Subject: Label Amendment - Registration Review Mitigation for cyfluthrin and prallethrin
Product Name: KJM
EPA Registration Number: 4822-574
Application Dates: February 17, 2021
Decision Numbers: 571412, 594670

Dear Heather Klamer:

The Agency, in accordance with the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, has completed reviewing all the information submitted with your application to support the Registration Review of the above referenced product in connection with the cyfluthrin and prallethrin Interim Decisions, and has concluded that your submission is acceptable. The label referred to above, submitted in connection with registration under FIFRA, as amended, is acceptable.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously

approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

If you have any questions about this letter, please contact Concepción Rodríguez by phone at 202-530-0820 or via email at concepcion.rodriguez@epa.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "Linda Arrington", with a long horizontal flourish extending to the right.

Linda Arrington, Branch Chief
Risk Management and Implementation Branch 4
Pesticide Re-Evaluation Division
Office of Pesticide Programs

ACTIVE INGREDIENTS

Prallethrin..... 0.04%

Cyfluthrin..... 0.03%

OTHER INGREDIENTS..... 99.93%

Contains sodium nitrite

For Outdoor use only

KEEP OUT OF REACH OF CHILDREN

CAUTION

See additional precautionary statements on back

NET WT.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE BEFORE USING

All outdoor spray applications must be limited to spot treatments only, except for the following permitted uses:

1. Application to pervious surfaces such as soil, lawn, turf, and other vegetation.
2. Perimeter band treatments of 7 feet wide or less from the base of a man-made structure to pervious surfaces (e.g., soil, mulch, or lawn);
3. Applications to vertical surfaces (such as the side of a man-made structure) directly above impervious surfaces (e.g., driveways, sidewalks, etc.), up to 2 feet above ground level;
4. Applications to vertical surfaces directly above pervious surfaces, such as soil, lawn, turf, mulch or other vegetation) only if the pervious surface does not drain into ditches, storm drains, gutters, or surface waters.

Spot treatments must not exceed two square feet in size (for example, 2 ft. by 1 ft. or 4 ft. by 0.5 ft.).

For soil or foliar applications, do not apply by ground within 25 feet of lakes, reservoirs, rivers, permanent streams, marshes or natural ponds, estuaries and commercial fish farm ponds.

Do not spray the product into fish pools, ponds, streams, or lakes. Do not apply directly to sewers or storm drains, or to any area like a drain or gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application. Do not apply directly to impervious horizontal surfaces such as sidewalks, driveways, and patios except as a spot treatment. Do not apply or irrigate after application to the point of runoff.

Do not make applications during rain. Avoid making applications when rainfall is expected before the product has sufficient time to dry (minimum 4 hours). Rainfall within 24 hours after application may cause unintended runoff of pesticide application.

Do not apply when the wind speed is greater than 15 mph.

Do not apply directly to food or to food serving or food preparation surfaces. Do not apply to pets or to your skin or clothing. Do not allow children or pets to contact treated surfaces until spray has dried. Do not spray indoors.

For flying insects: Flies, mosquitoes, non-biting gnats, small flying moths, wasps, hornets and multi-colored asian lady beetles.

Hold can on a slight downward angle. Point nozzle away from face, other people and animals. Spray toward area being treated. Allow spray to drift over area and settle. From 4 to 6 feet away, spray articles and vegetation in the area including plant leaves and foliage, furniture (except seating and table top surfaces), tents, outdoor screening, deck railings, campers, and other surfaces that pests may contact or rest upon. For best results, spray when air is calm. IF BREEZY, spray with the wind. IF NOT BREEZY, spray out from center of area being treated. Give special attention to breeding areas such as garbage cans and compost piles.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place away from heat, sparks and open flame.

DISPOSAL: Do Not Puncture or Incinerate! If empty: This container may be recycled in the few but growing number of communities where (steel) aerosol can recycling is available. Before offering for recycling, empty the container (can) by using the product according to the label. If recycling is not available, place in trash. If partially filled: Do not pour or dispose down-the-drain or sewer. Call your local solid waste agency or 800-529-3394 for disposal instructions.

[The steel graphics symbol will be used if label space allows it.]

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic invertebrates. Do not apply directly to water. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas.

PHYSICAL OR CHEMICAL HAZARDS

Flammable. Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F may cause bursting.

(Contains no CFCs or other ozone depleting substances. Federal Regulations prohibit CFC propellants in aerosols.) [optional graphic]

(Additional) Tips (Non-chemical Control Options): [one or more to be chosen from the following list]

Do not leave doors and windows open.

Inspect screens for holes and loose edges that may allow flies and wasps to enter.

Flies breed in decaying matter. Remove these sources in yards and garbage areas before flies start to breed.

Caulk hiding spots and points of entry from outside or neighboring units.

To prevent mosquito breeding remove standing water from your yard.

Raid Defense System (Defense System)

- Attack(s) Bugs*
- Control(s) Bugs†
- Prevent(s) Bugs‡

Raid Defense System (Raid Guided Support) helps you work smarter, not harder, to fight bugs. Visit raidkillsbugs.com to identify your bug and best treatment plan.

Use this product to:

- Control Bugs
- Kill bugs at the source (Kill the bugs you don't see)

† Use this product to kill (Use to kill) flies (mosquitoes) (flies and mosquitoes) (flies, mosquitoes and other listed bugs) (keeping bugs away) for up to 6 hours.

Use other Raid products to:

- Attack Bugs
- Kill bugs on contact (Kill the bugs you see)

* Use a Raid Flying Insect Killer product to kill flies (mosquitoes) (flies and mosquitoes) (flies, mosquitoes, and other listed bugs) on contact. Read the label to find the right product for your bug problem.

- Prevent Bugs
- Help keep bugs out (Keep Bugs Out)

‡ Use a Raid (Max) (Bug Barrier) (Perimeter Protection) (other sub-brand name for EPA Reg. No. 4822-561) product outdoors where flying bugs may land or enter to help keep (to keep) bugs out (of your home). Or, spray this product around window and door frames and any other areas where bugs may rest (such as under eaves, near porches, and around light fixtures, cords, and railings). Do not spray surfaces with more than one pest control product. Read the label to find the right product for your bug problem.
