U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number

Date of Issuance

4822-524

SEP 21 2001

Term of Issuance

Unconditional

Name of Pesticide Product:

Raid Ant & Roach Killer
Spray

NOTICE OF PESTICIDE:

- Registration
- Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

S.C. Johnson & Son, Inc.
525 Howe Street
Racine, WI 53403

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA sec. 3(c)(5). Once a pesticide is registered, however, it is not regarded as permanently acceptable. Registration does not eliminate the need for continual reassessment of pesticides. If the Agency determines that, at any time, additional data are required to maintain in effect an existing registration, the Agency will require submission of such data under FIFRA section (3)(c)(2)(B).

1. Make the following label changes:

- a. Revise the EPA Registration Number to read, "EPA Reg. No. 4822-524".
- b. Change "remove" to "repeat", last sentence, first paragraph under INDOORS.
- c. Amend First Aid statements per PR Notice 2001-1. Because this is a toxicity category 4 product you may use the category 3 language. IF ON SKIN: Rinse skin immediately with plenty of water for 15-20 minutes.

Signature of Approving Official:

John W. ...

Date:

SEP 21 2001

Call a poison control center or doctor for treatment advice. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

2. Submit two copies of the revised final printed label for the record.

Sincerely

George T. LaRocca
Product Manager (13)
Insecticide Branch
Registration Division (7505C)

(indicates optional text)

Raid Ant & Roach Killer Spray

- For Household and domestic use only
- Contains Deltamethrin
- Water-based (formula)
- Killing action and residual control
- Long-lasting (formula)
- For (indoor) (outdoor) use
- Kills fleas, roaches, ants, spiders
- Kills roaches resistant to organophosphate and carbamate insecticides
- Kills resistant roaches
- Kills ants
- Kills on contact
- Kills hidden insects (bugs)
- Kills insects (bugs) that you see, kills the ones that you don't see
- Kills (a variety of) household bugs
- Highly effective against ants, bees, carpenter ants, carpet beetles, centipedes, cockroaches, crickets, firebrats, fleas, flour beetles, grain beetles, ground beetles, mole crickets, moths, pillbugs, scorpions, silverfish, sowbugs, spiders, ticks, and many other crawling insects in and around houses (homes), apartments, recreational vehicles, cabins, tents and other recreational structures.
- No unpleasant odor
- Won't stain carpet (and)(or) (floors)
- Protects (kills) (keeps on killing) for up to 4 weeks
- Contains no CFC's or other ozone depleting substances. Federal regulations prohibit CFC propellants in aerosols.

Active Ingredient:
 Deltamethrin.....0.02%
 Other Ingredients:.....99.98%
 100.00%

Keep out of reach of children
 Caution: see additional precautionary statements on back
 Net weight _____

EPA Reg. No. 4822-~~xxx~~ *LEU*
 EPA Est. No. 4822-WI-1

Not for use on plants grown for sale or other commercial use. Raid Ant & Roach Killer Spray is intended for use in and around residential structures and their immediate surroundings. (Do not spray on vinyl siding.)

**ACCEPTED
 with COMMENTS
 In EPA Letter Dated:
 SEP 21 2001**

Under the Federal Insecticide,
 Fungicide, and Rodenticide Act,
 as amended, for the pesticide
 registered under EPA Reg. No.
4822-524

Direction for use:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Shake well before each use. Hold container upright. Do not spray up into air. Apply to surfaces only. (Twist and snap off tab (remove protective cap) before spraying.) Direct spray away from face. Hold can (12-15 inches) (2-4 feet) from surface being sprayed. Press button down and spray as directed. Spray surface until slightly wet.

