

[4828-15]

ABFICIDE Aerosol Spray

Directions for Use

Remove cap, hold container upright with nozzle away from you. Press valve down and spray as directed.

To kill Flies, Mosquitos and Gnats, shut doors and windows and spray room at the rate of 5 to 6 seconds per 1000 cubic feet of space. Remove pets, birds and cover fish aquariums before spraying. Keep room closed for at least 15 minutes after spraying. Do not remain in treated areas. Ventilate the area after treatment is completed.

To kill Roaches and Silverfish, spray directly into cracks, crevices and other secluded places. Give particular attention to spraying around base boards, bookcases, shelves and other storage areas if silverfish are a problem.

To kill Ants, spray directly on insects, ant trails and other congregating areas. Thorough spraying or treatment of door sills and window frames is very important.

Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. Apply this product in these areas only when facility is not in operation.

WARNING

Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130 F may cause bursting. Never throw container into fire or incinerator.
