Subject: Label Amendment - Registration Review Mitigation for Deltamethrin  
Product Name: BUGTRON  
EPA Registration Number: 4822-561  
Application Date: September 8, 2021  
Decision Number: 578356

Dear Joshua M. Hunnicutt:

The Agency, in accordance with the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, has completed reviewing all the information submitted with your application to support the Registration Review of the above referenced product in connection with the Deltamethrin Interim Decision, and has concluded that your submission is acceptable. The label referred to above, submitted in connection with registration under FIFRA, as amended, is acceptable.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently

Page 2 of 2  
EPA Reg. No. 4822-561  
Decision No. 578356

approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

If you have any questions about this letter, please contact Caleb Carr via email at [carr.caleb@epa.gov](mailto:carr.caleb@epa.gov).

Sincerely,

A handwritten signature in blue ink, appearing to read "Linda Arrington", with a long horizontal flourish extending to the right.

Linda Arrington, Branch Chief  
Risk Management and Implementation Branch 4  
Pesticide Re-Evaluation Division  
Office of Pesticide Programs

Active Ingredient:

Deltamethrin .....0.03%  
 Other Ingredients .....99.97%  
 Total..... 100.00%

For use Indoors or Outdoors

KEEP OUT OF REACH OF CHILDREN  
CAUTION

See (back) (inside) (bottom) (side) panel for additional precautionary statements (and complete use instructions)

Net Contents:

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION**

Contact with product may result in transient tingling and reddening of the skin. Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

**ENVIRONMENTAL HAZARDS**

This product is extremely toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area. Do not contaminate fish ponds or apply directly to water.

**PHYSICAL OR CHEMICAL HAZARDS**

Do not apply this product in or on electrical equipment due to possibility of shock hazard. Some hard surfaces may become damp if sprayed. Avoid slips or falls.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.  
Read entire label before use. Apply this product only as directed.

## RESTRICTIONS

Do not allow children or pets to touch the treated surface until it has dried. Do not use in commercial food handling establishments, restaurants or other places where food is commercially prepared or processed. Do not spray more than once per week. Do not use on edible crops. DO NOT apply to vegetable plants or other plants used for food. Not for use on plants grown for sale or other commercial use. Do not spray animals directly. Do not apply to clothing. Do not allow to enter indoor or outdoor drains. No permita la entrada a desagües internos o externos. Follow proper disposal procedures on this label. *Siga las indicaciones del etiquetado para el desecho apropiado del producto.*

[The pictogram must be legible (i.e. no smaller than 1.5 square centimeters or .25 square inches unless this size is greater than 10% of the size of the label.)]

Do not apply when the wind speed is greater than 15 mph. All outdoor spray applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses: 1. Application to pervious surfaces such as soil, lawn, turf, and other vegetation; 2. Perimeter band treatments of 7 feet wide or less from the base of a man-made structure to pervious surfaces. 3. Applications to underside of eaves, soffits, doors, or windows permanently protected from rainfall by a covering, overhang, awning, or other structure; 4. Applications around potential exterior pest entry points into man-made structures such as doorways and windows, when limited to a band not to exceed one inch; 5. Applications to vertical surfaces (such as the side of a man-made structure) directly above impervious surfaces (e.g., driveways, sidewalks, etc.) up to 2 feet above ground level; 6. Applications to vertical surfaces directly above pervious surfaces, such as soil, lawn, turf, mulch or other vegetation) only if the pervious surface does not drain into ditches, storm drains, gutters, or surface waters.

Treat surfaces to ensure thorough coverage but avoid runoff. To treat insects harbored in voids and cracks-and-crevices, applications must be made in such a manner to limit dripping and avoid runoff onto untreated structural surfaces and plants. Do not apply directly to impervious horizontal surfaces such as sidewalks, driveways, and patios except as a spot or crack-and-crevice treatment. Do not apply or irrigate to the point of runoff.

Spot treatments must not exceed two square feet in size (2ft. by 1 ft. or 4 ft. by 0.5 ft.).

For soil or foliar applications, do not apply by ground within 25 feet of lakes, reservoirs, rivers, permanent streams, marshes or natural ponds, estuaries and commercial fish farm ponds.

Do not spray the product into fish pools, ponds, streams, or lakes. Do not apply directly to sewers or storm drains, or to any area like a drain or gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

Do not make applications during rain. Avoid making applications when rainfall is expected before the product has sufficient time to dry (minimum 4 hours). Rainfall within 24 hours after application may cause unintended runoff of pesticide application.

