).

Firmly press candle cup onto base post.

Remove repellent pad (from foil pouch) being careful not to cut, bend, or alter pad shape. (Use foil pouch to avoid touching pad.) Gently slide narrow end of pad into slot in top of lantern. (Wash hands.)

Light candle.

Reinstall lantern base. Carefully twist base until it snaps in place. Do not place repellent pad or matches on or in candle cup.

When finished using, carefully remove lantern base and blow out flame. Pad is designed to last as long as candle. (Save any unused candle and pad for (future use) (later).)

NOTE: Move lantern only when cool and not in use. To remove pole from ground, grasp pole at bottom. Be sure all pole segments are removed from ground.

To Replace Pad/Candle Combination:

(Pads are designed to release repellent when heated by candle.) (Pad color will change during use. Do not change pad until candle is used up.) (When candle is used-up and will not relight, replace both candle and pad.)

Remove lantern base.

Make sure flame is extinguished and lantern is cool before changing pad.

Pull out used pad and slide in new pad. (Wash hands.)

Remove used candle cup and firmly press new candle cup with fresh candle onto base post. To avoid fire hazard, use only (product name) candles.

Light candle.

Reinstall lantern base. Carefully twist base until it snaps in place.

Cleaning Instructions:

Before cleaning lantern, extinguish flame and let lantern cool.

Wash with a wet cloth only.

NOTE: To avoid damaging product, be careful not to move or bend metal bar inside of lantern when cleaning.

Failure to follow these instructions could result in personal injury or property damage.

Do not use anything other than (Product Name) (OFF!) pads and candles in lamp. S.C. Johnson & Son, Inc. will not be held responsible for damage, injury or poor performance caused by the use of other pads and candles.

STORAGE: Prolonged storage of repellent pads in outdoor conditions may decrease effectiveness. Store unused pads in an area inaccessible to children and pets.

DISPOSAL: Securely wrap exhausted pad in newspaper and place in trash. After allowing exhausted candle to cool, securely wrap in newspaper and place in trash.

{Note to reviewer: Directions may be lettered or numbered on final printed labeling.}

Directions For Use: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

(Completely assemble segments)

Insert rod (securely) into stable ground. TEST TO ENSURE ROD DOES NOT TIP EASILY.

Remove lamp base.

Remove enclosed (insert) (and) (mosquito repellent pad) (contents).

Firmly press candle cup onto base post.

Remove repellent pad (from foil pouch) being careful not to cut, bend, or alter pad shape. (Use foil pouch to avoid touching pad.) Gently slide narrow end of pad into slot in top of lamp. (Wash hands.)

Light candle.

Reinstall lamp base. Carefully twist base until it snaps in place. Do not place repellent pad or matches on or in candle cup.

When finished using, carefully remove lamp base and blow out flame. Pad is designed to last as long as candle. (Save any unused candle and pad for (future use) (later).)

NOTE: Move lamp only when cool and not in use.

To Replace Pad/Candle Combination:

(Pads are designed to release repellent when heated by candle.) (Pad color will change during use. Do not change pad until candle is used up.) (When candle is used-up and will not relight, replace both candle and pad.)

Remove lamp base.

Make sure flame is extinguished and lamp is cool before changing pad.

Pull out used pad and slide in new pad. (Wash hands.)

Remove used candle cup and firmly press new candle cup with fresh candle onto base post. To avoid fire hazard, use only (product name) candles.

Light candle.

Reinstall lamp base. Carefully twist base until it snaps in place.

Cleaning Instructions:

Before cleaning lamp, extinguish flame and let lamp cool.

Wash with a wet cloth only.

NOTE: To avoid damaging product, be careful not to move or bend metal bar inside of lamp when cleaning.

(Protection is not immediate.) (Allow time for candle to heat (mosquito repellent) pad.) (Do not use in windy conditions.) (High humidity or cool temperatures may increase time before repellent is released.)

(Pads are designed to release repellent when heated by candle.) (Pad color will change during use. Do not change pad until candle is used up.) (When candle is used up and will not relight, replace both candle and pad.) (Expect a small amount of wax to remain in bottom of candle cup.) (Change pad and candle at same time.)

(Gently slide narrow end of pad into slot in top of unit.) (To avoid fire hazard, do not place pads, matches or other foreign matter on or in candle cup.)

(Use one (Product Name) in an area as large as ((an average size deck or patio) (15' by 15') (225 square feet)). (Use two or more (Product Name(s)) in larger areas.)

(It is normal for some smoking to occur as repellent is released.)

(Pad is designed to taste bitter to help prevent ingestion. Be sure to wash hands after handling.) (Contains Bitrex.) (Bitrex ® is a trademark of Macfarlan Smith, Ltd.)

(Place product upwind (for maximum protection).)

Precautionary Statements

Hazards to humans and domestic animals

Caution: Harmful if swallowed or inhaled. Avoid breathing vapors. Keep out of reach of children. For outdoor use only. Do not use indoors, in a tent or enclosed area. Attention, colored vent top is hot while in use.

Pad is designed to taste bitter to help prevent ingestion. Be sure to wash hands after handling. (Contains Bitrex.) (Bitrex ® is a trademark of Macfarlan Smith, Ltd.)

First aid

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

Environmental hazards

This pesticide is highly toxic to fish. Do not apply directly to water. Drift from treated areas may be hazardous to organisms in adjacent aquatic sites.

Physical and chemical hazards

Do not cover unit top with any foreign material while in use. Before lighting candle make sure wick is trimmed to ¼ inch. To avoid fire hazard, do not place pads, matches or other foreign matter near candle flame. Never cut, bend or alter shape of pad. Pads may cause staining – avoid contact with other surfaces. Do not place (Product Name) near combustible materials such as dry vegetation, clothing, fabrics, wood structures, or fuels. NEVER BURN CANDLE UNATTENDED. Failure to follow these instructions could result in personal injury or property damage.

Do not use anything other than (Product Name) (OFF!) pads and candles in (unit) (OFF! lamp products). S.C. Johnson & Son, Inc. will not be held responsible for damage, injury or poor performance caused by the use of other pads and candles.

STORAGE: Prolonged storage of repellent pads in outdoor conditions may decrease effectiveness. Store unused pads in an area inaccessible to children and pets.

DISPOSAL: Securely wrap exhausted pad in newspaper and place in trash. After allowing exhausted candle to cool, securely wrap in newspaper and place in trash.

Directions For Use: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

{Note to reviewer: Directions may be lettered or numbered on final printed labeling.}

To Replace Pad/Candle Combination:

(Pads are designed to release repellent when heated by candle.) (Pad color will change during use. Do not change pad until candle is used up.) (When candle is used-up and will not relight, replace both candle and pad.)

Detach unit top from base.

Make sure flame is extinguished and unit is cool before changing pad.

Remove used pad from top of unit and dispose of appropriately.

Remove a new repellent pad (from foil pouch) being careful not to cut, bend, or alter pad shape. (Use Foil pouch to avoid touching pad.) Gently slide narrow end of pad into slot in top of unit. (Wash hands.)

IMPORTANT: Remove used candle cup and firmly press new candle cup with fresh candle onto base post. To avoid fire hazard, use only (product name) candles.

Light candle.

Reattach unit top and base, carefully twisting until they snap in place. Do not place repellent pad or matches on or in candle cup.