Indoors:

((Cockroaches (including adult and immature stage of both non-resistant and organophosphate and carbamate resistant strains)), (ants,) (booklice,) (boxelder bugs,)(centipedes,)(crickets,)(dermestids (carpet beetles,)(firebrats,)(fleas,)(palmetto bugs,)(silverfish,)(sowbugs,)(ticks,)(and)(waterbugs,)) Apply as a spot and crack and crevice treatment (to areas where these pests crawl and hide,)(especially in)(hidden areas)(around sinks, storage bins, behind baseboards,)(around windows and doors,)(behind and under refrigerators, cabinets, sinks and stoves,)(the underside of shelves, drawers, bookcases,)(and)(similar areas,)(When (if) pests are driven out, spray directly,)) Cover all food handling surfaces and cover or remove all food and cooking utensils or wash thoroughly after treatment. **Exposed** food should be covered or removed. Remove as necessary, but not more than once per week.)

(Roaches(Ants): (Spray in cracks and crevices, around baseboards, and other hiding places until wet. When driven out, spray (bugs)(roaches)(waterbugs)(palmettobugs)(ants) directly,)) (Spray around windows and doors and other places where roaches(bugs)(waterbugs)(palmetto bugs)(ants)may be entering the house,)) **Repeat** as necessary, but not more than once per week.)

(Carpenter ants: For effective control, locate and treat nests and surrounding areas. Apply around windows and doors and other places where ants enter house and where they crawl and hide. Spray into infested wood through existing openings.)

(Ticks and fleas on surfaces(carpets)(rugs): (Remove pet bedding and destroy or clean thoroughly,)) (Spray pet resting quarters,)) **Adult fleas** and larvae contacted by spray will be killed. (Put fresh bedding down once spray has dried,)) **Do not** spray animals directly. For best results, pets should be treated with an appropriate flea and/or tick control product registered for use on pets before allowing them to return to the treated area. (Spray rugs and carpets. Test first for staining in an inconspicuous piece prior to use,))

(Spiders(centipedes)(ground beetles)(pillbugs)(sowbugs)(scorpions)(ticks)(silverfish)(crickets): (Apply along and behind baseboards, to window and door frames, corners, pipes, storage localities, attics, crawl spaces, and other areas over which these pests may crawl (be found) or enter premise(,house,)) (Spray pest directly,)) **Spray** surface until wet.)

(Pantry Pests

(Grain beetles (rusty, merchant, and saw toothed), flour beetles (red and confused), chocolate moths, cigarette beetles, clover mites, cluster flies, drugstore beetles, elmleaf beetles, rice weevils, lesser grain borers, spider beetles, and tobacco moths: treat exposed stages. Remove all food-stuffs, utensils, and shelf paper from area to be treated. Discard used shelf paper and any infested foodstuffs. Apply spray to shelves and in cracks and crevices behind and under cupboards and cabinets. Allow spray to dry prior to replacement of shelf paper, food, and utensils. Wash any exposed food handling surfaces and utensils prior to use,))

(Carpet beetles: (black, furniture, and varied): **Spray** on and under edges of floor coverings, under rugs and furniture and in closets or other locations where these pests are found,))

(Clothes moths: Use this product as a crack and crevice treatment in closets and other storage areas where these pests are found. This is an adjunct treatment and will not control moth larvae already on clothes. Do not apply to clothing.)

(Outdoors:

Point nozzle away from face. Hold can approximately (12-15 inches)(2-4 feet) from surface to be sprayed. For best results, spray when air is calm. Spray with wind if breeze is blowing. (Do not spray directly overhead.) Do not contaminate fish ponds or apply directly to water.

(Pests on outside surfaces of buildings: To (control of building infestations) (prevent entry) of (ants), (cockroaches (including asian cockroaches))(waterbugs)(palmetto bugs), (centipedes), (clover mites), (crickets) (and) (sowbugs)(pillbugs)). (Spray foundation of buildings where insects are active and may find entrance up to a height of 2-3 feet.) (Apply as a residual spray to outside surfaces of buildings where insects tend to congregate(or enter).) (Spray areas include (but are not limited to) (screens), (window frames), (eaves), (porches), (patios), (garages) and (garbage areas.)) (Apply as a barrier spray to point of pest entry into structure (building)(home)(house)(garage). Pay particular attention to windows and doorframes) Repeat treatment as necessary, but not more than once per week.

