**SUBJECT:** Amendment - Add New Language for Assembling Applications Device  
Raid Reach & Kill Indoor Ant & Roach Killer  
EPA Registration Number: 4822-532  
Raid Reach & Kill Outdoor Ant & Roach Killer  
EPA Registration Number: 4822-533  
Your Submission Dated March 8, 2004

Dear Mss Geyer:

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes indicated below prior to release for shipment of product bearing the amended labeling.

1. On the text for applicator handle either replace the signal word with "Caution" or use another statement such as "Important Note." You can only use one signal word throughout the labeling.

Submit two copies of your final printed labeling before you release the product for shipment. A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

George T. LaRocca  
Product Manager 13

(Note to reviewer: This aerosol product is fitted with a special overcap for use in conjunction with a trigger-actuated applicator. Both a refill aerosol and "starter kit" (including an aerosol and refillable applicator) will be made available for purchase. This label incorporates text for the starter kit and refill aerosol. The aerosol refill cans will be fully labeled. Cans inserted in the applicator may be rotated to **allow** access to label text).

**(Inserting Can:)**

1. **Before each use, check to make sure that you are using the right (Raid) (Reach & Kill) (product) (insect spray) (insecticide) for your insect problem.**
2. **(Remove clear cap from the can.) Holding the (pole with) base opening upward, place the can bottom into the base.**
3. **Place cover over can, (align) (line up) locking features and twist until cover snaps into place.**
4. **To remove (can) (aerosol) (refill), twist and remove cover.**

**DIRECTIONS FOR USE:**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**FOR OUTDOOR USE (TO KILL WASPS AND HORNETS):**

To kill paper wasps, yellow jackets, mud daubers, bald-face hornets, and bees: For best results, spray in early morning or early evening when insect activity is minimal. Stand safe distance from nest and not directly underneath. Point spray opening toward nest with wind at your back. Spray until nest is thoroughly saturated to kill the entire nest population. (Do not disturb or directly contact nest(s) with the applicator.) Residual action will kill wasps and hornets which (that) return to (the) nest. Wait at least 24 hours before removing the nest. Do not apply to pets or contaminate feed, foodstuffs, dishes or utensils. Avoid spraying vegetation directly. Avoid excessive wetting of asphalt.

(Note to EPA reviewer: the following are alternate directions for outdoor use.)

**(FOR OUTDOOR USE):**

Hold (with spray nozzle) approximately 12-15 inches from surface to be sprayed. For best results, spray when air is calm. Spray with wind if breeze is blowing. (Do not spray directly overhead).

(Pests on outside surfaces of buildings:) To (control building infestations) (prevent entry) of (ants), (cockroaches) (waterbugs) (palmetto bugs) (crickets) (spiders) (silverfish) (millipedes) (centipedes) (earwigs): (Spray foundation of building(s) where insects are active and may find entrance up to a height of 2-3 feet.) (Apply (as a residual spray) to outside surfaces of building(s) (where insects tend to (congregate)(enter)).) (Spray (screens), (window frames), (eaves), (porches), (patios), (garages) and (garbage areas) to prevent pest entry (into) (homes)(structure) (building) (house) (garage). (Apply as a barrier spray to point of pest entry into structure (building) (home) (house) (garage). Pay particular attention to windows and doorframes.) Repeat treatment every 4 (four) weeks.

(Crawling insects: To Control: ((ants)(cockroaches) (waterbugs) (palmetto bugs) (centipedes) (millipedes) (spiders) (crickets) (earwigs) (and) (silverfish), spray infested surfaces (of patio or picnic area) hitting as many pests as possible.) (Spray ant hills and trails (for best control).) (Also spray legs of tables and chairs to repel ants.))

((To Control) Ants: Spray (around) ant hills and trails (as necessary) (for best control).

**STORAGE:** Store away from heat, sparks, and open flame in an area inaccessible to children. Do not store (with) can upside-down.

**DISPOSAL:** Do Not Puncture or Incinerate! If empty: This container may be recycled (in the few but growing number of communities) where aerosol can recycling is available. Before offering for recycling, empty the container by using the product according to the label. If recycling is not available, put in trash. If partially filled: Call your local solid waste agency or 1-800-529-3394 for disposal instructions. Never place unused product down any indoor or outdoor drain.
