AND POLLUTION PREVENTION

February 11, 2014

Ms. Sheila Bugalecki
S.C. Johnson & Son, Inc.
1525 Howe Street
Racine, WI 53403

Dear Ms. Bugalecki:

Subject: label amendment
H6A-US
EPA Registration Number 4822-569
Your email dated February 11, 2014

The application referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable.

A stamped label is enclosed for your records.

If you have any questions regarding this action, please contact Linda A. DeLuise of my team at (703) 305-5428.

Sincerely yours,

A handwritten signature in cursive script that reads "Richard Gebken".

[RESIDENTIAL USE PRODUCT]

H6A-US

Alternate Brand Names:

Raid Flying Insect Killer 7 (September 2, 2010)

Raid Multi Insect Killer 7 (July 2, 2012)

ACTIVE INGREDIENTS:

d-Phenothrin 0.125%

Prallethrin 0.100%

OTHER INGREDIENTS: 99.775%

TOTAL100.000%

This product contains sodium nitrite

Contains petroleum distillates

KEEP OUT OF REACH OF CHILDREN

CAUTION: See additional precautionary statements on back (and complete use instructions) on (back) (inside)

Net Wt.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR USE IN RESIDENTIAL AREAS ONLY

Shake before using. Point spray nozzle away from face and press button, holding container as upright as possible.

GENERAL PRECAUTIONS AND RESTRICTIONS: Do not enter or allow others to enter the treated area until the sprays have dried. Do not allow people or pets to enter treated area until vapors, mists and aerosols have dispersed, and the treated area has been thoroughly ventilated. Wait two (2) hours after application, then open windows, vents and doors for two (2) hours. If an odor is still detected, additional ventilation is required. Remove pets, birds and cover fish aquariums and ornamental fish ponds before spraying, and turn aquarium systems off. Do not use in food areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where food is served, such as dining rooms, but excluding areas where foods may be prepared or held. In the home, cover all food processing surfaces and utensils during treatment or thoroughly wash utensils before use. Cover exposed food and remove utensils in serving areas. Application is prohibited directly to sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

TO KILL FLYING INSECTS:

INDOORS:

FLIES, MOSQUITOES, SMALL FLYING MOTHS, NON-BITING (FUNGUS) GNATS, FRUITFLIES:

[1] (With RAID H6A) there is no need to spray directly at flying insects - the mist in the air will kill them. Close all doors and windows. Spray RAID up into the air with a sweeping motion, keeping about 3 feet (36" (inches)) (1 meter) from interior walls, fabrics and furniture, until the room is thoroughly misted. Do not remain in treated area. Keep room closed for 15 minutes. Ventilate room thoroughly before re-entry.

[2] (With RAID H6A) there is no need to spray directly at flying insects - the mist in the air will kill them. Close all doors and windows. For the average size room (1000 cubic feet) (30 cubic meters) spray in a slow sweeping motion for 8 to 10 seconds starting from the middle of the room and backing toward the door, directing the spray to all areas of the room. Keep spray about 3 feet (36" (inches)) (1 meter) from interior walls, fabrics and furniture. Do not remain in treated area. Keep room closed for 15 minutes. Ventilate room thoroughly before re-entry.

[Either [1] or [2] will be on the product label, not both]

For fast knockdown, spray directly at insects, keeping about 3 feet (36" (inches)) (1 meter) from interior walls, fabrics, and furniture.

FOR RESIDUAL CONTROL OF MOSQUITOES DURING THE NIGHT: Treat the room at the rate of 8-10 seconds of spray per (1000 cubic feet) (30 cubic meters). Close doors and windows, spray in a slight upward direction covering all areas of the room, staying about 3 feet (36" (inches)) (1 meter) from walls, fabrics and furniture. After spraying, close the door as you leave the room. Keep doors and windows closed for about 15 minutes before re-entering. Doors and windows may then be reopened.

In kitchens, be sure to treat areas that may attract these insects such as around windows, sinks and garbage cans. Cover or remove exposed food, utensils and food handling equipment.

For residual control of insects, spray screens and around doors and windows where insects enter the house from a distance of about 18" (inches) (1/2 meter). Also, spray screens and doorways on patios. It is recommended to check for potential staining and damage in an inconspicuous place before complete treatment.

