AND POLLUTION PREVENTION

October 14, 2016

Heather Klamer
Sr. Associate, Registration Specialist
S.C. Johnson & Son, Inc.
1525 Howe Street
Racine, WI 53403

Subject: Label Amendment – Update re-entry time
Product Name: H6A-US
EPA Registration Number: 4822-569
Application Date: 8-September-2016
Decision Number: 521246

Dear Ms. Klamer:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

Page 2 of 2
EPA Reg. No. 4822-569
Decision No. 521246

with FIFRA section 6. If you have any questions, you may contact Julie Breeden-Alemi, DVM at 703-347-0511 or via email at Breeden-Alemi.Julie@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read 'Kable Bo Davis', enclosed within a hand-drawn oval.

[RESIDENTIAL USE PRODUCT]

H6A-US

Alternate Brand Names:

- Raid Flying Insect Killer 7 (September 2, 2010)
- Raid Multi Insect Killer 7 (July 2, 2012)
- Raid House & Garden Bug Killer 77 (September 12, 2013)
- Raid House & Garden I (September 12, 2013)

ACTIVE INGREDIENTS:

- d-Phenothrin 0.125%
- Prallethrin 0.100%
- OTHER INGREDIENTS: 99.775%
- TOTAL100.000%

This product contains sodium nitrite
Contains petroleum distillates

KEEP OUT OF REACH OF CHILDREN

CAUTION: See First Aid and additional precautionary statements on back (on inside) (panel) (and complete use instructions) on (back) (inside)

Net Wt.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR USE IN RESIDENTIAL AREAS ONLY

Shake before using. Point spray nozzle away from face and press button, holding container as upright as possible.

RESTRICTIONS: Do not enter or allow others to enter the treated area until the sprays have dried. Do not allow people or pets to enter treated area until vapors, mists and aerosols have dispersed, and the treated area has been thoroughly ventilated. Wait two (2) hours after application, then open windows, vents and doors for two (2) hours. If an odor is still detected, additional ventilation is required. Remove pets, birds and cover fish aquariums and ornamental fish ponds before spraying, and turn aquarium systems off. Do not use in food areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where food is served, such as dining rooms, but excluding areas where foods may be prepared or held. In the home, cover all food processing surfaces and utensils during treatment or thoroughly wash utensils before use. Cover exposed food and remove utensils in serving areas. Application is prohibited directly to sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

TO KILL FLYING INSECTS:

INDOORS:

FLIES, MOSQUITOES, SMALL FLYING MOTHS, NON-BITING (FUNGUS) GNATS, FRUITFLIES:

[1] (With RAID H6A) there is no need to spray directly at flying insects - the mist in the air will kill them. Close all doors and windows. Spray RAID up into the air with a sweeping motion, keeping about 3 feet (36" (inches)) (1

meter) from interior walls, fabrics and furniture, until the room is thoroughly misted. Do not remain in treated area. Keep room closed for two (2) hours. Ventilate room thoroughly before re-entry.

[2] (With RAID H6A) there is no need to spray directly at flying insects - the mist in the air will kill them. Close all doors and windows. For the average size room (1000 cubic feet) (30 cubic meters) spray in a slow sweeping motion for 8 to 10 seconds starting from the middle of the room and backing toward the door, directing the spray to all areas of the room. Keep spray about 3 feet (36" (inches)) (1 meter) from interior walls, fabrics and furniture. Do not remain in treated area. Keep room closed for two (2) hours. Ventilate room thoroughly before re-entry.

[Either [1] or [2] will be on the product label, not both]

For fast knockdown, spray directly at insects, keeping about 3 feet (36" (inches)) (1 meter) from interior walls, fabrics, and furniture.

FOR RESIDUAL CONTROL OF MOSQUITOES DURING THE NIGHT: Treat the room at the rate of 8-10 seconds of spray per (1000 cubic feet) (30 cubic meters). Close doors and windows, spray in a slight upward direction covering all areas of the room, staying about 3 feet (36" (inches)) (1 meter) from walls, fabrics and furniture. After spraying, close the door as you leave the room. Keep doors and windows closed for about two (2) hours before re-entering. Doors and windows may then be reopened.

In kitchens, be sure to treat areas that may attract these insects such as around windows, sinks and garbage cans. Cover or remove exposed food, utensils and food handling equipment.

