U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
 Registration Division (7504P)
 1200 Pennsylvania Ave., N.W.
 Washington, D.C. 20460-0001

EPA Reg. Number:

4822-598

Date of Issuance:

JUN 4 2013

NOTICE OF PESTICIDE:

Registration
 Reregistration
 (under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

Peduncle KMP

Name and Address of Registrant (include ZIP Code):

S.C. Johnson & Son, Inc.
 1525 Howe Street
 Racine, WI 53403-2236

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with section 3(c)(5) of FIFRA provided that you:

1. Submit and/or cite all data required for registration of your product under section 3(c)(5) of FIFRA when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under section 4 of FIFRA.

(continued on page 2)

Signature of Approving Official:

Refer to Page #3.

Richard J. Gebken, Product Manager (10)
 Insecticide Branch, Registration Division (7504P)

Date:

JUN 4 2013

EPA Form 8570-6

2. Make the following change(s) to the subject label:

- a. Change the product registration number to "EPA Reg. No. 4822-598"
- b. Make the following label revisions:

General Statement(s):

- 1. Delete all text throughout the label marked with "~~striketrough~~."

Directions for Use, USE RESTRICTIONS subsection comment(s):

- 2. To facilitate inclusion of required label language for the proposed product, and to maintain consistency with the comparison product (EPA Reg. no. 1012-1779) within this "Me-Too" product registration, you must delete the text that has been marked with "~~striketrough~~" within this subsection and re-insert the following text as a new bulleted use restriction immediately following the existing 4th bulleted use restriction to read "Application of this product is prohibited directly into sewers or drains, or to any area like a gutter where drainage to storm sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow this product to enter any drain during or after application."

Precautionary Statements, Hazards to Humans and Domestic Animals section comment(s):

- 3. To facilitate inclusion of language from the acute toxicity review completed for the proposed product, and to maintain consistency with the comparison product (EPA Reg. no. 1012-1779) within this "Me-Too" product registration, you must revise this section to read as follows:

"Harmful if swallowed or absorbed through the skin. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, and before using the toilet. Remove and wash contaminated clothing before reuse. Wear long-sleeved shirt and long pants, socks, shoes, and chemical-resistant gloves (made of any waterproof material, Selection Category A). Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals."

USER SAFETY RECOMMENDATIONS

Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

Precautionary Statements, Environmental Hazards subsection comment(s):

- 4. In order to maintain consistency with the comparison product (EPA Reg. no. 1012-1779) within this "Me-Too" product registration, you must make the following changes:
 - Within the 1st sentence of paragraph #1 within this subsection, you must insert the word "extremely" immediately preceding the word "toxic."
 - Insert the following text as a new 2nd paragraph within this subsection to read "Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA."
- 3. You must submit two (2) copies of the revised final printed labeling, incorporating the above changes, before releasing the product for shipment. If these conditions are not complied with, the registration will be subject to cancellation in accordance with section 6(e) of FIFRA. Your release for shipment of the product bearing amended labeling constitutes accepting of these conditions.

3/8

Should S.C. Johnson & Son, Inc. wish to add/retain a reference to the company's website on your label, please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under section 12(a)(1)(E) of FIFRA. 40 CFR §156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not be substantially differ from those claims approved through the registration process. Therefore, should the Agency find, or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to EPA's Office of Enforcement and Compliance Assurance (OECA). As an alternative, S.C. Johnson & Son, Inc. may refer consumers to the company's phone number or e-mail address.

Copies of your label stamped "Accepted with Comments" as well as the acute toxicology and product chemistry reviews completed for this new product are enclosed for your records. If you have any questions about this label review, please contact Mr. Carmen J. Rodia, Jr. at (703) 306-0327 or via e-mail at Rodia.Carmen@epa.gov.

Sincerely yours,

Richard J. Gebken
Product Manager (10)
Insecticide Branch
Registration Division (7504P)

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling

USE RESTRICTIONS

- Apply this product only as specified on this label.
- Do not contaminate food, food handling surfaces, or feedstuffs.
- Do not use this product directly on domestic (companion) animals (dogs, cats, puppies, or kittens).
- Do not allow adults, children, or pets to enter the treated area until sprays have dried.