(Crawling insects: (ants), (cockroaches (including asian cockroaches)), (centipedes), (crickets), (mole crickets), (and) (silverfish.) Spray infested surfaces (of patio or picnic area) hitting as many pests as possible. (Spray ant hills for best control.) (Also spray legs of tables and chairs to repel ants.))

(Ants: (Spray around ant trails and hills). (If nest can be located, spray surface of nest until wet) (Spray around nests hidden under steps, brickwork, concrete, etc.) (Break apart accessible nests and spray on and around debris until surface is slightly wet.) Repeat treatment as necessary, but not more than once per week.)

((Lone star ticks),(dog ticks),(crickets),(fleas),(and)(earwigs): Apply thoroughly to infestation in bushes, grass, or weeds.)

((Wasps),(hornets),(and)(bees): Spray nests and bees directly. Aim spray at nest openings. Applications should be made late in the evening when insects are at rest.)

(Flying insects: (houseflies),(gnats),(mosquitoes),(and)(small flying moths): Use only on outdoor surfaces. Spray outside surfaces of window and door frames and other areas where these pests may enter the home. Also spray localized resting areas, such as under eaves, porches, surfaces around light fixtures and cords, railings, etc. where these insects may rest. Insects coming to rest on treated surfaces will be killed.)

(For control of garden insects: For use on (roses,) (dahlias,) (asters,) (and other) ornamentals to kill (Japanese beetles)(whiteflies),(aphids),(exposed thrips),(spiders),(spider mites),(red mites),(lacebugs),(pavement ants),(clover mites),(army worms),(and)(leafminers) hit by spray.) (May be used on plants, as well as a multi-purpose spray in small ornamental gardens and for spot treatments of incipient insect infestations to prevent spreading in large garden areas.) (May also be used on other plants such as african violets, asters, azaleas, begonias, camellias, carnations, chrysanthemums, delphiniums, dogwood, English ivy, eunonymus, fuschia, geraniums, crassula, grape vine, Ketina palm, laurel, marigolds, rhododendrons, rubber plants, snapdragons, stocks, wandering Jews, and zinnias.)) (When spraying plants, do not operate closer than 18 inches. Use sweeping motion. Spray in one second bursts. Be cautious about wetting tender foliage, young plants, and new growth. Do not spray plants when temperatures exceed 90 F. Spray insects directly whenever possible. As with all plants listed, especially carnations, marigolds, and chrysanthemums, there exists a wide variety of species and cultivars and therefore a range of susceptibility to injury. To assess possible phytotoxicity, spray a few plants

as describes above, wait 24 hours and check for possible injury. Repeat treatment as necessary, but not more than once per week.))

Storage and Disposal:

Storage: Do not store near heat or open flame. Store in a cool, dry area away from children.

Disposal: (Replace cap) wrap container in several layers of newspaper and discard in trash. Do not incinerate or puncture. Can may be disposed of with other recyclables where local law permits.

Precautionary Statements:

Hazards to Humans and Domestic animals:

Caution: Causes moderate eye irritation. Harmful if inhaled. Avoid contact with eyes, skin, or clothing. Avoid breathing spray mist. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Remove pets, birds, and cover fish aquariums before spraying.

First aid:

If inhaled: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

If in eyes: Flush eyes with plenty of water. Call a physician if irritation persists.

If on skin: Wash with plenty of soap and water. Get medical attention if irritation persists.

Environmental Hazards:

This product is toxic to fish. Do not apply directly to water. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

Physical or chemical Hazards:

Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130 F may cause bursting. Do not apply this product in or on electrical equipment due to the possibility of shock hazard.
