NOZZLE CONTAINS ONE APPLICATION

MG

Raid® Yard Guard Flower Nozzle is a convenient, disposable sprayer which attaches to your garden hose. It contains pre-measured tablets which dissolve and are dispensed as water flows through the hose. Use while watering your flowers to kill over 50 common insects on contact and to prevent new infestations.

Raid® Yard Guard Flower Nozzle Controls:

- Aphids
- Armyworms
- Azalea Caterpillars
- Bagworms
- Boxelder Bugs
- Bristly Rose Slugs
- Budworms
- Buck Moth Larvae
- California Oakworms
- Cankerworms
- Casebearers
- Clover Mites
- Cockroaches**
- Crickets*
- Cutworms
- Elm Leaf Beetles
- Elm Spanworms
- Flies*
- Fungus Gnats
- Grasshoppers
- Gypsy Moth Larvae
- Japanese Beetles (Adult)
- June Beetles (Adult)
- Lace Bugs
- Leaf Skeletonizers
- Leafhoppers
- Leaf-feeding Caterpillars
- Leafrollers
- Mealybugs
- Midges*
- Mosquitoes*
- Orchid Weevil
- Oleander Moth Larvae
- Pear Psylla
- Peppertree Psyllid
- Pillbugs
- Pine Shoot Moths
- Pine Tip Moths
- Plant Bugs
- Psyllid Species
- Redhumped Caterpillars
- Sawfly Larvae
- Scale Insects (Crawler Stages)
- Sowbugs
- Spiders*
- Spittlebugs
- Striped Beetles
- Striped Oakworms
- Tent Caterpillars
- Thrips
- Ticks
- Tussock Moth Larvae
- Walnut Caterpillars
- Webworms
- Whiteflies
- Yellownecked Caterpillars

*The use of Raid® Yard Guard Flower Nozzle for the control of crickets, spiders, midges, flies and mosquitoes is limited to ornamental areas and areas adjacent to buildings. Apply as a general spray concentrating on damp areas beneath shrubbery, around foundations and in areas of tall grass or weeds. Do not apply to any food crop. Remove any animal feeding dishes prior to treatment and do not allow spray or drift to contact fish-bearing water.

**Outdoor cockroach control (including Asian cockroaches) is obtained by spraying hiding or resting places such as under shrubbery, in ground covers and mulching materials, in hollow trees, etc.

WILL NOT HARM PLANTS AND OUTDOOR HOME SURFACES

Not harmful to plants. Testing has been carried out on a wide range of ornamental plants under various environmental conditions and no plant damage has been observed. It is advised to pre-spray a selection of ornamentals if local use experience is unavailable.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Harmful if swallowed, inhaled or absorbed through the skin. Do not get into eyes, on skin, or on clothing. Avoid breathing spray mist. If clothing becomes contaminated, remove and wash before reuse. Wash hands thoroughly with soap and warm water after handling. Keep out of reach of children. Do not allow children or pets to contact treated surfaces until surfaces are dry. Do not contaminate feed, food or drinking water.

FIRST AID

IF IN EYES: Hold eyelids open and flush with plenty of water. Call a physician if irritation persists. **IF SWALLOWED:** Call a physician or Poison Control Center. Administer water freely and induce vomiting by giving one dose of syrup of ipecac. If vomiting does not occur within 10 to 20 minutes, administer second dose. If syrup of ipecac is not available, induce vomiting by sticking finger down throat. Repeat until vomit fluid is clear. Never give anything by mouth to an unconscious person. Avoid alcohol. **IF ON SKIN:** Wash thoroughly with soap and water. Get medical attention if irritation occurs. **IF INHALED:** Move victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

TD PHYSICIAN: No specific antidote is available. Treat the patient symptomatically.

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to fish and aquatic invertebrates. Do not apply directly to water. Do not apply when weather conditions favor drift from treated areas. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Apply this product only as specified on this label.

This pesticide is highly toxic to bees exposed to direct treatment or residues on plants or weeds. Do not apply Raid® Yard Guard Flower Nozzle, or allow it to drift onto plants or weeds on which bees are actively foraging. Additional information may be obtained by consulting your Cooperative Extension Service.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Make sure the ON/OFF knob is in the closed position. Attach the nozzle to a garden hose. Screw on tightly.

2. Turn water on. Point sprayer away from you and twist the ON/OFF knob to the open position to begin spraying.

3. Hold the nozzle at waist level and slowly sweep the area to be treated. Move at a steady pace. Spray foliage thoroughly but do not let runoff occur. Do not apply when weather conditions favor drift from treated areas. Do not spray into the wind.

4. You can stop spraying at any time by twisting the ON/OFF knob to the closed position.

USE THE ENTIRE CONTENTS IN ONE USE. Contents are exhausted when tablets are no longer visible and water does not have a milky look. Do not store a used sprayer.

Applications should be started prior to establishment of high pest populations and reapplication made as necessary. Good spray coverage is necessary to provide the most effective level of control. Phytotoxicity testing has been carried out on a wide range of ornamental plants under various environmental conditions and no phytotoxicity has been observed. It is advised to pre-spray a selection of ornamentals if local use experience is unavailable. Time applications to flowering plants during periods when pollinating insects are not present, such as early morning or late evening. Do not apply to any food crop. Remove any animal feeding dishes prior to treatment and do not allow any spray or drift to contact fish-bearing water.

Treats: 20' x 50'
(1000 sq. ft.)
Garden

STORAGE AND DISPOSAL

STORAGE: Store unused nozzles in original container out of the reach of children, preferably in a locked storage area. Store in a cool dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food or animal feed.

DISPOSAL: Container may be disposed of in trash after the nozzle is used. Wrap empty sprayer in newspaper and dispose of in the trash. Do not reuse.