[To be used only when product has Outdoor uses on the label]

- AVOID applying this product on desirable/young ornamental landscape plant materials.
- Do not water the treated area to the point of run-off or drip.
- Do not make applications during rain.
- Do not apply directly to impervious horizontal surfaces such as sidewalks, driveways, and patios except as a spot or crack and crevice treatment. During application, do not allow pesticide to enter or run-off into storm drains, drainage ditches, gutters or surface waters.
- All outdoor applications, if permitted elsewhere on this label, must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses, if allowed elsewhere on this label: (1) Applications to soil or vegetation, as listed on this label, around structures; (2) Applications to lawns, turf, and other vegetation, as listed on this label; (3) Applications to the side of a building, up to a maximum height of 3 feet above grade; (4) Applications to underside of eaves, soffits, doors, or windows permanently protected from rainfall by a covering, overhang, awning, or other structure; (5) Applications around potential pest entry points into buildings, when limited to a surface band not to exceed one inch in width; and/or (6) Applications made through the use of a coarse, low pressure spray to only those portions of surfaces that are directly above bare soil, lawn, turf, mulch or other vegetation, as listed on this label, and not over an impervious surface, drainage or other condition that could result in runoff into storm drains, drainage ditches, gutters, or surface waters, in order to control occasional invaders or aggregating pests present at the time of application.
- Application of this product is prohibited directly into sewers or drains, or to any area like a gutter where drainage to storm sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow this product to enter any drain during or after application.

Use Information: Read the entire label before use. Test in an inconspicuous area before applying. Do not spray into the air. Dogs and cats and their kennel or bedding area should also be treated with a registered flea control product in conjunction with application.

Shake well. (Turn)(Move)(Set) the (Reusable) (Auto) Trigger to the (on) (unlock(ed)) ([icon]) (position). Return to (off) (lock(ed))([icon]) position after use. Hold container upright and spray away from face, (one to two)(two to three)(one to four)(two to three)(two to four)(three to four) feet from the surface (being treated). Squeeze trigger and spray until surface is moist but not dripping. Over application may cause damage. Repeat spraying as necessary, but no more than once per week. (Keep the Reusable Auto Trigger for use on compatible refills.)

[Alternate assembly instructions for use on products that require assembly of sprayer:]

Shake well. (Remove cap and trigger (holster) ((hanger)). (Remove cap and bag containing trigger and hose.) Open package (containing trigger (and) hose (and) (flexible) (dip tube); discard packaging material. (Remove band holding trigger to holster.) (Place (holster) (hanger) back on bottle for future trigger storage.) Uncoil hose, (drop (weighted) (flexible) dip tube into container and tighten (closure) (cap)) (and insert plug into spout on cap until it clicks. Flip up spout.) (Set) (turn) (move) the (reusable auto) trigger to the (on) (unlock(ed)) ([icon]) (position) to begin application. After use, (Set) (turn) (move) the (reusable auto) trigger to the (off) (lock(ed)) ([icon]) (position) (and hang (place) upside down on the (holster) (hanger) for storage). (Keep the (reusable auto) trigger, hose, dip tube and hanger (holster) for use on compatible refills.)

INDOORS:

((Turn) (Move) (Set) (Rotate) the trigger (nozzle) to the (indoor) (stream) (tight) ([icon]) setting.

To Kill: Asian Lady beetles, Boxelder Bugs, Brown Marmorated Stink Bugs (BMSB), Clover Mites, Cockroaches, Crickets, Earwigs, Firebrats, ~~Millipedes~~, Palmetto Bugs, ~~Psocids~~, ~~Sowbugs~~, Silverfish, Stink Bugs, Spiders and Water Bugs: Spray area where these bugs are found or normally occur including dark corners of rooms and closets, window sills and frames, cracks and crevices in walls, along and behind baseboards, beneath and behind sinks, stoves, refrigerators, and cabinets, and around plumbing and other utility installations.

To Kill: Ants: Apply to ant trails, around doors and windows, and wherever else ants may find entrance.

To Kill Carpet Beetles: Thoroughly spray along baseboards and edges of carpeting, under carpeting, rugs and furniture, in closets, on shelving, and wherever else insects are seen or suspected. Note: Check carpet manufacturer's warranty and care and maintenance information before using product on your specific brand of carpeting.

To Kill Fleas and Brown Dog Ticks: Thoroughly spray pet beds and resting quarters and nearby cracks and crevices, along and behind baseboards, window and door frames, and localized areas of floors and floor coverings where fleas and ticks may be present. Pet bedding should be replaced with clean fresh bedding after treating the area. *Do not treat pets with this product.* To control the source of flea infestations, treat pets with a product registered for application to animals.