For residual control of insects, spray screens and around doors and windows where insects enter the house from a distance of about 18" (inches) (1/2 meter). Also, spray screens and doorways on patios. It is recommended to check for potential staining and damage in an inconspicuous place before complete treatment.

WASPS, HORNETS, YELLOW JACKETS and ASIAN LADY BEETLES: Spray directly at stray insects that enter building.

OUTDOORS:

FLIES, MOSQUITOES, SMALL FLYING MOTHS, ASIAN LADY BEETLES, NON-BITING (FUNGUS) GNATS, FRUITFLIES, BOXELDER BUGS: To reduce annoyance of these insects, spray area when air is calm for best results. If a slight breeze is blowing, spray with the wind, allowing the spray to drift over the area to be treated staying at least 3 feet (36" (inches)) (1 meter) from plants and bushes. Allow a couple of minutes for product to take effect. Give special attention to breeding areas such as garbage cans and compost piles. Treat these areas from a distance of about 18" (inches) (1/2 meter) when possible. When spraying in garages be careful that spray does not contact painted surfaces of vehicles.

TO KILL CRAWLING INSECTS:

INDOORS:

FLEAS: Spray floors, floor coverings and sleeping quarters of pets. Do not treat animals with this product.

ROACHES, WATERBUGS, SILVERFISH, FIREBRATS, CRICKETS: Spray hiding places such as baseboards and floor boards, moist places, cabinets and other storage areas, behind bookcases, and openings around sinks, drains and pipes, hitting as many insects as possible from a distance of about 18" (inches) (1/2 meter). In kitchens, also spray around refrigerators, stoves and storage areas. When spraying by stoves or water heaters, make sure pilot light is first turned off.

ANTS: Spray trails, hills, around doors, openings around pipes, window frames, and baseboards where ants crawl, hitting as many as possible from a distance of about 18" (inches) (1/2 meter). In kitchens, also spray around refrigerators, stoves and storage areas. When spraying by stoves, make sure pilot light is first turned off.

SPIDERS, SOWBUGS, PILLBUGS: Spray webs and places where these pests crawl from a distance of about 18" (inches) (1/2 meter). These insects tend to hide in dark moist areas. Hit as many as possible.

CARPET BEETLES: Hit these bugs directly with spray on sections of floor, baseboards, shelves and underside of carpets from a distance of about 18" (inches) (1/2 meter).

BEDBUGS: DO NOT APPLY THIS PRODUCT TO MATTRESSES OR BEDDING. Disassemble bed frame and treat all surfaces. Allow to dry completely before reassembling bed. Treat around beds, on and under rugs near bed, and cracks and crevices along baseboards near bed.

OUTDOORS:

FLEAS: Spray kennels, doghouses and places where animals rest, including porches and mats by doors. Do not treat animals with this product. Allow treated surfaces to dry before letting pets reoccupy these areas.

CRICKETS, SOWBUGS, PILLBUGS: Spray around doors, foundations and damp moist places where these insects hide, hitting as many as possible from a distance of about 18" (inches) (1/2 meter).

ANTS: Spray trails, hills, around doors, openings around pipes, and window frames where ants enter and crawl, hitting as many as possible from a distance of about 18" (inches) (1/2 meter).

SPIDERS: Spray webs and places where these pests crawl. Hit as many as possible.

GARDEN BUGS: Product is for use on ornamental garden plants only. It is not for use on edible crops. To kill Aphids, Army Worms, Boxelder Bugs, Caterpillars, Climbing Cutworms, Fruit Flies, Japanese Beetles, Leafhoppers, Phorid Flies, Potato Beetles, Thrips, Webworms and Whiteflies on ornamental garden plants: Salvias, Roses, Gladiolas, Azaleas, Dahlias, Chrysanthemums, Asters, Marigolds, Delphiniums, Petunias, Begonias, Shrubs, Butterfly Plants, Dieffenbachia, Dracaenas, Ferns, Ficus, Palms, Pepperonia, Philodendrons, Piggyback Plants, Pines, Pothos, Spider Plants, Succulents, Evergreens, Fushia, Geraniums, Irises, Wandering Jews, Zinnias, Peonies, Impatiens, Alyssum, African Violets and English Ivy. Spray when air is still and temperature is not above 90°F (32°C). Spray with slow sweeping motion 3 feet (36" (inches)) (1 meter) from all plants. Avoid wetting - a light spray kills pests effectively. Spray in short bursts. Repeat application from time to time as long as insects are present. Use with care on tender foliage, young plants and new growth.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store in a cool, dry place away from heat or open flame.

