# SUPER DISIT

Super Disit is truly all that the word SUPER implies. It is a combination Cleaner, Disinfectant, Deodorizer and Sanitizer. Most odors are eliminated during the same period of time Super Disit is used to clean applicable surfaces.

A top notch floor cleaner. The disinfecting action of this product makes it an exceptional agent for controlling the incidence of bacteria.

Super Disit may be used on the following types of surfaces: Rubber Tile, Asphalt Tile, Vinyl Tile, Linoleum, and most other types of composition surfaces. This product may also be used on Terrazzo, Marble, Flagstone, Magnesite, finished or unfinished cement and concrete, vitreous or non vitreous bathroom fixtures, gymnasium and other types of unfinished and finished wooden floors.

Excellent results are obtained when applied properly to walls, furniture of all types, woodwork, rugs, glass such as windows, sinks, stoves, refrigerators, and many other surfaces.

### USE DILUTIONS

Average Everyday Cleaning: 1 1/2-2 ozs. per gallon of water should suffice. Always place Super Disit into container first, and follow with water; not visa versa.

### WAX REMOVAL

From 6 to 10 ozs. per gallon of hot water may be necessary to give good results. Allow solution to remain on surface for at least 5 minutes to dissolve excessive build-up of wax. It is not necessary to rinse. Merely pick up solution with a dry clean mop.

### RINSING

Should not be necessary if directions are followed. Can be rinsed if desired.

### CLEANING OVER WAXED SURFACES

If it is desired to clean a waxed surface without removing the wax, use a solution of Super Disit in cold water rather than warm or hot.

### DISINFECTING

- (A) For Urinals & Toilet Bowls:  
Use 1 oz. per gallon of water.
- (B) For Clothing:  
Use 2 ozs. per gallon of water.
- (C) Garbage Cans:  
Use 4 ozs. per gallon of water.
- (D) Shower Rooms, Locker Rooms & Hospital Rooms:  
Use 2-5 ozs. per gallon of water.
- (E) Kitchens:  
Use 3-6 ozs. per gallon of water.

**CAUTION**  
 Avoid contact with skin and eyes. Super Disit is harmful if taken internally. If the users skin is sensitive to the product, wash with soap and water any areas of the skin which may burn due to contact. Follow washing with a soothing hand lotion or skin cream. Avoid contamination of feed and foodstuffs.

We make no warranty of any kind, express or implied concerning the results of use of this product, due to the variety of use conditions over which we have no control. Buyer assumes all risk.
