(A. O. A. C. Test Method)

Use Dilution Confirmation S. Choleraesuis 1:100.

For Use in Hotels, Motels, Schools, Office Buildings
and Industrial Plants.

ACTIVE INGREDIENTS:

Pine Oil	80%
Soap	10%

INERT INGREDIENTS:

Water	10%
Total	100%

Meets Commercial Standard CS69-38 of the National Bureau of Standards of the United States Department of Commerce.

DIRECTIONS

Remove all loose dirt before beginning a disinfecting job. To disinfect hard surfaces in rest rooms, exterior bowl surfaces and urinals put one part of PINE OIL DISINFECTANT into a pail, then dilute with 100 parts of water. Stir the milky solution before using. To deodorize garbage cans clean thoroughly with soapy water and follow with thorough cleaning with the milky PINE OIL DISINFECTANT solution. For scrubbing floors use 4 ounces of PINE OIL DISINFECTANT to 3 gallons of water. Scrub thoroughly, then rinse with water.

CAUTION — KEEP OUT OF REACH OF CHILDREN

Harmful If Swallowed. Do Not Get In Eyes

Concentrate may cause skin irritation.

If swallowed, do not induce vomiting. Vomiting may be harmful. In case of contact, flush eyes with plenty of water for at least 15 minutes. Get Medical Attention.

ANTIDOTE — Give white of raw eggs, milk, rice, gruel, or corn starch paste. Call a Physician Immediately.

Rinse empty container thoroughly with water and discard.