DISPOSAL: Do Not Puncture or Incinerate! If empty: This container may be recycled in the few but growing number of communities where (steel) aerosol can recycling is available. Before offering for recycling, empty the container (can) by using the product according to the label. If recycling is not available, place in trash. If partially filled: Call your local solid waste agency or 800-529-3394 for disposal instructions.

[The steel graphics symbol may be used if label space allows it.]

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

FIRST AID: Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person.

Note to Physician: Contains petroleum distillate. Vomiting may cause aspiration pneumonia.

PHYSICAL OR CHEMICAL HAZARDS

CONTENTS UNDER PRESSURE. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F (54°C) may cause bursting.

ENVIRONMENTAL HAZARDS:

This product is highly toxic to fish and aquatic invertebrates. Do not apply directly to water. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are foraging the area.

(Money Back Guarantee. If you are not satisfied with this product, SC Johnson will refund the purchase price within one year after the date of purchase reflected on an original receipt. Offer limited to 1 refund per household. For more details, contact us at the phone or address below.)

(Contains no CFC's or other ozone depleting substances. Federal Regulations prohibit CFS propellants in aerosols.) [optional graphic]

Apply this product only as specified

Avoid spraying near baits to make sure bugs can bring the bait back to the nest

Visit raidkillsbugs.com to identify your bug and best treatment plan

(Additional) Tips (Non-chemical Control Options): [one or more to be chosen from the following list]

Do not leave doors and windows open.

Inspect screens for holes and loose edges that may allow (flies)(and) (wasps) (and) (yellow jackets) to enter.

Flies breed in decaying matter. Remove these sources in yards and garbage areas before flies start to breed.

Remove food spills and exposed food.

Store food in sealed containers.

Avoid leaving (accumulating) dirty dishes in sinks.

Keep food out of bedrooms and living rooms.

Caulk hiding spots and points of entry from outside or neighboring units.

Avoid the use of mulch next to the foundation, which provides an ideal place for outdoor ants to nest and to gain entry into the home.

Caulk any points where bugs enter into wall voids, cracks and crevices, including entry points from outside or neighboring units.

Raid Defense System (Defense System)

Attack(s) Bugs*

Control(s) Bugs[†]

Prevent(s) Bugs[‡]

Raid Defense System (Raid Guided Support) helps you work smarter, not harder, to fight bugs. Visit raidkillsbugs.com to identify your bug and best treatment plan.

Use this product to:

Attack Bugs

Kill bugs on contact (Kill the bugs you see)

[either [1] or [2] will be on the product label, not both]

[1] * Use (this product) indoors or outdoors to kill flies (mosquitoes) (flies and mosquitoes) (flies, mosquitoes, and other listed bugs) on contact. To kill multiple indoor flying bugs, spray until room is thoroughly misted and mist will kill bugs. To kill just one or two stray wasps or hornets indoors, spray them directly.

[2] * Use (this product) indoors or outdoors to kill ants, roaches, spiders, flies (and other listed bugs) on contact. (Won't damage house plants or garden plants when used as directed.) Avoid spraying near baits to make sure bugs can bring the bait back to where they hide.

Use other Raid products to:

Control Bugs

Kill bugs at the source (Kill the bugs you don't see)

[either [1] or [2] will be on the product label, not both]

[1] [†] For heavy infestations, first use a Raid Fogger or Fumigator product. Read the label to find the right product for your bug problem.

[2] [†] Use a Raid Ant (Raid Roach) (Raid Ant or Roach) Bait product to kill ants (roaches) (ants or roaches) where they hide. For heavy infestations, first use a Raid Fogger or Fumigator product and then place baits to provide ongoing control. Read the label to find the right product for your bug problem.

Prevent Bugs

Help keep bugs out (Keep Bugs Out)

[either [1] or [2] will be on the product label, not both]

[1] [‡] Use a Raid Max Bug Barrier product outdoors where flying bugs may land or enter to help keep (to keep) bugs out (of your home). Or, spray this product around window and door frames and any other areas where bugs may rest (such as under eaves, near porches, and around light fixtures, cords, and railings). Do not spray surfaces with more than one pest control product. Read the label to find the right product for your bug problem.

