U.S. ENVIRONMENTAL PROTECTION AGENCY  
Office of Pesticide Programs  
Registration Division (7505C)  
401 "M" St., S.W.  
Washington, D.C. 20460

EPA Reg. Number:  
4822-508

Date of Issuance  
January 29,  
1999

NOTICE OF PESTICIDE:  
 Registration  
 Reregistration

Term of Issuance: Unconditional

Name of Pesticide Product:  
Raid Double Control Ant  
Baits

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

S.C. Johnson & Son, Inc.  
1525 Howe St.  
Racine, WI 53403

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA sec. 3(c)(5). Once a pesticide is registered, however, it is not regarded as permanently acceptable. Registration does not eliminate the need for continual reassessment of pesticides. If the Agency determines that, at any time, additional data are required to maintain in effect the existing registration, the Agency will require submission of such data under FIFRA section (3)(c)(2)(B).

Make the labeling changes listed below before you release the product for shipment:

- a. Revise the EPA Registration Number to read, "EPA Reg. No. 4822-508".
- b. Delete the words "a revolutionary ingredient" from the 5<sup>th</sup> sentence on the front panel.

Signature of Approving Official:

*George T. LaRocca*  
George T. LaRocca  
Product Manager 13  
Insecticide Branch  
Registration Division (7505C)

Date:

JAN 29 1999

c. Change the 8<sup>th</sup> sentence on the front panel to read "For Commercial, Industrial, and Residential Use."

Submit two copies of the revised final printed label for the record. A stamped copy of the label is enclosed for your records.

Sincerely yours,

*for* George T. LaRocca

### RAID DOUBLE CONTROL ANT BAITS

For Commercial, industrial and Residential Use  
Including Food Processing Plants, Eating Establishments, Food  
Marketing-Storage-Distribution, Hospitals, Nursing Homes, Schools, Office  
Buildings, Apartments, Laundries, Buses, Aircraft, Museums and Zoos

Ants are attracted to the bait in Raid Double Control Ant Baits. The food is carried back to the nest to kill the queen and destroys the entire colony.

#### Directions for Use

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Break Raid Double Control Ant Baits apart from the plastic frame before placement.

Place baits by ant trails or close to areas where ants are present, even on food preparation surfaces or next to food. Do not place baits on food preparation surfaces when food is being handled or on utensils that are used for food preparation. Also place adjacent to walls, electrical lines, potted plants, waste receptacles, sensitive electronic equipment, inside drop ceilings and wall voids or anywhere ant problems occur. (To apply baits to vertical surfaces, use the enclosed stickers.)

Do not use residual sprays with or near Raid Double control Ant Baits.

Ants will begin to feed -- population reduction and less activity can be expected in about a week.

For effective control:

- Use 3-4 baits for the average size room.
- Use more (6-8) for heavy infestations.

Bait stations are designed to be visually inspected with a flashlight. This allows for monitoring and timely replacement. Replacement is recommended after 3 months or when bait is almost entirely consumed (do not risk loss of control by allowing complete consumption).

Raid Double Control Ant Baits are packed in a Child Resistant Container.

#### STORAGE AND DISPOSAL STATEMENTS

STORAGE: Store in a cool, dry area inaccessible to children.

DISPOSAL: Wrap container and put in trash collection.

#### Additional list of Use Sites for Raid Double control Ant Baits
