Ms. Kelly K. Rahn, Registration Specialist  
S. C. Johnson & Son, Inc.  
1525 Howe Street  
Racine, WI 53403-2236

MAR 29 2004

Subject: Amendment to revise the label in accordance with the Federal Fungicide and Rodenticide Act (FIFRA) as amended.

Product Name: Repellent LMO

Registration No.: 4822-469

Date of Submission: May 2, 2003, October 13, 2003, and March 29, 2003.

Dear Ms. Rahn,

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is acceptable subject to the comments listed below. Five copies of the finished labeling must be submitted prior to releasing the product for shipment.

- The statement "Pad is designed to taste bitter to help prevent ingestion." contained within the Hazards to Humans and Domestic Animals" section, is not FIFRA mandated language from the specific use pattern, nor a product classification from a FIFRA toxicity category. This language and associated graphics as shown below is considered a product attribute and not a Hazard to Humans.

**Pad is designed to taste bitter to help prevent ingestion.  
(Contains Bitrex.) (Bitrex ® is a trademark of Macfarlan Smith. Ltd.)**

It should be moved either to the front of the "principal display panel as a marketing claim, inserted into the directions for use near the graphics, or in the Directions for Use within a general use discussion. The statement, "Be sure to wash hands after handling." may remain in the Hazards to Humans and Domestic Animals section.

If you have any questions, you may contact Richard J. Gebken, at (703) 305-6701.

Sincerely,

Richard Gebken  
Acting Product Manager 10

### DIRECTIONS FOR USE:

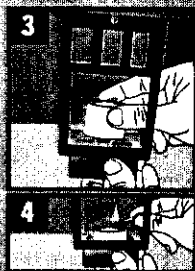

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

### TO REPLACE PAD/CANDLE COMBINATION:

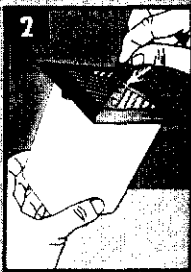

Pads are designed to release repellent when heated by candle. When candle is used up and will not relight, replace both candle and pad. Avoid contamination of food.

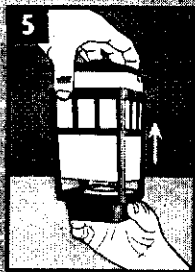

1 Detach unit top from base. Make sure flame is extinguished and unit is cool before changing pad.

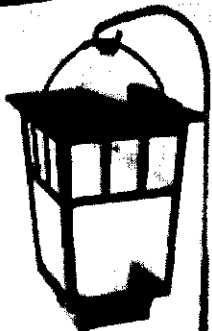

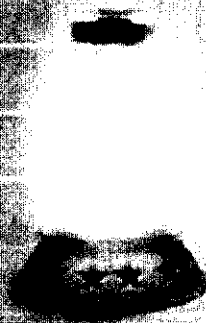

3 IMPORTANT: Remove used candle cup and firmly press new candle cup with fresh candle onto base post.

2 Remove used pad from top of unit. Remove new repellent pad from package being careful not to cut, bend, or alter pad shape. Gently slide narrow end of pad into slot in top of unit.

4 Light candle. Reattach unit top and base. Do not place repellent pad or matches on or in candle cup.

REPELS MOSQUITOES FROM AN AREA UP TO 15x15 FEET

### PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or inhaled. Avoid breathing vapors. KEEP OUT OF REACH OF CHILDREN. For outdoor use only. Do not use indoors, in a tent or enclosed area. Adhesive colored wax top is hot while in use.

Pad is designed to taste bitter to help prevent ingestion. BE SURE TO WASH HANDS AFTER HANDLING.

FIRST AID: Have the person breathe fresh air. If swallowed, induce vomiting only if the person is conscious and able to swallow. If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance. For more information, contact your local health department.

If swallowed: Call your local poison control center immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance. For more information, contact your local health department.

ENVIRONMENTAL PRECAUTIONS: Do not apply directly to water, to the ground, or to other surfaces where water, soil, or food may be present.

PHYSICAL AND CHEMICAL HAZARDS: Do not mix with any other repellent. Before lighting candle make sure wick is trimmed to 1/4 inch. Exposed top of candle cup and pads, matches or other items may become very hot.

NEVER BURN CANDLE UNATTENDED.

Do not use in enclosed areas. Do not use in areas where children, pets, or food may be present. Do not use in areas where children, pets, or food may be present. Do not use in areas where children, pets, or food may be present.

STORAGE: Prolonged storage of opened repellent pads in outdoor conditions may decrease effectiveness. Store unused pads in an area inaccessible to children and pets. DISPOSAL: Before disposing, empty package by using the product according to the label. Pad: Place exhausted pad in trash. Candle: After allowing exhausted candle to cool, place cup in trash. Unused pads: Call your local solid waste agency or 1-800-529-3394 for disposal instructions. Never place unused product down any indoor or outdoor drain.