[Assembly instructions for Gallon and Half Gallon]

Assembly Instructions

Remove cap and trigger (sprayer) (wand) hanger (holster). (Remove band holding trigger (sprayer) (wand) to hanger (holster).) Replace hanger (holster) on bottle for future trigger (sprayer) (wand) storage. Uncoil hose, drop (flexible) dip tube into container and tighten cap. (Move (unfold) the wand to the upright (90 degree) (extended) position.) (Slide (set) the (reusable auto) (automatic) trigger (sprayer) (wand) to the on (unlocked) position.) (Turn (set) the nozzle to the fan or stream position.) (After use, slide (set) the (reusable auto) (automatic) trigger (sprayer) (wand) to the off (locked) position (and hang (place) upside down on the hanger (holster) for storage.) (Turn (set) the nozzle to the off (stop) position.) Keep the (reusable auto) (automatic) trigger (sprayer) (wand), hose, dip tube and hanger (holster) for use on compatible refills.

[Optional usage instructions by form]

(Manual Trigger)

Turn (set) the nozzle to the fan (spray) or stream position. Squeeze trigger to apply (spray) product. Return to off (stop) position after use.

(Auto) (Trigger)(Sprayer)

(Unfold) the wand (extension) to the upright (90 degrees) (extended) position.) (Slide (set) the (reusable auto) (automatic) trigger (sprayer) to the on (unlocked) position). (Turn (set) the nozzle to the fan or stream position.) Squeeze (press) and hold the (reusable auto) (automatic) trigger (sprayer) to apply product. (Lift the jug above the height of the (trigger)(sprayer) while spraying initially, if it does not (spray)(dispense) immediately.) (After use, slide (set) the (reusable auto) (automatic) trigger (sprayer) to the off (locked) position (and hang (place) upside down on the hanger (holster) for storage.) (Turn (set) the nozzle to off (stop) position after use.)

Product Information

Remove or cover exposed food and utensils. Cover exposed countertops and other food related surfaces. Do not spray into the air. Test in an inconspicuous area before applying. Wash thoroughly after spraying.

(Slide (set) the (reusable auto) (automatic) trigger (sprayer) to the on (unlocked) position.) (Turn (set) the nozzle to the fan or stream position.) Spray until surface is moist but not dripping. (Approximately [insert number(s)] pulls (seconds) per square foot.) (Approximately [insert number(s)] pulls (seconds) per square foot

for the fan spray and [insert number(s)] pulls (seconds) per square foot for the stream spray.) [Number(s) will vary depending on trigger chosen.] Over application may cause damage. (Keep the Reusable Auto Trigger (Sprayer) for use on compatible refills.)

## **Indoors**

Hold container upright and spray away from face. (Slide (set) the (reusable auto) (automatic) trigger (sprayer) (wand) to the on (unlocked) position.) (Turn (set) the nozzle to the fan or stream position.) (Spray (one to two) (one to three) (one to four) (two to three) (two to four) (three to four) feet from the surface.) (Return trigger (sprayer) (wand) to off (locked) position after use.) (Return nozzle to off (stop) position after use.)

Ants, Boxelder Bugs, Cockroaches Firebrats, Ground Beetles, Palmetto Bugs, Pillbugs, Roaches, Silverfish, Sowbugs, and Waterbugs: Apply as a spot and crack and crevice treatment to areas where these pests crawl and hide, paying special attention to ant trails, hidden areas around sinks and storage areas, behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks and stoves, the underside of shelves, drawers, bookcases, and similar areas. Can also be used in basements.

Centipedes, Crickets, Scorpions, Spiders and Stink Bugs: Spray directly.

Carpenter Ants: For effective control, locate and treat nests and surrounding areas. Apply around doors and windows and other places where ants enter premises and where they crawl and hide. Spray into infested wood through existing openings.

Ticks (Including Deer Ticks which May Transmit Lyme Disease) and Fleas on Pet Surfaces: Remove pet bedding and destroy or clean thoroughly. Spray pet resting quarters. Adult Fleas and Larvae contacted by spray will be killed. Put fresh bedding down once spray has dried. Do not spray animals directly. For best results, pets should be treated with an appropriate flea and/or tick control product registered for use on pets before allowing them to return to the treated area. Spray rugs and carpets where infestations are bad. Delicate fabrics should be tested for staining in an inconspicuous area prior to use.

Gnats, Houseflies, Mosquitoes and Small Flying Moths: Spray resting areas. Insects coming to rest on treated surfaces will be killed.

