Call a poison control center or doctor for treatment advice.

(CONTAINS # BAITs (units) (stations))

[Product Name] contains (an/the ingredient), (Hydramethylnon), (an ingredient) that keeps killing insects nonstop. (Use) [Product Name] (to) (treat) (handle) a variety of your insect problems. Kills, ants, earwigs, and silverfish. [Product Name] are so advanced they kill (pests)(bugs)(and) (ants) where they breed, helping to rid your home of (pests) (bugs) (and) (ants) continuously, 24 hours a day, 7 days a week, for up to 3 months. [Product Name] fit snugly in corners and along paths commonly traveled by ants. For best results, we strongly recommend placing (applying) (using) all (of the) [Product Name] (baits) (stations) (units) at the same time.

Ants are attracted (by the bait in) (to feed on) [Product Name] (the baits) (units) (stations) and carry the powerful bait back to the nest to kill the queen and the entire colony. [Product Name] (the baits) (units) (stations) kills a variety of household ants, including Pharaoh Ants

DIRECTIONS FOR HOUSEHOLD USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. (Break baits apart)(Separate baits).
2. For best results, clean up ant trails, then place the baits close to where (ants)(bugs) have been seen. You can even place Raid Baits in cabinets. Increased ant activity may be seen near baits for short periods, but you should begin to see fewer (ants)(bugs) within 5-7 days. Do not interfere with the ants or the bait stations during use because ants must carry the bait back to the nest to kill the queen, and the entire colony. Do not spray insecticide on or around bait stations. For best results, use all (#) baits at one time in the room where you see (ants)(bugs); use additional baits for larger infestations.
3. Replace ALL baits every three months or sooner if (pests)(bugs)(ants) return.

Replace 3 months after placement
