WASHINGTON, D.C. 20460

January 16, 2025

S.C. Johnson & Son  
Joshua Hunnicutt  
1525 Howe Street  
MS HP2N1 Racine, WI 53403

Subject: Label Amendment – Updating label for ID changes and other minor edits  
Product Name: Sonny SRB  
EPA Registration Number: 4822-604  
Application Date: 3/25/2021  
Case Number: 626560

Dear Josh Hunnicutt:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find

or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions, please contact me at 202-566-2830 or [Metzger.autumn@epa.gov](mailto:Metzger.autumn@epa.gov).

Sincerely,

Hester Dingle, Acting Product Manager 4  
Invertebrate & Vertebrate Branch 1

### KEEP OUT OF REACH OF CHILDREN AND PETS

CAUTION: See (basic) (inside) (panel for) additional precautionary statements (and complete use instructions) on back

Net (Wt.) Contents: 2-40 oz.

### DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

### USER RESTRICTIONS:

This product is for indoor residential use only. This product is not for use on humans. If lice infestation should occur on humans, use a product labeled for use on humans. Do not apply this product in a manner that will contact adults, children, or pets, either directly or through drift. Remove or cover exposed food and drinking water before application. Remove pets, birds, cover fish aquariums, and turn aquarium systems off before spraying. Do not allow adults, children, or pets to enter the treated area until sprays have dried. Do not use treated article until spray has dried. Do not apply more than one (1) time per day.

Do not allow to enter indoor or outdoor drains. No permita la entrada a desagües internos o externos. Follow proper disposal procedures on this label. Siga las indicaciones del etiquetado para el desecho apropiado del producto.

{Graphic on the product package showing an image of a diagonal strikethrough over a drain. The pictogram must be legible [i.e. no smaller than 1.5 square centimeters or 0.25 square inches unless this size is greater than 10% of the size of the label].}

SHAKE WELL BEFORE EACH USE. Hold container upright. Do not spray into air. Apply to surfaces only. Use in well ventilated areas. Spray an inconspicuous area first to test for possible staining. Hold can about 8 to 10" from surface being sprayed. Point spray opening toward surface and press button firmly. Spray each square foot for about 5 seconds, or until surfaces are damp. Avoid excessive wetting. Do not wet surfaces or articles to the point of runoff or drip. Vacate room after treatment and ventilate before reoccupying. Wait for surfaces to dry and wash articles or bedding before use.

TO KILL BED BUGS: Spray mattress and box spring seams, edges and tufts as a spot treatment where bed bugs hide. Hit as many bugs as possible. Spray into cracks and crevices of the headboard, bed frame, surrounding baseboards, flooring, wall hangings, dressers and furniture. Apply as surface spray to larger areas like bottoms of mattresses and box springs, carpets around beds, floor and floor coverings, under and in furniture, luggage, garments closets and drapes. Spray each square foot for about 13 seconds or until these surfaces are damp. Thoroughly clean, vacuum and air-out mattresses and box springs.

TO KILL FLEAS AND TICKS: Spray areas where dogs and cats sleep and around baseboards, windows, door frames, wall cracks and floors. Spray around beds, furniture and dogs' and cats' habitat. Spray sleeping areas, bedding, floor and floor coverings where dogs and cats are kept. This product is not for use on pets.

TO KILL LICE: Spray, only those garments, parts of bedding, including mattresses and furniture that cannot be either laundered or dry-cleaned. This product is not for use on humans. If lice infestation should occur on humans, use a product labeled for use on humans.

TO KILL DUST MITES: Thoroughly vacuum entire room concentrating on areas where dust mites congregate such as mattresses, box springs, headboards, walls, floors, carpeting and baseboards. Spray surfaces until damp.

TO KILL CLOTHES MOTHS AND CARPET BEETLES: Apply as a spot treatment to cracks and crevices around baseboards, floorboards, furniture and the edges of carpet. Apply as a surface spray to carpets, rugs, closets, baseboards, furniture, floors and floor coverings. For carpets and rugs, get the spray down into the base where the larvae are feeding. Spray upper and lower surfaces where possible.

## **STORAGE AND DISPOSAL**

**PESTICIDE STORAGE:** Protect from freezing. Always store this product in the original container away from heat or open flame. Store in a cool, dry [preferably locked] place that is inaccessible to children and animals.

**PESTICIDE DISPOSAL & CONTAINER HANDLING:** Do Not Puncture or Incinerate! If empty: This (steel) (aluminum) (aerosol) (container) (can) may be recycled. Before offering for recycling, empty the (container)(can) by using the product according to the label. If recycling is not available, place in trash. If partially filled: Do not pour or dispose down-the-drain or sewer. Call your local solid waste agency for local disposal options. Call your local solid waste agency or 1-800-529-3394 for disposal instructions. Never place unused product down any indoor or outdoor drain.

## **PRECAUTIONARY STATEMENTS:**

### **HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, and before using

the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID:

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. For additional information on this product including health concerns, medical emergencies or pesticide incidents, you may call 1-800-558-5252.

PHYSICAL OR CHEMICAL HAZARDS:

FLAMMABLE. CONTENTS UNDER PRESSURE. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not apply this product around electrical equipment due to the possibility of shock hazard.

[Additional] Tips [Non-chemical Control Options] [for Beg bugs]:

- ° Early detection is critical to solving bed bug problems.
- ° Signs of an infestation could include skin bites or welts, or small spots of blood on sheets, pillow cases, or mattress.
- ° Look for [bed] bugs in tufts and seams of mattresses, behind the headboard and in cracks and crevices of the bed frame.
- ° If you see signs of [bed] bugs, wash linens, blankets and bed covers in hot water. Dry using the high heat setting.
- ° Wash all clothing that you suspect is infested. Dry using high heat setting. Put these items in a plastic bag to keep then keep them from becoming re-infested.
- ° Vacuum carpet around the bed and any furniture suspected to be infested. Remove as many [bed] bugs and

eggs as possible.

- Vacuum cracks and crevices where [bed] bugs may be hiding.
- After treating thoroughly, continue to monitor areas for signs of more [bed] bugs.
- Repeat applications may be needed over the next 2 months.

[Additional] Tips [Non-chemical Control Options] [for Fleas]:

- Before room treatment, wash dog and/or cat bedding to remove existing fleas, eggs and larvae.
- Shampoo pets regularly with an EPA-approved flea shampoo.
- Vacuum carpets and upholstery to remove eggs and larvae. Pay particular attention to areas where pets rest or sleep.
- Be sure to empty the vacuum bag and dispose of properly so those eggs and larvae do not re-infest the room.

Raid Defense System (Defense System)

Attack[s] bugs\*

Raid Defense System (Raid Guided Support) helps you work smarter, not harder, to fight bugs. Visit [website chosen from those listed] to identify your bug and best treatment plan.
