Subject Amended Reregistration Label
Product Name PC GI 08
EPA Registration Number 4822 563
EPA Decision Numbers 411969 and 410514

Dear Mr Hollas

The Agency in accordance with the Federal Insecticide Fungicide and Rodenticide Act (FIFRA) as amended has completed reviewing all of the information submitted with your application to support the reregistration of the above referenced product in connection with the pyrethrins and piperonyl butoxide (PBO) REDs and has concluded that your submission is acceptable

NOTE This product is not being reregistered under sections 3(c)5 and 4(g) of FIFRA at this time

Please be reminded that 40 CFR Part 156 140(a)(4) requires that a batch code lot number or other code identifying the batch of the pesticide distributed and sold be placed on non refillable containers The code may appear either on the label or durably marked on the container itself and can be added by non notification per PRN 98 10

Please note that the record for this product currently contains the Confidential Statements of Formulation (CSFs) listed below Any previously dated CSFs are superseded

Basic CSF dated 8/18/08

A copy of your label stamped Accepted is enclosed along with copies of the acute

toxicity and product chemistry reviews completed for the subject product. Products shipped after 12 months from the date of this amendment or the next printing of the label whichever occurs first must bear the new revised label. Your release for shipment of the product bearing the amended label constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec 6(e)

If you have any questions about this letter, please contact Dr. Jennifer Urbanski at 703 347 0156 or urbanski.jennifer@epa.gov

Sincerely

 Richard J. Gebken

PC GI 08

Earth options by Raid House & Garden Insect Killer (ABN February 24 2009)

Raid Earth Options House & Garden Insect Killer (ABN July 8 2010)

ACTIVE INGREDIENTS

Pyrethrins 0.02%

Piperonyl butoxide 0.20%

OTHER INGREDIENTS 99.78%

Net Contents

KEEP OUT OF REACH OF CHILDREN

CAUTION

See additional Precautionary Statements on (back)(side)(bottom)(label)

Fast acting

Ready to use

No mixing

No measuring

Water based insect killer formula

Kills German Cockroaches on contact

Use indoors or outdoors

May be used on vegetables up to day of harvest

Contains pyrethrins a botanical insecticide derived from Chrysanthemum flowers

Kills listed flying and crawling pests in the home and garden (home green houses)

Indoors

Outdoors

For use on roses flowers trees shrubs and vines

Use to kill rose and ornamental pests as listed

SC Johnson A Family Company (since 1886)

Fisk Johnson [signature]

PC GI 08 may be used Indoors or outdoors as a contact spray for flying and crawling pests commonly found in and around the home

PC GI 08 contains pyrethrins derived from a Chrysanthemum flower to give fast and effective kill of German Cockroaches on contact

Pyrethrins also will flush hiding German Cockroaches which then allows you to spray them for immediate contact kill

ACCEPTED

JUN 26 2012

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended for the pesticide registered under

EPA Reg No 4822-563

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

USE RESTRICTIONS

Apply this product only as specified on this label For residential use only Do not contaminate food or feedstuffs Shake well before using

(Adjust spray nozzle to give a coarse wet spray)

(Do not spray outdoors in heat of the day)

Do not allow adults children or pets to enter the treated area until sprays have dried or until vapors and mists have dispersed and the area has been thoroughly ventilated Do not apply this product in a way that will contact adults children or pets either directly or through drift Do not remain in treated area Exit area immediately and remain outside the treated area until vapors or mists have dispersed Remove pets birds and cover fish aquariums before spraying Do not wet plants to point of runoff or drip Do not wet articles to point of runoff or drip Do not use treated article until spray has dried Remove or cover exposed food and drinking water before application Remove or cover dishes utensils food processing equipment and food preparation surfaces or wash them before use Application is prohibited directly into sewers or drains or to any area like a gutter where drainage to sewers storm drains water bodies or aquatic habitat can occur Do not allow the product to enter any drain during or after application Do not apply when windy Do not water the treated area to the point of run off For home garden use do not apply more than 10 times per season DO not reapply within 3 days except under extreme pest pressure In case of extreme pest pressure do not reapply within 24 hours For outdoor ornamentals do not apply more than 1 time per day Not for use in outdoor residential misting systems

INDOORS

House Flies and Flying Moths As a room spray to kill these pests close doors and windows and pump spray aiming the nozzle into the upper corners of the room and filling the room with a fine mist Keep room closed for at least 15 minutes and then thoroughly ventilate the treated area before reoccupying Before spraying in kitchen or dining areas cover or remove food and utensils

TO Kill Ants Aphids Armyworms Asparagus Beetles Blister Beetles Cabbage Loopers 12 Spotted Cucumber Beetles Colorado Potato Beetles Corn Earworms Crickets Cross striped cabbageworms Diamondback Moth Larvae Fireworms Flea Beetles Fruit worms Fruit Tree Leafrollers Grape Leafhoppers Gypsy Moths (larvae and adult) Harlequin Bugs Tomato Hornworms Imported Cabbageworms Leafhoppers Leafrollers Leaf-tier Mexican Bean Beetles Potato Leafhoppers Psyllids Stink Bugs Thrips Vinegar Flies and Webworms Water plant thoroughly Turn spray nozzle to the on position and hold spray nozzle about 12 from the plants Spray (lightly) (thoroughly) covering contacting insects on upper and lower leaf surfaces until surfaces are slightly wet Do not wet plants to the point of run off or drip Spray when insects or their damage first appears Do not wait until plants are heavily infested Spray may be applied up to and including day of harvest

STORAGE AND DISPOSAL

Do not contaminate water food or feed by storage or disposal
Pesticide Storage Store in a cool dry preferably locked storage area Store in the original container in an upright position only Store with spray nozzle securely closed Do not store with spray nozzle below level of product in container
Pesticide Disposal and Container Handling If empty Nonrefillable container Do not use or refill this container Offer for recycling if available If partly filled Call your local solid waste agency or 1 800 529 3394 for disposal instructions Never place unused product down any indoor or outdoor drain

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

Harmful if swallowed or absorbed through the skin. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID

IF SWALLOWED Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center, doctor, or going for treatment. For additional information on this product (including health concerns, medical emergencies, or pesticide incidents) you may call 1-800-XXX-XXXX.

ENVIRONMENTAL HAZARDS

This product is toxic to aquatic organisms, including fish and invertebrates. Drift and run-off may be hazardous to aquatic organisms in water adjacent to treated areas. This product may contaminate water through run-off. This product has a potential for run-off for several weeks after application. Poorly draining soils and soils with shallow water tables are more prone to produce run-off that contains this product. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area. To protect the environment, do not allow pesticide to enter or run-off into storm drains, drainage ditches, gutters, or surface waters. Applying this product in calm weather, when rain is not predicted for the next 24 hours, will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. See Directions for Use for additional precautions and restrictions.

PHYSICAL OR CHEMICAL HAZARDS

Do not use this product in or on electrical equipment because of shock hazard.
