(BACK PANEL)

**RAID DOUBLE CONTROL ANT BAITS**

**For Commercial, industrial and Residential Use  
Including Food Processing Plants, Eating Establishments, Food  
Marketing-Storage-Distribution, Hospitals, Nursing Homes, Schools, Office  
Buildings, Apartments, Laundries, Buses, Aircraft, Museums and Zoos**

Ants are attracted to the bait in Raid Double Control Ant Baits. The food is carried back to the nest to kill the queen and destroys the entire colony.

**Directions for Use**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Break (baits) (bait stations) (Raid Double Control Ant Baits) apart from the plastic frame before placement.

Place (baits) (bait stations) (Raid Double Control Ant Baits) by ant trails or close to areas where ants are present, even on food preparation surfaces or next to food. Do not place (baits) (bait stations) (Raid Double Control Ant Baits) on food preparation surfaces when food is being handled or on utensils that are used for food preparation. Also place adjacent to walls, electrical lines, potted plants, waste receptacles, sensitive electronic equipment, inside drop ceilings and wall voids or anywhere ant problems occur. (To apply (baits) (bait stations) (Raid Double Control Ant Baits) to vertical surfaces, use the enclosed stickers.)

Do not use residual sprays with or near (baits) (bait stations) (Raid Double Control Ant Baits).

Ants will begin to feed -- population reduction and less activity can be expected in about a week.

For effective control:

- Use 3-4 (baits) (bait stations) (Raid Double Control Ant Baits) for the average size room.
- Use more (6-8) for heavy infestations.

(Baits) (Bait stations) (Raid Double Control Ant Baits) are designed to be visually inspected with a flashlight. This allows for monitoring and timely replacement. Replacement is recommended after 3 months or when bait is almost entirely consumed (do not risk loss of control by allowing complete consumption).

(Baits) (Bait stations) (Raid Double Control Ant Baits) are packed in a Child Resistant Container.

**STORAGE AND DISPOSAL STATEMENTS**

**STORAGE:** Store in a cool, dry area inaccessible to children.

**DISPOSAL:** Wrap container and put in trash collection.