WASPS, HORNETS, YELLOW JACKETS and ASIAN LADY BEETLES: Spray directly at stray insects that enter building.

OUTDOORS:

FLIES, MOSQUITOES, SMALL FLYING MOTHS, ASIAN LADY BEETLES, NON-BITING (FUNGUS) GNATS, FRUITFLIES, BOXELDER BUGS: To reduce annoyance of these insects, spray area when air is calm for best results. If a slight breeze is blowing, spray with the wind, allowing the spray to drift over the area to be treated staying at least 3 feet (36" (inches)) (1 meter) from plants and bushes. Allow a couple of minutes for product to take effect. Give special attention to breeding areas such as garbage cans and compost piles. Treat these areas from a distance of about 18" (inches) (1/2 meter) when possible. When spraying in garages be careful that spray does not contact painted surfaces of vehicles.

TO KILL CRAWLING INSECTS:

INDOORS:

FLEAS: Spray floors, floor coverings and sleeping quarters of pets. Do not treat animals with this product.

ROACHES, WATERBUGS, SILVERFISH, FIREBRATS, CRICKETS: Spray hiding places such as baseboards and floor boards, moist places, cabinets and other storage areas, behind bookcases, and openings around sinks, drains and pipes, hitting as many insects as possible from a distance of about 18" (inches) (1/2 meter). In kitchens, also spray around refrigerators, stoves and storage areas. When spraying by stoves or water heaters, make sure pilot light is first turned off.

4/14

ANTS: Spray trails, hills, around doors, openings around pipes, window frames, and baseboards where ants crawl, hitting as many as possible from a distance of about 18" (inches) (1/2 meter). In kitchens, also spray around refrigerators, stoves and storage areas. When spraying by stoves, make sure pilot light is first turned off.

SPIDERS, SOWBUGS, PILLBUGS: Spray webs and places where these pests crawl from a distance of about 18" (inches) (1/2 meter). These insects tend to hide in dark moist areas. Hit as many as possible.

CARPET BEETLES: Hit these bugs directly with spray on sections of floor, baseboards, shelves and underside of carpets from a distance of about 18" (inches) (1/2 meter).

BEDBUGS: DO NOT APPLY THIS PRODUCT TO MATTRESSES OR BEDDING. Disassemble bed frame and treat all surfaces. Allow to dry completely before reassembling bed. Treat around beds, on and under rugs near bed, and cracks and crevices along baseboards near bed.

OUTDOORS:

FLEAS: Spray kennels, doghouses and places where animals rest, including porches and mats by doors. Do not treat animals with this product. Allow treated surfaces to dry before letting pets reoccupy these areas.

CRICKETS, SOWBUGS, PILLBUGS: Spray around doors, foundations and damp moist places where these insects hide, hitting as many as possible from a distance of about 18" (inches) (1/2 meter).

ANTS: Spray trails, hills, around doors, openings around pipes, and window frames where ants enter and crawl, hitting as many as possible from a distance of about 18" (inches) (1/2 meter).

SPIDERS: Spray webs and places where these pests crawl. Hit as many as possible.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

STORAGE: Store in a cool, dry place away from heat or open flame.

DISPOSAL: Do Not Puncture or Incinerate! If empty: This container may be recycled in the few but growing number of communities where (steel) aerosol can recycling is available. Before offering for recycling, empty the container (can) by using the product according to the label. If recycling is not available, place in trash. If partially filled: Call your local solid waste agency or 800-529-3394 for disposal instructions.

[The steel graphics symbol may be used if label space allows it.]

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

FIRST AID: Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. Note to Physician: Contains petroleum distillate. Vomiting may cause aspiration pneumonia.

PHYSICAL OR CHEMICAL HAZARDS

CONTENTS UNDER PRESSURE. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F (54°C) may cause bursting.

ENVIRONMENTAL HAZARDS:

This product is highly toxic to fish and aquatic invertebrates. Do not apply directly to water. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the area.

(Money Back Guarantee. If you are not satisfied with this product, SC Johnson will refund the purchase price within one year after the date of purchase reflected on an original receipt. Offer limited to 1 refund per household. For more details, contact us at the phone or address below.)