[2] [‡] Use a Raid Max Bug Barrier product to help keep (to keep) ants, roaches, spiders (and other listed bugs) out (of your home). Read the label to find the right product for your bug problem.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Shake before using. Point spray nozzle away from face and press button, holding container as upright as possible.

RESTRICTIONS: Do not enter or allow others to enter the treated area until the sprays have dried. Do not enter or allow others to enter until vapors, mists and aerosols have dispersed, and the treated areas have been thoroughly ventilated. Wait two (2) hours after application, and then open windows, vents and doors for two (2) hours. If an odor is still detected, additional ventilation is required.

[The below will be added to the product label only when there are applications to food/feed handling and service areas.]

Do not use in food areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where food is served, such as dining rooms, but excluding areas where foods may be prepared or held. In the home, cover all food processing surfaces and utensils during treatment or thoroughly wash utensils before use. Cover exposed food and remove utensils in serving areas. Application is prohibited directly to sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

Do not apply to classrooms when in use. [Note: To be used on the product label only if a claim for use in schools is used.]

TO KILL FLYING INSECTS:

INDOORS:

FLIES, MOSQUITOES, SMALL FLYING MOTHS, NON-BITING (FUNGUS) GNATS, FRUITFLIES:

[1] (With RAID H6A) there is no need to spray directly at flying insects - the mist in the air will kill them. Close all doors and windows. Spray RAID up into the air with a sweeping motion, keeping about 3 feet (36" (inches)) (1 meter) from interior walls, fabrics and furniture, until the room is thoroughly misted. Do not remain in treated area. Keep room closed for two (2) hours. Ventilate room thoroughly before re-entry.

[2] (With RAID H6A) there is no need to spray directly at flying insects - the mist in the air will kill them. Close all doors and windows. For the average size room (1000 cubic feet) (30 cubic meters) spray in a slow sweeping motion for 8 to 10 seconds starting from the middle of the room and backing toward the door, directing the spray to all areas of the room. Keep spray about 3 feet (36" (inches)) (1 meter) from interior walls, fabrics and furniture. Do not remain in treated area. Keep room closed for two (2) hours. Ventilate room thoroughly before re-entry.

[either [1] or [2] will be on the product label, not both]

For fast knockdown, spray directly at insects, keeping about 3 feet (36" (inches)) (1 meter) from interior walls, fabrics, and furniture.

FOR RESIDUAL CONTROL OF MOSQUITOES DURING THE NIGHT: Treat the room at the rate of 8-10 seconds of spray per (1000 cubic feet) (30 cubic meters). Close doors and windows, spray in a slight upward direction covering all areas of the room, staying about 3 feet (36" (inches)) (1 meter) from walls, fabrics and furniture. After spraying, close the door as you leave the room. Keep doors and windows closed for about two (2) hours before re-entering. Doors and windows may then be reopened.

In kitchens, be sure to treat areas that may attract these insects such as around windows, sinks and garbage cans. Cover or remove exposed food, utensils and food handling equipment.

For residual control of insects, spray screens and around doors and windows where insects enter the house from a distance of about 18" (inches) (1/2 meter). Also, spray screens and doorways on patios. It is recommended to check for potential staining and damage in an inconspicuous place before complete treatment.

WASPS, HORNETS, YELLOW JACKETS and ASIAN LADY BEETLES: Spray directly at stray insects that enter building.

OUTDOORS:

FLIES, MOSQUITOES, SMALL FLYING MOTHS, ASIAN LADY BEETLES, NON-BITING (FUNGUS) GNATS, FRUITFLIES, BOXELDER BUGS: To reduce annoyance of these insects, spray area when air is calm for best results. If a slight breeze is blowing, spray with the wind, allowing the spray to drift over the area to be treated staying at least 3 feet (36" (inches)) (1 meter) from plants and bushes. Allow a couple of minutes for product to take effect. Give special attention to breeding areas such as garbage cans and compost piles. Treat these areas from a distance of about 18" (inches) (1/2 meter) when possible. When spraying in garages be careful that spray does not contact painted surfaces of vehicles.

TO KILL CRAWLING INSECTS:

INDOORS:

FLEAS: Spray floors, floor coverings and sleeping quarters of pets. Do not treat animals with this product.