Chocolate Moths, Cigarette Beetles, Clover Mites, Cluster Flies, Drugstore Beetles, Flour Beetles (Red and Confused), Grain Beetles (Rusty, Merchant and Saw-Toothed), Lesser Grain Borer, Rice Weevils, Spider Beetles and Tobacco Moths: Spray insects directly. Remove all food-stuffs, utensils and shelf paper from area to be treated. Discard used shelf paper and any infested foodstuffs. Apply spray to shelves and in cracks and crevices behind and under cupboards and cabinets. Allow to dry prior to replacement with new shelf paper, food and utensils. Wash any exposed food handling surfaces and utensils before use.

Webbing Clothes Moths: Use this product as a crack and crevice treatment in closets and other storage areas where these pests are found. This treatment will not control moth larvae already on clothes. Do not apply to clothing.

To control Aphids, Elmleaf Beetles, Japanese Beetles, Lace Bugs, Leafminers, Mealy Bugs, Mites and Spider Mites on house plants: (Use (fan) setting.) Prior to spraying, remove plants from living and eating areas. Put in an area not likely to come in contact with pets, children or food. Plants can be returned to original location when leaves are dry. If plants cannot be moved, cover or remove exposed food and food handling surfaces. Apply spray to upper and lower surfaces of foliage. Avoid wetting blossoms if possible. Avoid spraying surrounding areas.

## **Outdoors**

Hold container upright and spray away from face. Spray with wind if breeze is blowing. (Slide (move) (set) the (reusable auto) (automatic) trigger (sprayer) (wand) to the on (unlocked) position.) (Turn (move) (set) the nozzle to the fan or stream position.) (Spray (one to two) (one to three) (one to four) (two to three) (two to four) (three to four) feet from the surface.) .) (Return trigger (sprayer) (wand) to off (locked) position after use.) (Return nozzle to off (stop) position after use.)

Ants, Clover Mites, Cockroaches (roaches) (including (Asian) (and) (German) Cockroaches), Crickets, (Mole Crickets,) (Pillbugs,) Silverfish, Sowbugs, (and) (Waterbugs): Spray foundation of building up to a height of 2 to 3 feet where insects are active and may find entrance. Apply to outside surfaces of buildings where insects tend to congregate.

Ants on lawns and turf: Spray around ant trails and hills. Spot treat around nests hidden under steps, brickwork, concrete.

Crickets, Fleas, Dog Ticks and Lone Star Ticks: Apply to infestation in bushes, grass or weeds.

Gnats, Houseflies, Mosquitoes and Small Flying Moths: Treat resting areas. Insects coming to rest on treated surfaces will be killed.

For control of ornamental garden insects: For use on asters, dahlias, roses, and other ornamentals. Spray directly to kill Aphids, Armyworms, Clover Mites, Japanese Beetles, Lace Bugs, Leafminers, Mealy Bugs, Pavement Ants, Spiders, Spider and Red Mites, Exposed Thrips and Whiteflies.

Also for use as a multi-purpose spray in small ornamental gardens without edible crops and for spot treatments to prevent insects from spreading into large garden areas.

May be used on other plants: African violets, asters, azaleas, begonias, camellias, carnations, chrysanthemums, delphiniums, dogwood, English ivy, euonymus, fuschia, geraniums, crassula, grape vine, Kentia palm, laurel, marigolds, rhododendrons, rubber plants, snapdragons, stocks, wandering Jews and zinnias.

When spraying plants, use a sweeping motion. Spray insects directly whenever possible. Be cautious about wetting tender foliage, young plants and new growth. Do not spray plants when temperatures exceed 90°F. Over application may cause damage. Repeat treatment as necessary but not more than once per week.

## **STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage and disposal.

**Storage:** Store in a cool, dry area (away from) (inaccessible to) children and pets and away from heat, sparks and open flame. (Protect from freezing.) (Store above 32°F.) (Do not transport or store below 32°F (0°C).) If freezing occurs, allow product to thaw and shake well before (using) (use). (Some product separation may occur on freezing which is reversible on shaking.) Freezing does not adversely affect (the performance of) this product.

**Pesticide Disposal:** ((Battery Powered) (Reusable) (Auto) (Automatic) (Trigger) (Sprayer): Do not discard. (Keep) (Save) the (Battery Powered) (Reusable) (Auto) (Automatic) (Trigger) (Sprayer) for use (on) (with) (Bugtron) refills of equal size.)

**Container Handling:** Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Do not pour or dispose down-the-drain or sewer. Call your local solid waste agency or 800-529-3394 for disposal instructions. Never place unused product down any indoor or outdoor drain.
