STORAGE AND DISPOSAL STATEMENTS

STORAGE: Store in a cool, dry area inaccessible to children.
DISPOSAL: Wrap container and put in trash collection.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
 Break baits apart from the plastic frame before placement.
 Place bait stations by ant trails or close to areas where ants are present, even on food preparation surfaces or next to food. Do not place bait stations on food preparation surfaces when food is being handled or on utensils that are used for food preparation. Also place adjacent to walls, electrical lines, potted plants, waste receptacles, sensitive electronic equipment, inside drop ceilings and wall voids or anywhere ant problems occur.
 Do not use residual sprays on or near Raid® Double Control Ant Baits.
 Ants will begin to feed—population reduction and less activity can be expected in about a week.
 For Effective Control: Use 3-4 bait stations for the average size room. Use 6-8 bait stations for heavy infestations. Bait stations are designed to be visually inspected with a flashlight. This allows for monitoring and timely replacement. Replacement is recommended after 3 months or when bait is almost entirely consumed (do not risk loss of control by allowing complete consumption). Raid® Double Control Ant Baits are packaged in a child resistant container.

- ADDITIONAL USE SITES FOR RAID® DOUBLE CONTROL ANT BAITS.**
- Household:
- ATTICS
 - BASEMENTS & BATHROOMS
 - CLOSETS
 - DINING ROOMS
 - FOOD STORAGE SHELVING
 - KITCHENS
 - PANTRIES
 - RECREATION ROOMS

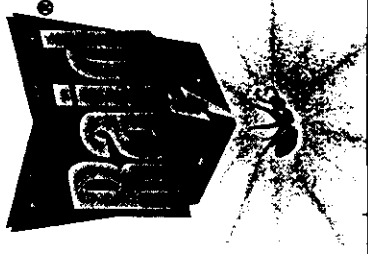

Ants are attracted to the bait in Raid® Double Control Ant Baits. The bait food is carried back to the nest . . . TO KILL THE QUEEN AND DESTROY THE ENTIRE COLONY.

- Effective against:
- ARGENTINE ANTS
 - BLACK CARPENTER ANTS
 - CORNFIELD ANTS
 - PHAROAH ANTS
 - and a variety of HOUSEHOLD ANTS.

INSTRUCCIONES DE USO

El uso de este producto de una manera contraria a las indicaciones de la etiqueta constituye una violación de la ley federal.

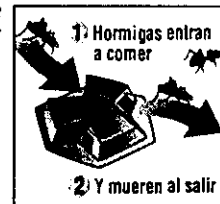

Separe los cebos del soporte plástico antes de colocarlos.

Coloque las unidades de cebo junto a los caminos de las hormigas o cerca de superficies donde éstas se encuentran presentes, incluso sobre superficies de preparación de alimentos o junto a los alimentos. No coloque las unidades de cebo sobre superficies de preparación de alimentos cuando éstos se están manipulando o en utensilios que se utilizan para la preparación de alimentos. Además, colóquelos junto a paredes, líneas eléctricas, plantas en macetas, recipientes de desperdicios, equipo electrónico sensible, dentro de cielos rasos falsos y paredes dobles o en cualquier otro lugar donde tenga problemas de hormigas.

No utilice insecticidas de acción residual sobre o cerca de los Cebos para Hormigas Doble Control Raid®.

Las hormigas comenzarán a alimentarse; por lo general, la reducción de la población y menos actividad se puede esperar al cabo de una semana.

Para un control efectivo: Utilice de 3 a 4 unidades de cebo para una habitación de tamaño mediano. Utilice de 6 a 8 unidades para infestaciones graves. Las estaciones de cebo están diseñadas para poder inspeccionarse visualmente con una linterna. De esta forma, es posible supervisar el consumo y reemplazarlos puntualmente. Se recomienda reemplazarlos al cabo de tres meses o cuando el cebo haya sido consumido casi totalmente (no se arriesgue a perder el control de las hormigas permitiendo que lo consuman completamente). Los Cebos para Hormigas Doble Control Raid® están envasados en contenedores a prueba de niños.

NOTIFICATION

Document Processing Desk (Notification)
U. S. Environmental Protection Agency
Office of Pesticide Programs
Ariel Rios Building
1200 Pennsylvania Ave., NW
Washington, D.C. 20460
ATTN: Linda Arrington

Dear Ms. Arrington:

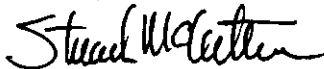

Re: Raid Double Control Ant Baits, EPA Reg. No. 4822-508
Notification of Minor Label Revision

I am submitting the subject notification, along with a copy of a final printed label, containing the claim, "With two foods ants eat." This claim is basically one-half of the currently approved claim, "Contains two foods (ants) (roaches) (waterbugs) (palmetto bugs) eat, to kill the (queen and) colony for up to three months."

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 95-2 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

If you have any questions concerning this submission please call me at 262-260-2405. Thanks very much.

Sincerely,

Stuart McArthur
Senior Registration Specialist
