CONTAINS # BAITS

NET WT. # OZ.

Raid Max Roach Bait(s) V contain(s) Abamectin, an ingredient that keeps killing roaches (and)(ants) (palmetto bugs) (waterbugs) nonstop. Raid Max Roach Bait(s) V are so advanced they kill roaches (and)(ants) (palmetto bugs) (waterbugs) where they breed, helping to rid your home of roaches (and)(ants) (palmetto bugs) (waterbugs) for up to three months. Raid Max Roach Bait(s) V may be

placed anywhere you've seen roaches (and)(ants) (palmetto bugs) (waterbugs), even in cabinets. Raid Max Roach Bait(s) V are guaranteed to work for even severe bug infestations.

For maximum effectiveness, use all (#) baits at one time and replace every three months.

For maximum effectiveness, (replace baits before they are)(do not allow baits to be) completely consumed.

This is how Raid Max (Roach Bait V) works

1. Raid Max Roach Bait(s) V fit snugly in corners and along paths commonly traveled by roaches (and)(ants) (palmetto bugs) (waterbugs).
2. Roaches (and)(ants) (palmetto bugs) (waterbugs) are attracted to the bait to feed.
3. Roaches (and)(ants) (palmetto bugs) (waterbugs) eat the bait and return to nesting area to die.
4. Bait carried back to the nest continues to kill other roaches (and)(ants) (palmetto bugs) (waterbugs).

For best results use all (#) baits at one time as shown

[Note to reviewer: Graphics may be included to aid consumer understanding.]

**DIRECTIONS FOR HOUSEHOLD USE:**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For thorough roach (and)(ant) (palmetto bug) (waterbug) control, use all (#) baits at one time. To keep roaches (and)(ants) (palmetto bugs) (waterbugs) from returning, replace all baits every three months.

1. Break Raid Max (Roach) baits apart from the plastic frame.
2. [Note to Reviewer: (a) is for a 12- or 18-count package, (b) and (c) are for the 4-count and 8-count sizes respectively, and (d) has more specific placement instructions, but without specific numbers.]
  - (a) For thorough roach (and)(ant) (palmetto bug) (waterbug) control, all (#) baits must be used at one time. Place 10 baits in the kitchen and 2 in each bathroom. For LARGER KITCHENS or PARTICULARLY HEAVY INFESTATIONS, we strongly recommend using additional baits and placing at least 12-15 baits in the kitchen and 2-4 in each bathroom. If you see roaches (and)(ants) (palmetto bugs) (waterbugs) in other areas, such as the bedroom or utility room, use 2-4 additional baits.
  - (b) For thorough roach (and)(ant) (palmetto bug) (waterbug) control, all (#, 4) baits must be used at one time. For larger kitchens or particularly heavy infestations, we strongly recommend using additional baits.
  - (c) For thorough roach (and)(ant) (palmetto bug) (waterbug) control, all (#, 8) baits must be used at one time. For larger kitchens or particularly heavy infestations, we strongly recommend using additional baits.
  - (d) For thorough roach (and)(ant) (palmetto bug) (waterbug) control, all (#) baits must be used at one time. For larger kitchens or particularly heavy infestations, we strongly recommend using (#?) additional baits in the kitchen and bathroom. If you see roaches (and)(ants) (palmetto bugs) (waterbugs) in other areas, such as the bedroom or utility room, use (#?) additional baits in these areas also.

- 3. For best results, place the baits next to the wall along baseboards, in corners, under sinks, in cabinets and near plumbing fixtures. You can even place (Raid Max) baits in cabinets. Do not contaminate feed or food products or food preparation surfaces, dishes, kitchen utensils and food containers.
- 4. Baits work best on horizontal surfaces touching corners and walls. [NOTE TO REVIEWER: The following underlined sentence may or may not be used, as appropriate. If you apply a bait on a vertical surface, use the enclosed stickers. You will not find it necessary to use stickers for all (#) baits.]
- 5. Roaches (and)(ants) (palmetto bugs) (waterbugs) will begin eating the bait immediately and you should expect to see fewer roaches (and)(ants) (palmetto bugs) (waterbugs) within days.
- 6. Replace ALL baits every three months to keep roaches (and)(ants) (palmetto bugs) (waterbugs) from returning. (Use the 3 month reminder (enclosed, on your calendar or refrigerator to remember) (on the baits to indicate) the date of replacement).

**STORAGE AND DISPOSAL STATEMENTS**

**STORAGE:** Store in a cool, dry area inaccessible to children.

**DISPOSAL:** Wrap container in newspaper and put in trash collection.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling.

**FIRST AID**

**IF ON SKIN:** Wash with plenty of soap and water. Get medical attention.

**IF IN EYES:** Flush eyes with plenty of water. Call a Physician if irritation persists.

**SATISFACTION GUARANTEED:**