(Contains no CFC's or other ozone depleting substances. Federal Regulations prohibit CFS propellants in aerosols.) [optional graphic]

Peel (remove) (tear) label (sticker) (coupon) (here) before use

Read entire label before use

Apply this product only as specified

Avoid spraying near baits to make sure bugs can bring the bait back to the nest

Visit [website] to identify your bug and best treatment plan

(Additional) Tips (Non-chemical Control Options): [one or more to be chosen from the following list]

Do not leave doors and windows open.

Inspect screens for holes and loose edges that may allow flies and wasps to enter.

Flies breed in decaying matter. Remove these sources in yards and garbage areas before flies start to breed.

Remove food spills and exposed food.

Store food in sealed containers.

Avoid leaving (accumulating) dirty dishes in sinks.

Keep food out of bedrooms and living rooms.

Caulk hiding spots and points of entry from outside or neighboring units.

Raid Defense System (Defense System)

- Attack(s) Bugs*
- Control(s) Bugs[†]
- Prevent(s) Bugs[‡]

Raid Defense System (Raid Guided Support) helps you work smarter, not harder, to fight bugs. Visit raidkillsbugs.com to identify your bug and best treatment plan.

Use this product to:

Attack Bugs

Kill bugs on contact (Kill the bugs you see)

[either [1] or [2] will be on the product label, not both]

[1] * Use (this product) indoors or outdoors to kill flies (mosquitoes) (flies and mosquitoes) (flies, mosquitoes, and other listed bugs) on contact. To kill multiple indoor flying bugs, spray until room is thoroughly misted and mist will kill bugs. To kill just one or two stray wasps or hornets indoors, spray them directly.

[2] * Use (this product) indoors or outdoors to kill ants, roaches, spiders, flies (and other listed bugs) on contact. Avoid spraying near baits to make sure bugs can bring the bait back to where they hide.

Use other Raid products to:

Control Bugs

Kill bugs at the source (Kill the bugs you don't see)

[either [1] or [2] will be on the product label, not both]

[1] [†] For heavy infestations, first use a Raid Fogger or Fumigator product. Read the label to find the right product for your bug problem.

[2] [†] Use a Raid Ant or Roach Bait product to kill bugs where they hide. For heavy infestations, first use a Raid Fogger or Fumigator product and then place baits to provide ongoing control. Read the label to find the right product for your bug problem.

Prevent Bugs

Help keep bugs out (Keep Bugs Out)

[either [1] or [2] will be on the product label, not both]

[1] [‡] Use a Raid Max Bug Barrier product outdoors where flying bugs may land or enter to help keep (to keep) bugs out (of your home). Or, spray this product around window and door frames and any other areas where bugs may rest (such as under eaves, near porches, and around light fixtures, cords, and railings). Do not spray surfaces with more than one pest control product. Read the label to find the right product for your bug problem.

[2] [‡] Use a Raid Max Bug Barrier product to help keep (to keep) ants, roaches, spiders (and other listed bugs) out (of your home).

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

12/14

CAUTION: User safety recommendations. Causes moderate eye irritation. Avoid contact with eyes or clothing. Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing/personal protective equipment (PPE) immediately if pesticide gets inside, then wash thoroughly and put on clean clothing.

Personal Protective Equipment (PPE)

Applicators and other handlers must wear:

- > Long-sleeve shirts and long pants, and
- > Shoes plus socks

User Safety Requirements

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washing exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

FIRST AID: Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person. Note to Physician: Contains petroleum distillate. Vomiting may cause aspiration pneumonia.

PHYSICAL OR CHEMICAL HAZARDS

CONTENTS UNDER PRESSURE. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F (54°C) may cause bursting.

This product is toxic to fish and aquatic invertebrates. Do not apply to water, or to areas where surface water is present, or to inter-tidal areas below the mean high water mark. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the area.

(Money Back Guarantee. If you are not satisfied with this product, SC Johnson will refund the purchase price within one year after the date of purchase reflected on an original receipt. Offer limited to 1 refund per household. For more details, contact us at the phone or address below.)
