**DIRECTIONS FOR USE  
 OF INSECT SPRAY**

*For Use as a Plant Spray, Indoors and Out*

This product will kill leafhoppers, Aphids, Whiteflies, Thrips, Plant Bug, Spider Mites, Flea Beetle, and Flea Beetle on Chrysanthemum, Dahlias, Rose, Sweet Pea, Tomato, Potato, Squash, Cabbages, Asparagus.

Also Kill: Ager beetle on Asters, Imported Cabbag Worm on Cabbages, Mites on Evergreens, Whiteflies and Mealy Bugs on African Violets.

For best results, spray in evening or on a cloudy day when air is still. Contact as many insects directly as possible. Spraying should begin when insects first appear and should be repeated as needed.

**CAUTION**

**KEEP OUT OF REACH OF CHILDREN**

Do not apply this spray to any edible food crop within 24 hours of harvest. Wash fruits and vegetables before eating. Avoid using in hot, bright sunshine. Cover or remove fish bowls for one hour.

When using this spray indoors, do not remain in treated areas. Ventilate the area after treatment is complete.

Apply this product only as directed on this label.

**WARNING:** Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130 F may cause bursting. Never throw container into fire or incinerator.

# RESTORE

Natural earth formula.

Restore™ is 100% organic powder which may be dissolved in water and applied to house plants with regular watering to encourage rich soil and strong, natural growth.

When used with newly-potted plants, Restore™ maintains a natural organic balance in the soil to prevent compacting, mineral build-up or premature root binding.

Applied as directed to established potted plants, Restore™ regenerates soil to a loose, sweet condition. This enables plants to obtain moisture and nutrition naturally from fresh, rejuvenated soil.

## RESTORE

Natural earth formula.

For potted plants

RINGER NET WEIGHT

Containerized plants require special soil care to prevent compacting and unnatural chemical or mineral build-up. Restore™ is developed to prevent common soil depletion symptoms of hardening, pulling away from pot edges and calcium accumulation.

Complete instructions for use on each container.

African Violet Restore™ may be used on all potted plants.

See label on insect spray container for additional cautions and warnings. (Inside box)

## DIRECTIONS FOR USE

Shake Well Before Using. Always Hold Can Upright While Spraying.

*For Use as a Plant Spray both Indoors and Out*

This product will kill Leathoppers, Aphids, Whiteflies, Tarnished Plant Bug, Spider Mites, Flea Beetle, and Rose Chafer on chrysanthemum, Dahlia, Rose, Sweet Pea, Tomato, Potato, Squash, Cabbage, Aster, Snapdragons.

Also Kills Aster Beetle on Asters, Imported Cabbage Worm on Cabbage, Mites on Evergreens, Whiteflies and Mealy Bugs on African Violets.

For best results, spray in evening or on a cloudy day when air is still. Use slow, sweeping motion holding the dispenser approximately one foot from the foliage. Spray upper and lower leaf surface. Contact as many insects directly as possible. Spraying should begin when insects first appear and should be repeated as needed.

## CAUTION

### KEEP OUT OF REACH OF CHILDREN

Do not apply this spray to any edible food crop within 24 hours of harvest. Wash fruits and vegetables before eating.

Avoid using in hot, bright sunshine.

Cover or remove fish bowls for one hour.

When using this spray indoors, do not remain in treated areas. Ventilate the area after treatment is completed.

Apply this product only as specified on this label.

**WARNING:** Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 150°F may cause bursting. Never throw container into fire or incinerator.