To Kill Bedbugs: Thoroughly inspect area of suspected bed bug infestation and note potential harborage sites or actual infestations. Remove and/or pick up clothing and other obstacles that may prevent thorough inspection or treatment. Remove and sanitize infested bedding (pillows and linens), clothing, or other items. Apply on mattresses as a spot treatment to mattress seams, edges, buttons, and tufts of bed only. Do not use directly on pillows, bed linens, or clothes. Do not saturate the mattress and do not treat entire surface area of mattress. Allow mattress to dry thoroughly before replacing pillow and/or bed linens.

Bed Bugs may also harbor in areas of the room away from the bed. Apply as a crack-and-crevice or spot application where evidence of bed bugs occurs. This includes bed frames, box springs, inside empty drawers and clothes closets, night stands and other furniture in the room, carpet edges, high and low wall moldings (such as floor molding or window casings), wall voids, behind wall hangings and mirrors, wall paper edges and popcorn ceilings. Remove all clothes and other articles from dressers or closets before application. Allow all treated areas to dry thoroughly before use.

[Notes to Reviewer]
(Optional Language)

The key to solving a bed bug problem is early detection. Be watchful for signs of an infestation like skin bites or small spots of blood on sheets or pillowcases. After mattress treatment, purchase a high quality mattress encasement so the mattress doesn't need to be retreated. Before treatment, wash linens, bed covers and curtains using hot water; dry items using the high heat setting. Store treated or uninfested items in sealed plastic bags to avoid a future infestation. Clean and vacuum well before treatment to remove as many bugs as possible. Stay vigilant; repeat applications may be needed over the next 2 months.

To Kill Carpenter Ants: Apply around doors, door frames, windows, and other areas where Carpenter Ants enter the premises or hide. Spray into cracks and crevices, through openings, or into small newly drilled holes into wall voids where these ants or their nests are present.

To Kill the Accessible Stages of Granary Insects: Rice Weevils, Confused Flour Beetles, Rust Red Flour Beetles, Saw-toothed Grain Beetles, Cadelles, Meal Moth Larvae and Adults, Cigarette Beetles, Drugstore Beetles, and Granary Weevils: Apply to surfaces where these pests are normally found, such as floors and baseboards and around walls. Pay particular attention to cracks, crevices, and similar protected locations in floors and walls.

OUTDOORS:

((Turn)(Move)(Set)(Rotate) trigger (nozzle) to the (outdoor) (wide) (fan) (icon) setting))

To Kill Cockroaches: Apply to outside surfaces of buildings, porches, patios, garages and other areas where these pests are seen or found.

To Kill Flies and Mosquitoes: For outdoor use only as an aid in controlling these insects. Spray outside surfaces of screens, doors, window frames, or wherever insects may enter the room. Also spray surfaces around light fixtures, on porches, in garages and other places where insects alight or congregate. Repeat as needed.

To Kill Ants, Asian Lady Beetles, Brown Marmorated Stink Bugs (BMSB), Ticks (including ticks which transmit Lyme disease, Crickets, Fleas, Stink Bugs, and Earwigs: For treatment of infestation of these insects in areas where there are weeds or bushy non-crop areas, thoroughly spray infested areas. When treating for ticks, pay special attention to areas frequented by pets. For ants, thoroughly wet hills and runways.

Building Perimeter Treatment: To help prevent infestations of buildings by ants, Asian lady beetles, Boxelder bugs, Brown Marmorated Stink Bugs (BMSB), crickets, spiders, Mink bugs and sowbugs (pillbugs), treat a 12 - 18 inch band of soil or other substrate adjacent to buildings and the building foundation up to a maximum height of 3 feet above grade.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, and before using the toilet. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

FIRST AID

7/8

[Notes to Reviewer]
(Optional Language)

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING:

Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

PHYSICAL OR CHEMICAL HAZARDS

Do not use this product in or on electrical equipment due to the possibility of shock hazard.

ENVIRONMENTAL HAZARDS

This product is toxic to aquatic organisms, including fish and invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters.

Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Keep this product in its tightly closed original container when not in use. Store in a cool, dry (preferably locked) place in an area that is inaccessible to children and animals.

Pesticide Disposal: Reusable Auto Trigger: Do not discard. Save the trigger for use on [Peduncle KMP] refills of equal size. Container Disposal: Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-529-3394 for disposal instructions. Never place unused product down any indoor or outdoor drain.
