Recede 14490P163

NOTICE OF PESTICIDE:

Registration
 Reregistration

under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

S.C. Johnson & Son, Inc.
1525 Howe Street
Racine, Wisconsin 53403-2236

FILE

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Biopesticides and Pollution Prevention Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA sec. 3(c)(5). Once a pesticide is unconditionally registered, however it is not regarded as permanently acceptable. Unconditional registration does not eliminate the need for continual reassessment of a pesticide. If EPA determines, at any time, that additional data are required to maintain an existing registration, the Agency will require submission of such data under Section 3(c)(2)(B) of the Federal Insecticide Fungicide and Rodenticide Act (FIFRA).

1. A stamped copy of the label is enclosed for your records.
2. Revise the EPA Registration Number on the label to read, "EPA Reg. No. 4822-485"
3. Submit five copies of the final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

STATEMENT OF PRACTICAL TREATMENT: IF IN EYES: Flush eyes with plenty of water. Call a physician if irritation persists.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

1. (Separate the two units.) (Remove backing (cardboard) label from unit using pull tab.) Slowly remove foil label from the (fragrance) cartridge using (pull)(peel) tab. Do not remove or puncture (white) (clear) film protecting (colored) (fragrance) (concentrate) (gel). This film controls the release of concentrated (freshening) (cedar) (protection) ingredients. (Insert cartridge into holder unit.)
2. This product can be placed inside drawers and storage boxes or hung in closets. Use one unit in smaller (average size) closets, drawers or boxes, two in larger closets, drawers or boxes (and close tightly). **Important:** For maximum effectiveness, closets, drawers or boxes must be kept as air tight as possible. Dry clean clothes (garments) (fabrics) before storing (Clean clothes (garments) (fabrics) before storing).
3. When the (fragrance) concentrate (gel) dries and cracks (turns to powder), this signals replacement time (for the cartridge). (Replace all (name) (units) every (one) (two) (three) (four) months (season). Replace stored units every storage season.

SUMMARY TOXICOLOGY PROFILE FOR CEDAR MOTHPROOFER

STUDY	RECEDE 14490P163 (17.3% Lavandin Oil)
Acute Oral Toxicity Guideline 81-1	LD ₅₀ greater than 5 g/kg. Category IV
Acute Dermal Toxicity Guideline 82-2	Based on the dermal LD ₅₀ values for the fragrance components greater than 1%, the dermal LD ₅₀ for the product appears to be greater than 2 g/kg. We are currently conducting a dermal toxicity study at 5 g/kg and will submit upon completion. Category III/IV
Acute Inhalation Toxicity Guideline 81-3	Citing air sampling study conducted with lavender mothproofers showing minimal inhalation exposure (ppb) after 8-hours under worst case conditions and slow rate of evaporation. See risk assessment attached. As requested, we will be conducting an inhalation study representing a worst case consumer exposure (10X) to animals. Category IV
Primary Eye Irritation Guideline 81-4 (no 24-hour wash)	Irritation and opacity clearing within 7 days in all 6 rabbits. Category III
Primary Skin Irritation (Human)	No significant irritation resulting from 8-hour semi-occluded exposure. Category IV
Dermal Sensitization Guideline 81-6	Waiver is requested based on negligible repeated skin contact.