ROACHES, WATERBUGS, SILVERFISH, FIREBRATS, CRICKETS: Spray hiding places such as baseboards and floor boards, moist places, cabinets and other storage areas, behind bookcases, and openings around sinks, drains and pipes, hitting as many insects as possible from a distance of about 18" (inches) (1/2 meter). In kitchens, also spray around refrigerators, stoves and storage areas. When spraying by stoves or water heaters, make sure pilot light is first turned off.

ANTS: Spray trails, hills, around doors, openings around pipes, window frames, and baseboards where ants crawl, hitting as many as possible from a distance of about 18" (inches) (1/2 meter). In kitchens, also spray around refrigerators, stoves and storage areas. When spraying by stoves, make sure pilot light is first turned off.

SPIDERS, SOWBUGS, PILLBUGS: Spray webs and places where these pests crawl from a distance of about 18" (inches) (1/2 meter). These insects tend to hide in dark moist areas. Hit as many as possible.

CARPET BEETLES: Hit these bugs directly with spray on sections of floor, baseboards, shelves and underside of carpets from a distance of about 18" (inches) (1/2 meter).

BEDBUGS: DO NOT APPLY THIS PRODUCT TO MATTRESSES OR BEDDING. Disassemble bed frame and treat all surfaces. Allow to dry completely before reassembling bed. Treat around beds, on and under rugs near bed, and cracks and crevices along baseboards near bed.

OUTDOORS:

FLEAS: Spray kennels, doghouses and places where animals rest, including porches and mats by doors. Do not treat animals with this product.

CRICKETS, SOWBUGS, PILLBUGS: Spray around doors, foundations and damp moist places where these insects hide, hitting as many as possible from a distance of about 18" (inches) (1/2 meter).

ANTS: Spray trails, hills, around doors, openings around pipes, and window frames where ants enter and crawl, hitting as many as possible from a distance of about 18" (inches) (1/2 meter).

SPIDERS: Spray webs and places where these pests crawl. Hit as many as possible.

GARDEN BUGS: Product is for use on ornamental garden plants only. It is not for use on edible crops. To kill Aphids, Army Worms, Boxelder Bugs, Caterpillars, Climbing Cutworms, Fruit Flies, Japanese Beetles, Leafhoppers, Phorid Flies, Potato Beetles, Thrips, Webworms and Whiteflies on ornamental garden plants: Salvias, Roses, Gladiolas, Azaleas, Dahlias, Chrysanthemums, Asters, Marigolds, Delphiniums, Petunias, Begonias, Shrubs, Butterfly Plants, Dieffenbachia, Dracaenas, Ferns, Ficus, Palms, Pepperonia, Philodendrons, Piggyback Plants, Pines, Pothos, Spider Plants, Succulents, Evergreens, Fushia, Geraniums, Irises, Wandering Jews, Zinnias, Peonies, Impatiens, Alyssum, African Violets and English Ivy. Spray when air is still and temperature is not above 90°F (32°C). Spray with slow sweeping motion 3 feet (36" (inches)) (1 meter) from all plants. Avoid wetting - a light spray kills pests effectively. Spray in short

bursts. Repeat application from time to time as long as insects are present. Use with care on tender foliage, young plants and new growth.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store in a cool, dry place away from heat or open flame.

DISPOSAL: Do Not Puncture or Incinerate! If empty: This container may be recycled in the few but growing number of communities where (steel) aerosol can recycling is available. Before offering for recycling, empty the container (can) by using the product according to the label. If recycling is not available, place in trash. If partially filled: Call your local solid waste agency or 800-529-3394 for disposal instructions.

[The steel graphics symbol may be used if label space allows it.]

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: User safety recommendations. Causes moderate eye irritation. Avoid contact with eyes or clothing. Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing/personal protective equipment (PPE) immediately if pesticide gets inside, then wash thoroughly and put on clean clothing.

Personal Protective Equipment (PPE)

Applicators and other handlers must wear:

- > Long-sleeve shirts and long pants, and
- > Shoes plus socks

User Safety Requirements

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washing exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

FIRST AID: Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give **any** liquid to the person. Do not give anything by mouth to an unconscious person.

Note to Physician: Contains petroleum distillate. Vomiting may cause aspiration pneumonia.

PHYSICAL OR CHEMICAL HAZARDS

CONTENTS UNDER PRESSURE. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F (54°C) may cause bursting.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic invertebrates. Do not apply to water, or to areas where surface water is present, or to inter-tidal areas below the mean high water mark. This product is highly toxic to

bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are foraging the area.
